🌟 Grade 12 Advanced Reading Tips – EOT 3 🌟

Dear student, 💙

Since your English exam is very close, here are some important **Reading tips** to help you answer the reading section more confidently and

successfully.

What will you have in Reading?

In the exam, you will answer **two reading texts**:

Reading 3A

- Argumentative text
- Theme: **Delicious Food, Deadly Stoves**
- 8 multiple-choice questions

Reading 3B

- Expository text
- Theme: **What's the Diagnosis?**
- 8 multiple-choice questions

✨ Important Reading Skills

You need to be ready for these question types:

◆ Specific Information

Find direct information from the text.

◆ Details

Focus on important details and accurate facts.

◆ Inference

Understand ideas that are **not directly stated**, but can be understood from the text.

◆ Mood and Tone

Identify the writer's feelings, attitude, or purpose.

◆ Overall Meaning / Main Idea

Understand the general idea of the whole text.

◆ Connections (*especially in Reading 3B*)

Understand the relationship between ideas, causes and effects, or examples.

How to Answer the Reading Section

1) Read the questions first

Before reading the whole text, quickly read the questions.

This helps you know what to look for.

2) Underline keywords

Underline important words in the question such as:

- names
- places
- key ideas
- repeated words

3) Go back to the text and scan

Do not read every word slowly at first.

Look for the keyword or a **similar meaning / synonym** in the text.

4) Read around the answer

When you find the keyword, read the sentence **before it and after it**.

The answer is often hidden in the surrounding lines.

5) Know the question type

Ask yourself:

- Is it asking for a **detail**?
- Is it asking for an **inference**?
- Is it asking for the **main idea**?
- Is it asking about the writer's **tone**?

6) Use elimination

If you are not sure, remove the wrong answers first.

Usually, a wrong answer:

- is not mentioned in the text
- changes the meaning
- is too extreme
- includes an extra idea not found in the text

7) Do not panic because of difficult words

You do **not** need to understand every single word.

Try to understand the **main meaning** from the sentence and the paragraph.

8) Answer from the text, not from your own opinion

Always choose the answer based on the text only.

Tips for Each Question Type

Specific Information / Details

- Find the paragraph or line that talks about the question.
- Look for a keyword or a synonym.
- Read carefully and choose the exact meaning.

Inference Questions

These questions ask you to understand what the writer **suggests**.

The answer is **not directly written**, so think carefully:

- What does the writer want us to understand?
- What is the hidden meaning?

Mood and Tone

Ask yourself:

- Is the writer **informative**?
- **serious**?
- **worried**?
- **persuasive**?
- **critical**?

Look at the writer's word choice and attitude.

Main Idea / Overall Meaning

To answer this type:

- focus on the **whole text**
- read the first paragraph and the last paragraph carefully
- think about the general message, not one small detail

Connections

Look for relationships such as:

- cause and effect
- problem and solution
- opinion and support
- explanation and example

During the Exam

✓ Do:

- stay calm
- read the questions carefully
- underline keywords
- return to the text for evidence
- manage your time wisely
- leave difficult questions and come back to them later if needed

✗ Don't:

- guess too quickly
- choose an answer without checking the text
- spend too much time on one difficult word
- panic if the text looks long

Final Advice

You do **not** need to be perfect.

You only need to be **smart in the way you read and answer.**

Focus on:

- understanding the question
- finding evidence in the text
- choosing carefully between the options

With practice, you can improve a lot in a short time. 💪 ✨ ✨

Believe in yourself, stay calm, and do your best.

Good luck in your exam! ❤️ 📖
