MAZE 1

Text: Why Bees Matter

Bees are important pollinators that help plants grow, breed, and produce food. Without them, our food supply would be at serious risk. They pollinate many of the crops we eat every day, such as fruits and vegetables. Unfortunately, bee populations are declining. This is _____ (1) habitat loss and pesticide use. Governments and farmers _____ (2) work together to protect bee habitats. Planting more flowers and using fewer chemicals _____ (3) help. If we don't act now, we _____ (4) lose an essential part of our ecosystem.

1.
A. because of
B. although
C. instead of

2.
A. can
B. mustn't
C. have

3.
A. should
B. are
C. can

4.
A. will
B. would
C. had

MAZE 2

Text: The Impact of Remote Work

In recent years, remote work has become increasingly popular. While some people enjoy the flexibility it offers, others miss the social interaction of traditional offices. A major benefit is that employees can save time and money by not commuting. However, it is essential that communication tools _____ (1) used effectively to maintain productivity. Many companies have also found that remote workers _____ (2) more focused. Nevertheless, there are concerns about long-term effects on mental health. If people work alone too often, they may _____ (3) isolated. For this reason, managers should ensure regular check-ins _____ (4) encourage collaboration. Remote work also affects cities; with fewer people commuting, public transport and local businesses _____ (5) less revenue. In the
