### Reading Comprehension (20 Marks)

**Read and answer the following questions.**

**A-** Along with outdoor pursuits such as jogging, cycling, football and hiking, power walking is a trend that is increasingly growing in popularity. However, this is not happening along the Corniche or Jumeirah Beach, in fact there's not a drop of sand to be seen, as this is taking place indoors in the shopping malls. Yes that's right — you can still get your daily workout in the height of the summer months, but in the cool of the spacious air-conditioned malls in the UAE.

**B-** Some may say it's a strange option to exercise in a mall, but the regular power walkers, or mall walkers, are real enthusiasts. They say that malls are cooler, have easier walking surfaces than outdoors and the thought of going to the mall seems more interesting than going to the gym. In addition, because of the controlled temperatures, which are at a constant 18°C to 20°C, you do not need to be concerned about hydration and your **fluid** intake as much as you would if you were walking outdoors in the heat.

**C-**The Abu Dhabi Mall opens its doors to walkers before the shopping centre is open to shoppers. Most days, from 7 am to 10 am, people of all different ages and backgrounds enjoy their workout in cool comfort. There were around 1000 registered walkers in 2015 and the number will be far higher in 2016. This is not surprising as, with 34 000 square metres of floor space, there's plenty of scope to set walking goals, track the distances you cover and meet, or go beyond, the average daily recommendations for walking.

**D-**The Emirates Mall in Dubai, on the other hand, doesn't have an organised walking programme, but **it** does welcome people to use their facilities for fitness and healthy activities. Therefore, you often can spot many individuals and groups who have organised walking activities around the mall for themselves. And that's not all they organise — the coffee shops are full of people who meet up afterwards for a coffee and a chat.

**Choose the correct word (s) to complete the sentence.(15 Marks)**

### Amazing animals

All animals can **1(breathe – breathes- breathed)** and move, but they're different in many amazing ways. All birds **2(has – have -had)** two legs, two wings and feathers, and most birds can fly. The wings and feathers **3(help – helps – helped)** them fly and the feathers help keep them warm. Birds lay eggs with hard shells. They keep the baby birds inside safe from animals that want to eat them. Fish have gills to help them breathe **4 (on – in- at)** water. Scales all over their bodies help keep them safe from **5 (dangerous – dangerous – deangerous)** fish that want to **6 (bite - bit – bites)** them. They don't have legs, but their fins and tails help them swim. Fish lay their eggs in water. And their eggs **7(is – are – was)** soft. Amphibians are very interesting because they can **8(live – lives- lived)** on land and in water. Amphibians **9(need – needs –needed)** to have wet skin, so they live in wet places.
