Activity 2

Colour the faces of the objects to match the 3D model.

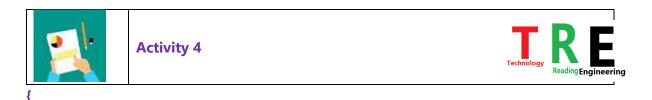

TA

Draw the shapes freehand in the space provided. Name the shapes.

TA

Any appropriate sketch of the correct shape

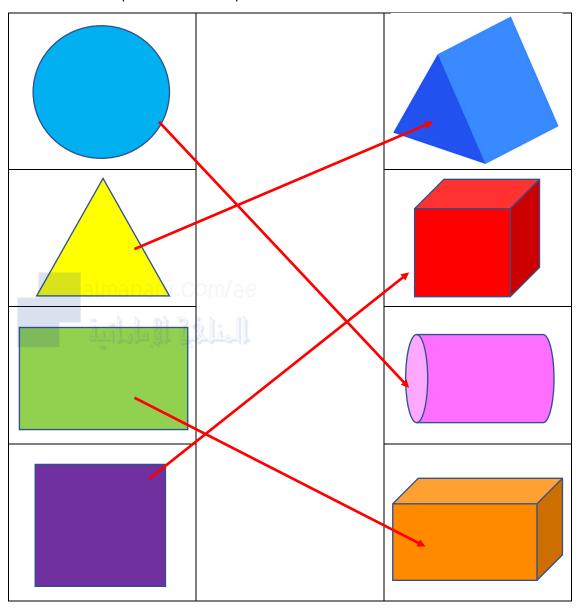

Draw a robot using shapes from activity 3.

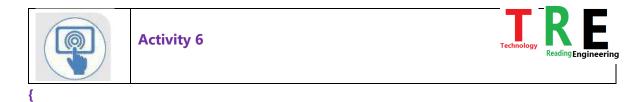

TA

Any appropriate sketch of a robot using shapes from activity 3. Students are encouraged to colour in their sketch.

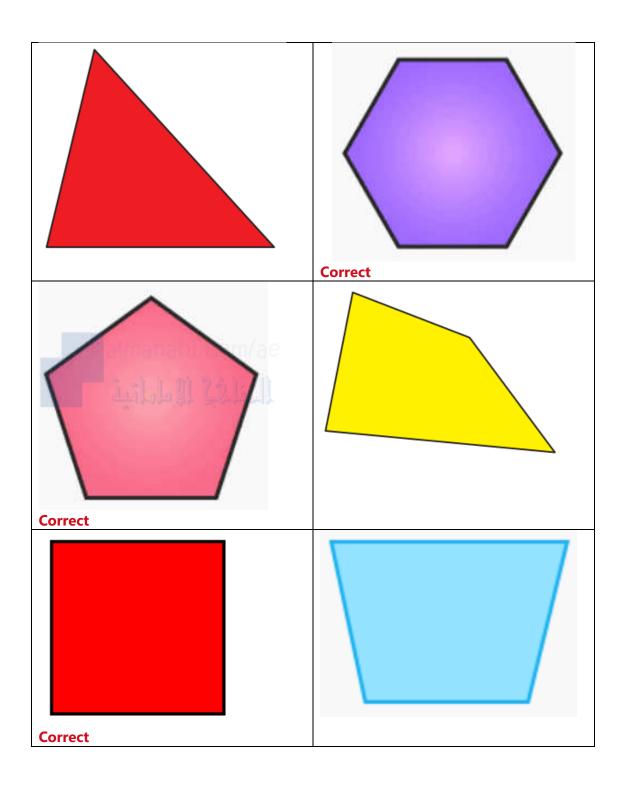

Match the 2D shapes to the 3D shape.

Select the regular polygons from the images below.

Join the dots to draw the polygons. Use a ruler to help.

TA

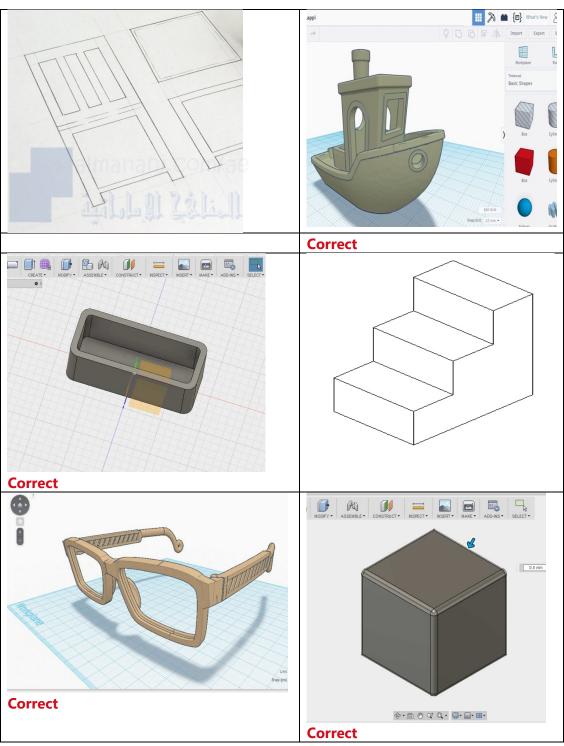

Students join the dots to make the outlined shape.

Activity 8

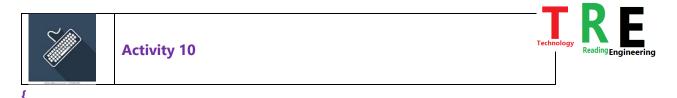

Select the images that show CAD.

TA All answers will be provided in interactive software

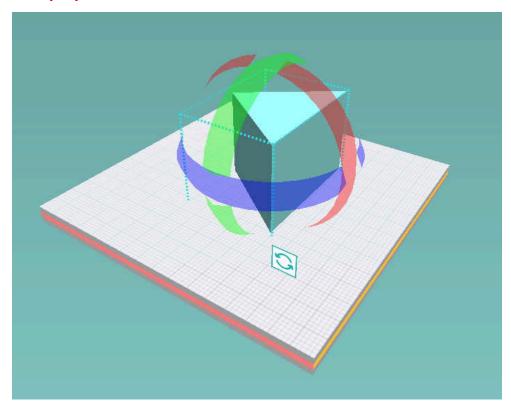

Create 3D shapes in CAD based on 2D shapes.

TA

Students will make 3D shapes based on the 2D shapes provided.

Example provided below.

Activity 11

{

True or False

TA

No.	Sentence	True	False
1	Technical Graphics makes drawings using computers.		X
2	CAD is short for Computer Aided Design.	X	
3	All lines in a regular polygon are the same length.	X	
4	CAD is used to make graphics and designs using computer	X	
	software.
