الفصل الأول

نموذج امتحاني كامل بمواصفات الهيكل الوزاري

Gemini Notebook

Grade 9 Advanced (Stage 6) | Term 1 Assessment Blueprint

Total Score: 100 Marks

Section	Platform	Grading Weight
Domain 1: Reading (60 Marks) — Platform: SwiftAssess		
Part 1: Vocabulary	Working towards GLG	10 Marks
Part 2: Grammar	At GLG	10 Marks
Part 3A: Reading 1	At GLG (CEFR B1.2)	24 Marks
Part 3B: Reading 2	Beyond GLG (CEFR B2.1)	16 Marks
Domain 2: Writing (40 Marks) — Platform: Paper-based		
Part 4: Task 1.1 Summary	At GLG	15 Marks
Part 4: Task 1.2 Opinion Essay	At GLG	25 Marks

Gemini Notebook

Target: Unit vocabulary
Level: Working towards GLG
Length: 160 Words
Structure: 5 Gaps
Weight: 10 Marks (2 per gap)

Read the text and choose the correct word (A, B, or C) to complete each sentence.

When starting college, sharing an apartment with a new (1) _____ can be challenging. You must respect each other's (2) _____ and learn to communicate effectively. It is also important to keep track of every assignment (3) _____ using a detailed weekly (4) _____. Furthermore, adapting to a completely different (5) _—especially when dealing with high summer humidity and changing temperatures—requires patience and preparation.

(1)	A. roommate	B. authority	C. regulation
(2)	A. deadline	B. privacy	C. schedule
(3)	A. community	B. deadline	C. climate
(4)	A. schedule	B. colleague	C. season
(5)	A. regulation	B. climate	C. roommate

Gemini Notebook

Target: Past continuous, relative clauses, modals, indirect questions
Level: At GLG
Length: 160 Words
Structure: 5 Gaps
Weight: 10 Marks (2 per gap)

Read the text and choose the correct word or structure (A, B, or C) to complete each sentence.

Last winter, while a severe storm (6) _____ across the city, emergency teams were working hard to keep citizens safe. The meteorological department (7) _____ issued a warning before the hazardous winds arrived. People who lived in coastal areas needed (8) _____ their homes immediately. Fortunately, the local authorities, (9) _____ managed the crisis efficiently, prevented major damage. Citizens often ask (10) _____ the local shelters will remain open for the rest of the week.

(6)	A. sweeps	B. was sweeping	C. has swept
(7)	A. already	B. yet	C. still
(8)	A. evacuate	B. evacuating	C. to evacuate
(9)	A. which	B. who	C. whose
(10)	A. that	B. if	C. what

Gemini Notebook

Part 3A: Reading 1

Level: At GLG (CEFR B1.2)

Text Type: Expository

Word Count: 250-270 Words

Total Weight: 24 Marks

Living in Shared Communities

Modern urban living has introduced new ways for people to connect and share resources. In many modern residential complexes, community sharing has transformed from a casual favor into an organized lifestyle. Residents now share everything from garden tools and bicycles to working spaces and laundry facilities. This shift is driven not only by the desire to save money but also by an increasing awareness of environmental sustainability.

Sharing items reduces overall consumption, meaning fewer resources are wasted on manufacturing goods that sit idle most of the time. For instance, a lawnmower is typically used for only a few hours a month by a single household. By sharing it among five or six neighbors, utility is maximized while waste is minimized. Moreover, shared spaces like community kitchens or co-working lounges foster a strong sense of belonging and mutual trust among neighbors, breaking the isolation often found in large cities.

However, community sharing is not without challenges. Issues such as property damage, scheduling conflicts, and lack of maintenance responsibility can create friction. To overcome these hurdles, successful shared communities rely on clear regulations, digital booking applications, and a designated community manager who oversees the system. Ultimately, when managed properly, sharing models can significantly improve urban living standards stindards while building resilient neighborhoods.

Gemini Notebook

(3 Marks Each)

1. What is the primary driving force behind modern community sharing according to the text?

A. The desire to save money and promote environmental sustainability.
B. The strict regulations enforced by local municipal authorities.
C. The complete elimination of privately owned tools and appliances.

2. How often is a typical household lawnmower used according to the text?

A. Every single day of the week.
B. For only a few hours a month.
C. Throughout the entire weekend.

3. What secondary benefit do shared spaces like co-working lounges provide?

A. They completely remove the need for private apartments.
B. They foster a strong sense of belonging and reduce urban isolation.
C. They lower the overall electricity costs for the entire city.

4. Which of the following is mentioned as a potential challenge in community sharing?

A. Excessive manufacturing of household goods.
B. Property damage and scheduling conflicts.
C. A complete lack of interest from city residents.

almanahj.com/ae
Gemini Notebook

(3 Marks Each)

5. What tool helps successful communities overcome scheduling and management hurdles?

A. Digital booking applications.
B. Printed neighborhood newspapers.
C. Traditional postal mail services.

6. According to the text, what role does a designated community manager play?

A. They manufacture new tools for the residents.
B. They oversee the sharing system and resolve disputes.
C. They collect monthly rental fees for private properties.

7. What does the word 'foster' most likely mean in the context of paragraph 2?

A. To destroy or weaken completely.
B. To encourage and develop.
C. To ignore or neglect.

8. What is the overall main idea of this text?

A. Shared living spaces and resource sharing offer economic and social benefits but require proper management to succeed.
B. Urban residents should completely stop buying private tools and rely entirely on public stores.
C. Modern technology has made community living completely unnecessary in large cities.

Gemini Notebook

Part 3B: Reading 2
Level: Beyond GLG (CEFR B2.1)
Text Type: Expository
Word Count: 250-270 Words
Total Weight: 16 Marks

Understanding Severe Weather and Climate Impact

Weather phenomena across the globe have become increasingly intense due to shifts in global climate patterns. Extreme meteorological events, ranging from prolonged droughts to severe thunderstorms and gale-force winds, present profound challenges to modern infrastructure. Understanding how these systems operate is critical for designing resilient cities capable of withstanding environmental shocks.

At the core of severe weather formation is the interaction between atmospheric temperature, humidity, and air pressure. When warm, moisture-laden air rises rapidly and encounters cold air masses, powerful cumulonimbus clouds form, frequently resulting in violent thunderstorms. These events not only cause immediate physical damage to buildings and power grids but also have long-term psychological impacts on affected communities. People living in hazard-prone regions often experience heightened anxiety during storm seasons, necessitating advanced early-warning systems and robust community preparedness programs.

Mitigating the impacts of severe weather requires a multidisciplinary approach combining architecture, meteorology, and urban planning. Engineers are now incorporating advanced materials and aerodynamic designs into buildings to resist high-velocity winds. Simultaneously, meteorological agencies utilize satellite technology to track atmospheric disturbances days in advance, providing crucial windows for evacuation and protection. As global temperatures continue to fluctuate, bridging the gap between scientific research and practical urban adaptation remains our strongest defense against nature's unpredictability.

Gemini Notebook

(2 Marks Each)

9. What is identified as the primary catalyst for the increasing intensity of global weather events?

A. Shifts in global climate patterns.
B. The construction of high-rise buildings.
C. Reductions in urban population density.

10. What specific clouds are formed when warm, humid air rises and meets cold air masses?

A. Cumulus clouds.
B. Cumulonimbus clouds.
C. Stratus clouds.

11. Besides physical destruction, what secondary consequence of severe storms is mentioned?

A. Severe economic inflation across global markets.
B. Long-term psychological impacts and anxiety in affected communities.
C. Permanent migration from rural areas to major megacities.

12. What technological tool do meteorological agencies rely on to track atmospheric disturbances in advance?

A. Satellite technology.
B. Underground seismic sensors.
C. Ocean mapping sonar systems.

Gemini Notebook

(2 Marks Each)

13. What can be inferred about the author's perspective on modern urban planning?

A. It should focus exclusively on aesthetic design rather than safety.
B. It must integrate scientific research and advanced architecture to combat weather threats.
C. It has successfully eliminated all risks associated with natural disasters.

14. How does this text connect to broader real-world environmental challenges?

A. It highlights the urgent need for global cooperation and resilient engineering in response to climate change.
B. It proves that weather patterns are entirely predictable and harmless to human settlements.
C. It suggests that individuals should stop living in urban environments altogether.

15. Based on the passage, what can be predicted about future urban architectural designs?

A. They will likely feature aerodynamic structures and advanced materials to resist extreme winds.
B. They will abandon all insulation and drainage systems to save construction costs.
C. They will rely solely on traditional wood materials without modern reinforcements.

16. What is the overall primary message of the passage?

A. Severe weather is an unstoppable force that humans cannot prepare for.
B. Combating intense weather phenomena requires advanced scientific tracking, resilient architecture, and proactive planning.
C. Climate changes only affect rural agricultural sectors rather than urban infrastructure.

Task 1.1 Summary | At GLG | Paper-based | 15 Marks

Shared-living arrangements and community resource sharing have gained massive popularity among students and young professionals in urban areas. By sharing utilities, appliances, and common living spaces, individuals can drastically reduce their monthly living expenses. Furthermore, living in shared communities helps combat feelings of loneliness and isolation by encouraging daily social interactions, teamwork, and mutual support among residents. Intereact onitale, suppont among residents. However, maintaining harmony requires clear house rules, digital scheduling tools, and respectful communication to prevent conflicts over chores and shared property.

Student Prompt

Read the text above and write the main ideas in your own words. Write 3-4 sentences.

almanahj.com/ae
2026 2025
Gemini Notebook

Task 1.2 Opinion Essay | At GLG | Paper-based | 25 Marks | Minimum 150 words

Many people believe that shared living and community resource programs are essential for modern urban life, while others prefer living completely independently. Write an opinion essay discussing whet you think shared living is a positive choice for young adults.

Essay Requirements

- [ ] Include your general opinion on shared living arrangements.
- [ ] Discuss the main benefits of sharing spaces and resources with others.
- [ ] Address potential drawbacks or challenges and how they can be managed.
- [ ] Organize writing into clear paragraphs.
