1 ( A while ago , For a time ago , Some while ago ), I met Fatima. 2 ( As a result , Since , Due to ) she was very busy, Fatima looked very exhausted. Fatima 3 ( who she , who she is , who is ) my best friend, told me she 4 ( didn't , doesn't , don't ) feel well and decided to visit the doctor. She 5 ( will explain , explained , was explained ) that she had been feeling tired for a few days , 6 ( which it made this , what it made , which made it ) difficult for her to focus at work. The doctor often ( confirms who , confirms that , confirming when ) health is 8 ( more important than , the much important , the most important ) matter in life and asked her to exercise regularly, 9 ( as well as , too , as well ) eating a balanced diet. He made clear that if she 10 ( had , has , would have ) taken better care of her health earlier, she 11 ( wouldn't be , won't be , can't be ) dealing with these issues now. He 12 ( also , as well , too ) advised her to drink more water, while she was working, to stay hydrated. If I 13 ( am , was , were ) Fatima , I'd follow the doctor's advice. 14 ( Also , Like , As well ) any workaholic, Fatima suddenly faces the music.. She says she 15 ( feels under the weather , feels the bad weather , feels for the weather ). I enjoy doing exercises daily. 16 ( On the point of , On the other hand , On the other side ), Fatima prefers working long hours. 17 ( Likewise , As well , Though ), her sister enjoyed working for a long time without rest 18 ( also , as well as , as well ). Studies 19 ( that demonstrate , to demonstrate that , demonstrate that ) those who work much are more stressed than those who have a balanced lifestyle.

Fatima is 20 ( on the condition that , on the idea that , on the point of ) starting fresh. She said she 21 ( would have tried , would be tried , would try ) to improve her lifestyle, 22 ( even though , because , unless ) she had a lot of responsibilities at work. This is 23 ( the better , the best , the good ) thing she has to do now. 24 ( Has , Have , Had ) she been more careful , she wouldn't be in such situation. She said that she was worried that her busy schedule 25 ( was , will , would ) prevent her from making time for exercise; 26 ( however , moreover , whatever ) she managed that well. The doctor 27 ( assured , has been assured , was assured ) her that it wasn't too late to make a change. He emphasized that people 28 ( that they stay , who stay that , that stay ) active are 29 ( most , more , better ) likely to live longer and healthier lives. He recommended that she 30 ( starting , to start , start ) walking every day, so that she could improve 31 ( both , either , also ) her physical and mental health. Fatima knew she felt stressed 32 ( because , owing to , despite ) her ignorance and monotonous lifestyle. If she 33 ( has realized , would have realized , had

realized ) the importance of a balanced lifestyle, she'd do something. 34 ( It has stated , It was stated , It was stating ) that the type of lifestyle is the main reason of stress. If Fatima knew this , she 35 ( would have reconsidered , would be reconsidering , would have reconsidering ) how she lived. 36 ( While that she , Whereas if she , While she ) only kept working, I was having a balanced lifestyle.

Some people find it hard to change, 37 ( the others whereas , when the others , while others ) can easily change. Fatima understood that making small changes is 38 ( more significant , the most significant , much significant ) now and was better than doing nothing, it would help her feel better, 39 ( also , as well , as well as ). She left the doctor's office feeling motivated, realizing that work should be 40 ( the less , the little , the least ) of her concerns. She was fully aware that she was about to collapse with work; 41 ( moreover, however , while ) determined to make time for herself. She 42 ( used to , has used to , is used to ) think only about work, but not anymore. 43 ( She was , Were she , She were ) keen to have a real life, she would have changed long time ago.
