Cloze Paragraph – Level C1

STUDENT: _____

READING 2: MY ROOF IS ALIVE

As cities continue to expand due to rapid **(1)** _____, planners are under pressure to design environments that can adapt to future challenges. A well-developed **(2)** _____ is essential, providing reliable transportation, water, and energy systems that support both residents and businesses. Modern architects now aim to create **(3)** _____ spaces that serve multiple purposes—offices that can double as community centers or rooftops that host gardens and solar panels.

To ensure long-term success, urban areas must be **(4)** _____—capable of recovering from natural disasters, economic crises, or social change. Every **(5)** _____ benefits when the city can maintain stability and safety during difficult times. Increasingly, governments seek to **(6)** _____ green technologies and environmentally friendly practices into their planning.

Building **(7)** _____ cities requires focusing on energy-efficient designs, such as using **(8)** _____ energy and materials that minimize waste. Effective **(9)** _____ in buildings can also reduce heating and cooling costs, promoting both comfort and conservation. However, there are still **(10)** _____ to such innovations, including high initial costs and the need for skilled labor to maintain these systems.

Word Bank: insulation – resilient – drawbacks – urbanization – renewable – inhabitant – multifunctional – sustainable – infrastructure – incorporate

SELF-ASSESSMENT 🌟 Context Clues Competence Checklist / Rubric

Criteria	Excellent (3)	Satisfactory (2)	Needs Improvement (1)
1. Understanding the Sentence Meaning	I clearly understand what the sentence means before choosing a word. I can explain how the sentence gives hints about the missing word.	I understand most of the sentence, but I may miss some hints or small details.	I choose words without fully understanding the sentence or its clues.
2. Using Context Clues Effectively	I use strong clues from nearby words, examples, or explanations to find the correct word.	I use some context clues but sometimes guess without checking the clues carefully.	I rarely use clues and mostly guess the answers.
3. Choosing and Checking the Correct Word	I select the most accurate word that fits both meaning and grammar. I double-check if it makes sense in the sentence.	I choose a word that fits partly, but not perfectly. I sometimes forget to check if it sounds right.	My chosen word often doesn't fit the meaning or grammar of the sentence.

Answer Key

1. urbanization
2. infrastructure
3. multifunctional
4. resilient
5. inhabitant
6. incorporate
7. sustainable
8. renewable
9. insulation
10. drawbacks

Cloze Paragraph – Level B2+

STUDENT: _____

READING 2: MY ROOF IS ALIVE

In many modern cities, rapid (1) _____ has led to crowded streets, polluted air, and a shortage of green spaces. One innovative solution is the development of green roofs, which transform ordinary rooftops into gardens or mini-ecosystems.

A green roof is designed to be (2) _____, able to survive extreme weather conditions and adapt to environmental changes. Architects carefully (3) _____ water-saving systems, soil layers, and plant species into the roof's design.

These roofs also improve a building's (4) _____, reducing energy costs by keeping interiors warmer in winter and cooler in summer. Some designs are (5) _____, serving as a recreational area, a small vegetable garden, and even a rainwater collection system—all in one.

However, there are some (6) _____. Green roofs require regular maintenance, can be costly to install, and add weight to the structure, which must be supported by the existing (7) _____.

These projects encourage the use of (8) _____ energy and materials, contributing to more (9) _____ cities where both people and nature can thrive. Each (10) _____ of a green roof enjoys the benefits of greenery above their heads.

Word Bank insulation – resilient – drawbacks – urbanization – renewable

inhabitant – multifunctional – sustainable – infrastructure - incorporate
