Total Assessment: 60 Marks (SwiftAssess) + 40 Marks (Paper) = **100** Marks Overall.

Part	Skill	Level (CEFR)	Format / Word Count	Marks
Part 1	Vocabulary	Towards Grade Level	160 words / 5 MCQs	10 Marks
Part 2	Grammar	At Grade Level	160 words / 5 MCQs	10 Marks
Part 3A	Reading 1	At Grade Level (B1.2)	Expository (250-270w) / 8 MCQs	24 Marks
Part 3B	Reading 2	Beyond Grade Level (B2.1)	Expository (250-270w) / 8 MCQs	16 Marks
Part 4	Writing	At Grade Level	Task 1.1 (Summary, 15m) & 1.2 (Opinion Essay, 25m)	40 Marks

Gemini Notebook

Model 1: Part 1 - Vocabulary

Starting university life or moving into a new student accommodation requires proper planning. Sharing a flat with a new (1) _____ can sometimes be challenging if boundaries are not respected. Both individuals must follow the building's strict (2) regarding noise levels and shared areas. Furthermore, managing your daily schedule is crucial to meeting every academic (3) _____ without feeling overwhelmed. When the weather outside changes drastically, especially during sudden shifts in (4) ____, living spaces need to be well-insulated. Choosing the right (5) __ for your clothing, such as cotton or wool, also helps you stay comfortable indoors.

1.	A. colleague	B. roommate	C. authority
2.	A. regulations	B. climates	C. deadlines
3.	A. temperature	B. deadline	C. humidity
4.	A. humidity	B. privacy	C. community
5.	A. fabric	B. schedule	C. rule

Model 1: Part 2 - Grammar

Yesterday afternoon, while the research team (6) _____ data on urban weather patterns, a sudden thunderstorm struck the area. The lead scientist, (7) _____ had studied meteorology for over a decade, immediately secured the sensitive equipment. Students wanted (8) _____ how the storm formed so rapidly. The professor explained that severe weather events require everyone (9) _____ safety protocols strictly. Later, the students discussed (10) the new climate prediction model was more accurate than the previous one.

6.	A. are collecting	B. were collecting	C. collected
7.	A. which	B. who	C. whose
8.	A. understand	B. to understand	C. understanding
9.	A. follow	B. following	C. to follow
10.	A. whether	B. what	C. which

Gemini Notebook

Model 1: Part 3A - Reading (At Level)

Living in shared student accommodation is an enriching experience that teaches young adults valuable life lessons about cooperation and mutual respect. When students leave their family homes for the first time, they often encounter diverse personalities and lifestyles. Sharing common spaces like kitchens and living rooms demands effective communication and clear agreements. For instance, creating a cleaning rota ensures that chores are distributed fairly among all flatmates, preventing minor disagreements from escalating into major conflicts. Moreover, respecting each other's need for privacy and quiet study time is essential for academic success. While challenges inevitably arise, navigating these situations builds emotional maturity, adaptability, and interpersonal skills that prove invaluable in future professional environments. Ultimately, shared living is not merely about splitting rent; it is a foundational step toward independence and social integration.

11. What is the overall meaning of the text?

A. Financial benefits of renting alone.

B. Challenges and personal growth from shared living.

C. Importance of professional cleaners.

12. According to the text, what do students often encounter when leaving family homes?

A. Strict professors.

B. Diverse personalities and lifestyles.

C. Fully furnished luxury villas.

13. Which shared spaces are specifically mentioned?

A. Libraries and lecture halls.

B. Kitchens and living rooms.

C. Gardens and parking lots.

14. What does a cleaning rota help prevent?

A. Minor disagreements from turning into major conflicts.

B. High electricity bills.

C. Academic failure.

Model 1: Part 3A - Reading (At Level)

Living in shared student accommodation is an enriching experience that teaches young adults valuable life lessons about cooperation and mutual respect. When students leave their family homes for the first time, they often encounter diverse personalities and lifestyles. Sharing common spaces like kitchens and living rooms demands effective communication and clear agreements. For instance, creating a cleaning rota ensures that chores are distributed fairly among all flatmates, preventing minor disagreements from escalating into major conflicts. Moreover, respecting each other's need for privacy and quiet study time is essential for academic success. While challenges inevitably arise, navigating these situations builds emotional maturity, adaptability, and interpersonal skills that prove invaluable in future professional environments. Ultimately, shared living is not merely about splitting rent; it is a foundational step toward independence and social integration.

15. Why is respecting privacy important?

A. Saves money on rent.

B. Ensures quiet study time and academic success.

C. Prevents weather-related damages.

16. What does the word 'inevitably' most closely mean?

A. Avoidably and rarely.

B. Certainly and unavoidably.

C. Surprisingly and pleasantly.

17. What professional benefit is gained from shared living?

A. Advanced coding skills.

B. Emotional maturity, adaptability, and interpersonal skills.

C. Direct employment in real estate.

18. What is shared living ultimately described as?

A. A temporary inconvenience.

B. A foundational step toward independence and social integration.

C. A university requirement.

Model 1: Part 3B - Reading (Beyond Level)

Meteorological phenomena such as extreme heatwaves and severe storms are becoming increasingly frequent across the globe, prompting scientists to reevaluate climate resilience strategies. Urban areas, characterized by extensive asphalt and concrete surfaces, frequently experience the 'urban heat island' effect, where temperatures significantly exceed those of surrounding rural regions. This phenomenon not only escalates energy consumption due to air conditioning demands but also poses serious health hazards, particularly for vulnerable populations. To mitigate these impacts, urban planners are integrating innovative solutions, such as green roofs covered in vegetation, which absorb solar radiation and improve natural stormwater drainage. Furthermore, public awareness campaigns and early warning systems play a pivotal role in community preparedness, ensuring that citizens can respond effectively when hazardous weather warnings are issued. Without proactive architectural and environmental adaptations, our cities will struggle to cope with escalating climatic pressures.

19. What is the overall theme of the passage?
A. History of rural agriculture.
B. Causes of urban heat islands and strategies for climate resilience.
C. Financial costs of air conditioning.

---

20. What characterizes urban areas according to the text?
A. Extensive forests and lakes.
B. Extensive asphalt and concrete surfaces.
C. Low population density.

---

21. What is the 'urban heat island' effect?
A. Temperatures in cities exceeding surrounding rural regions.
B. Volcanic eruptions under urban centers.
C. Ocean currents warming coastal zones.

---

22. What problem is caused by increased air conditioning demands?
A. Reduced public transportation usage.
B. Escalated energy consumption and health hazards.
C. Decreased rainfall.

Model 1: Part 3B - Reading (Beyond Level)

Meteorological phenomena such as extreme heatwaves and severe storms are becoming increasingly frequent across the globe, prompting scientists to reevaluate climate resilience strategies. Urban areas, characterized by extensive asphalt and concrete surfaces, frequently experience the “urban heat island” effect, where temperatures significantly exceed those of surrounding rural regions. This phenomenon not only escalates energy consumption due to air conditioning demands but also also poses serious health hazards, particularly for vulnerable populations. To mitigate these impacts, urban planners are integrating innovative solutions, such as green roofs covered in vegetation, which absorb solar radiation and improve natural stormwater drainage. Furthermore, public awareness campaigns and early warning systems play a pivotal role in community preparedness, ensuring that citizens can respond effectively when hazardous weather warnings are issued. Without proactive architectural and environmental adaptations, our cities will struggle to cope with escalating climatic pressures.

23. How do green roofs help mitigate urban heat?
A. By reflecting sunlight into space.
B. By absorbing solar radiation and improving stormwater drainage.
C. By generating wind power.

24. Based on the context, what does the word “mitigate” mean?
A. To make less severe or serious.
B. To increase or accelerate.
C. To ignore completely.

25. How do early warning systems influence community preparedness?
A. Allow citizens to evacuate cities permanently.
B. Ensure citizens can respond effectively to hazardous warnings.
C. Prevent storms from forming.

26. What does the author predict will happen without proactive adaptations?
A. Cities will naturally adapt.
B. Cities will struggle to cope with escalating climatic pressures.
C. Rural areas will become dense hubs.

Gemini Notebook

Model 2: Part 1 - Vocabulary

When preparing for a career or managing a busy lifestyle, keeping track of every (1) _____ is vital. Office workers often share an open-plan workspace with a friendly (2) _____ who helps maintain a productive atmosphere. However, everyone values their personal (3) _____ after working hours to rest and recharge. When extreme weather strikes, meteorologists issue severe weather (4) _____ to alert citizens about potential dangers. It is essential for city infrastructures to absorb heavy rainfall efficiently through proper (5) _____ systems.

1.	A. humidity	B. schedule	C. fabric
2.	A. colleague	B. temperature	C. warning
3.	A. damage	B. privacy	C. season
4.	A. skills	B. warnings	C. roommates
5.	A. drainage	B. community	C. authority

Model 2: Part 2 - Grammar

Last winter, the weather conditions were (6) _____ harsher than usual, causing widespread disruptions across the city. Residents wanted to know (7) _____ the local authorities planned to clear the snow-covered roads. People (8) _____ walked outside had to wear heavy winter clothing to protect themselves from the freezing temperatures. The city council managed (9) _____ emergency rescue services efficiently throughout the crisis. Citizens praised the volunteers (10) _____ worked tirelessly to help stranded motorists.

6.	A. more	B. much	C. most
7.	A. how	B. what	C. that
8.	A. which	B. who	C. whose
9.	A. coordinate	B. coordinating	C. to coordinate
10.	A. which	B. who	C. where

Model 2: Part 3A - Reading (At Level)

Building a strong community in educational and residential settings requires active participation and mutual respect. When students or employees enter a new environment, establishing clear rules and schedules helps maintain order and reduces stress. Authority figures, such as resident assistants or department managers, play a crucial role in enforcing regulations and ensuring that everyone's rights to privacy and quiet are protected. Furthermore, coping with tight deadlines and heavy workloads becomes significantly easier when individuals support one another. Effective communication bridges cultural gaps and fosters a welcoming atmosphere where diverse individuals can thrive. Ultimately, community well-being relies on a balance between individual responsibility and collective cooperation.

11. What is the overall message of the text?
    A. Economic benefits of online shopping.
    B. Importance of active participation, rules, and cooperation.
    C. History of architectural engineering.

---

12. What helps maintain order and reduce stress?
    A. Ignoring established regulations.
    B. Establishing clear rules and schedules.
    C. Working in complete isolation.

---

13. Who are mentioned as authority figures?
    A. Resident assistants or department managers.
    B. Weather forecasters.
    C. University students and roommates.

---

14. What is the role of authority figures?
    A. To enforce regulations and protect privacy rights.
    B. To grade exams.
    C. To design sustainable buildings.

Furthermore, coping with tight deadlines and heavy workloads becomes significantly easier when individuals support one another. Effective communication bridges cultural gaps and fosters a welcoming atmosphere where diverse individuals can thrive. Ultimately, community well-being relies on a balance between individual responsibility and collective cooperation.

15. When does coping with tight deadlines become easier?
    A. When individuals isolate themselves.
    B. When individuals support one another.
    C. When deadlines are cancelled.

---

16. What does the word 'fosters' mean?
    A. Encourages or promotes.
    B. Destroys or hinders.
    C. Ignores or neglects.

---

17. What does effective communication bridge?
    A. Cultural gaps.
    B. Electrical circuits.
    C. Highway bridges.

---

18. What does community well-being ultimately rely on?
    A. Strict financial penalties.
    B. A balance between individual responsibility and collective cooperation.
    C. Complete government control.

Gemini Notebook

Model 2: Part 3B - Reading (Beyond Level)

Adapting to shifting climatic patterns demands innovative engineering and a fundamental shift in how we design our living spaces. As global temperatures rise and extreme weather events become more frequent, traditional infrastructure is frequently pushed to its limits. Engineers are now focusing on sustainable materials and smart technologies that can absorb or reflect extreme heat, minimizing damage to residential and commercial properties. For example, modern textiles used in building insulation provide superior thermal protection while remaining eco-friendly. Moreover, community-led disaster preparedness initiatives empower citizens to act swiftly during emergencies, reducing casualties and property losses. Integrating these resilience measures is no longer optional; it is an absolute necessity for sustainable urban survival in the twenty-first century.

19. What is the overall meaning of the text?
    A. Necessity of innovative engineering and adaptation for sustainable urban survival.
    B. History of textile manufacturing.
    C. Financial benefits of moving away from cities.

---

20. What is happening to traditional infrastructure as global temperatures rise?
    A. It is becoming stronger.
    B. It is frequently pushed to its limits.
    C. It is being completely replaced by forests.

---

21. What are engineers focusing on to minimize property property damage?
    A. Sustainable materials and smart technologies.
    B. Building taller skyscrapers.
    C. Removing all insulation.

---

22. What benefits do modern insulation textiles provide?
    A. Superior thermal protection while remaining eco-friendly.
    B. Lower internet speeds.
    C. Increased indoor humidity.

Model 2: Part 3B - Reading (Beyond Level)

Adapting to shifting climatic patterns demands innovative engineering and a fundamental shift in how we design our living spaces. As global temperatures rise and extreme weather events become more frequent, traditional infrastructure is frequenttly pushed to its limits. Engineers are now focusing on sustainable materials and smart technologies that can absorb or reflect extreme heat, minimizing damage to residential and commercial properties. For example, modern textiles used in building insulation provide superior thermal protection while remaining eco-friendly. Moreover, community-led disaster preparedness initiatives empower citizens to act swiftly during emergencies, reducing casualties and property losses.

Integrating these resilience measures is no longer optional; it is an absolute necessity for sustainable urban survival in the twenty-first century.

23. What role do community-led disaster preparedness initiatives play?
A. They empower citizens to act swiftly, reducing casualties.
B. They prevent climate change globally.
C. They replace professional rescue teams.

---

24. Based on context, what does "resilience" mean?
A. Capacity to recover quickly from difficulties.
B. Inability to change under pressure.
C. Tendency to break easily.

---

25. How do citizens respond when empowered by preparedness initiatives?
A. They panic and leave.
B. They act swiftly during emergencies.
C. They ignore weather warnings.

---

26. How does the author view the integration of these resilience measures?
A. As an unnecessary luxury.
B. As an absolute necessity for sustainable urban survival.
C. As a temporary trend.

Gemini Notebook

Model 3: Part 1 - Vocabulary

Living in a bustling metropolis offers numerous career opportunities, but it also brings challenges like heavy opportunities, but it also brings challenges like heavy traffic and urban (1) _____. To cope with high living costs, many young professionals learn how to manage budgets carefully and avoid financial stress. Working alongside a dedicated (2) _____ in a collaborative office environment greatly enhances daily productivity. When severe weather warnings are announced, residents must check the outdoor (3) _____ before planning any travel. Furthermore, utilizing advanced building (4) _____ helps protect properties from storm (5) _____.

1. A. privacy
   B. congestion
   C. schedule

2. A. roommate
   B. colleague
   C. authority

3. A. temperature
   B. regulation
   C. deadline

4. A. infrastructure
   B. humidity
   C. climate

5. A. safety
   B. damage
   C. ability

Model 3: Part 2 - Grammar

While the meteorologists (6) _____.
While the meteorologists (6) _____ the approaching storm on radar, citizens received emergency alerts on their phones. The new weather warning system, (7) _____ was recently installed across the city, proved to be extremely effective. Officials asked residents (8) _____ indoors until the hazardous winds subsided completely. People wanted to know (9) _____ flights at the local airport had been delayed. As technology improves, modern forecasting tools are becoming (10) _____ accurate than ever before.

6. A. monitor
   B. were monitoring
   C. monitored

7. A. which
   B. who
   C. where

8. A. stay
   B. staying
   C. to stay

9. A. what
   B. whether
   C. which

10. A. much
    B. more
    C. most

Model 3: Part 3A - Reading (At Level)

Balancing personal privacy with professional responsibilities is one of the greatest challenges of modern adult life. Whether living with a roommate or working in a corporate office, individuals must navigate complex social dynamics and strict regulations. Managing time effectively against tight deadlines requires strong organizational skills and mental discipline. When conflicts arise between colleagues or flatmates, open dialogue and mutual compromise are compromise are essential to maintaining harmony. Furthermore, understanding institutional authority and following community guidelines ensures that everyone feels safe and respected. Developing these interpersonal skills during early adulthood paves the way for long-term personal fulfillment and career success.

11. What is the overall theme of the text?

A. History of corporate finance management.
B. Balancing personal privacy, professional responsibilities, and social dynamics.
C. Meteorological science behind storms.

---

12. What is described as one of the greatest challenges of modern adult life?

A. Balancing personal privacy with professional responsibilities.
B. Finding affordable airline tickets.
C. Designing eco-friendly clothing textiles.

---

13. What do individuals need to navigate in offices or apartments?

A. Complex social dynamics and strict regulations.
B. Complex weather patterns and storms.
C. Advanced programming languages.

---

14. What is required to meet tight deadlines successfully?

A. Strong organizational skills and mental discipline.
B. Complete isolation from other people.
C. High humidity and warm temperatures.

Gemini Notebook

When conflicts arise between colleagues or flatmates, open dialogue and mutual compromise are compromise are essential to maintaining harmony. Furthermore, understanding institutional authority and following community guidelines ensures that everyone feels safe and respected. Developing these interpersonal skills during early adulthood paves the way for long-term personal fulfillment and career success.

15. How should conflicts between colleagues or flatmates be resolved?

A. Through open dialogue and mutual compromise.
B. By ignoring the problem entirely.
C. By reporting them to international courts.

---

16. What does the word 'harmony' most closely mean?

A. Peaceful and cooperative coexistence.
B. Constant argument and tension.
C. Total silence and isolation.

---

17. What does following community guidelines ensure?

A. That everyone feels safe and respected.
B. That buildings are protected from earthquakes.
C. That public transportation runs faster.

---

18. What does developing interpersonal skills pave the way for?

A. Long-term personal fulfillment and career success.
B. Immediate retirement.
C. Exemption from exams.

Gemini Notebook

Model 3: Part 3B - Reading (Beyond Level)

The rapid expansion of global megacities has transformed human habitation, bringing both unprecedented economic opportunities and severe environmental challenges. Urban congestion, elevated air pollution, and strained infrastructure are pressing issues that demand innovative architectural and governmental interventions. Planners are increasingly turning towards smart city solutions, such as intelligent traffic management systems and energy-efficient building designs, to reduce ecological footprints. Moreover, incorporating biodiversity and green spaces within concrete landscapes improves urban air quality and psychological well-being. Without a concerted global effort to modernize municipal management, future urban growth could lead to catastrophic environmental degradation.

19. What is the overall meaning of the text?
A. Economic benefits of rural farming communities.
B. Challenges of megacities and the need for smart interventions.
C. History of ancient architecture.

---

20. What dual outcomes have resulted from the expansion of megacities?
A. Economic opportunities and severe environmental challenges.
B. Decreased population and empty streets.
C. Lower energy consumption.

---

21. Which specific urban problems are highlighted?
A. Urban congestion, air pollution, and strained infrastructure.
B. Lack of educational universities.
C. Excessive rainfall and frozen winters.

---

22. What solutions are urban planners turning towards?
A. Smart city solutions like intelligent traffic and energy-efficient designs.
B. Expanding highways and removing parks.
C. Stopping all industrial manufacturing.

Planners are increasingly turning towards smart city solutions, such as intelligent traffic management systems and energy-efficient building designs, to reduce ecological footprints. Moreover, incorporating biodiversity and green spaces within concrete landscapes improves urban air quality and psychological well-being. Without a concerted global effort to modernize municipal management, future urban growth could lead to catastrophic environmental degradation.

23. What benefits do green spaces provide within concrete landscapes?
   A. Improved urban air quality and psychological well-being.
   B. Higher electricity bills.
   C. Increased commercial advertising revenue.

---

24. Based on the context, what does "degradation" mean?
   A. The process of deteriorating or declining in quality.
   B. The rapid improvement of infrastructure.
   C. The successful completion of a project.

---

25. How do intelligent traffic systems connect to environmental goals?
   A. By reducing congestion and lowering ecological footprints.
   B. By eliminating public transportation.
   C. By increasing vehicle speeds.

---

26. What does the author predict if municipal management is not modernized?
   A. Urban areas will naturally heal themselves.
   B. Future urban growth could lead to catastrophic environmental degradation.
   C. Citizens will migrate to rural lifestyles.

	Task 1.1 (Summary - 15 Marks)	Task 1.2 (Opinion Essay - 25 Marks, min 150 words)
Model 1: Shared Living	Summarize: “Living with roommates teaches students valuable lessons in compromise, communication, and managing responsibilities together. While conflicts over chores or privacy can happen, they can happen, they provide an opportunity for young adults to build emotional maturity and prepare for future independence.”	**Prompt:** “Is living in a shared student accommodation better than living alone?” **Includes:** Personal opinion, advantages/disadvantages, conclusion.
Model 2: Climate Adaptation	Summarize: “Cities around the world are facing severe weather challenges due to rising global temperatures. To protect urban populations, city planners are implementing green spaces, smart insulation, and advanced drainage systems to ensure long-term sustainability.”	**Prompt:** “How can individuals and cities better prepare for extreme weather conditions and climate change?” **Includes:** Main challenges, practical solutions, conclusion on proactive action.
Model 3: Megacities	**Summarize:** “Megacities offer great economic benefits, but they also suffer from severe pollution, traffic congestion, and infrastructure strain. Implementing smart city technologies and green spaces is vital for sustainable urban development.”	**Prompt:** “Is living in a bustling megacity better than living in a quiet small town?” **Includes:** Personal perspective, comparison of lifestyle/environment, supported conclusion.
