# Sample Test Specifications English Language School-based Summative Assessment – Cycle 2

TERM 2  
GRADES  
5-8

# Overview

The Cycle 2 English Language School-based Summative assessments should be designed to reflect the curriculum, ensuring systematic coverage of Reading and Viewing, and Writing and Representing. The assessments should focus on reading fluency, comprehension, grammar and vocabulary development, while also assessing students' ability to produce structured, coherent writing across a range of text types. Grammar and Functional Language should be embedded within reading tasks to evaluate how well students apply language structures in context rather than in isolation. By aligning with the grade-level learning outcomes, the assessments should provide teachers with reliable evidence of students' strengths and areas for support, helping to inform instruction and guide learning in subsequent terms.

**This document provides sample test specifications intended to support teachers in the design of Term 2 School-based Summative Assessments. The specifications are provided for guidance purposes only and are not mandatory. Teachers may adapt, amend, or replace the sample tasks as appropriate to meet the needs of their students. Teachers are free to select themes and contexts covered during Term 2, provided that all assessment tasks remain aligned with the relevant Student Learning Outcomes.**

## Structure

### School-based

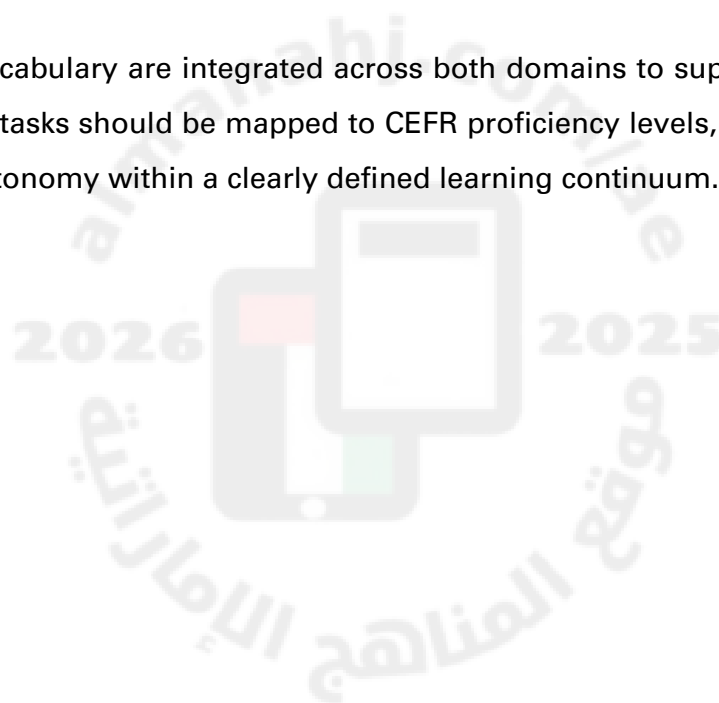

The suggested structure is as follows:

- **Part 1 - Grammar:** Assesses skills at Grade Level Goal
- **Part 2 - Reading:** Targets working towards Grade Level Goal and At Grade Level Goal
- **Part 3 - Reading:** Targets working at Grade Level Goal and Beyond Grade Level Goal
- **Part 4 - Writing:** Assesses student writing ability at Grade Level Goal

# Curriculum Alignment

For Term 2, schools are required to design and administer their own English Language Summative Assessments. These assessments should be informed by the Cycle 2 English Language framework, which is fully aligned with the curriculum and structured around the core domains of Reading and Viewing and Writing and Representing.

Grammar, Functional Language, and Vocabulary are integrated across both domains to support progression and to reflect authentic, real-world communication. Assessment tasks should be mapped to CEFR proficiency levels, reinforcing the curriculum's emphasis on inclusion, differentiation, and learner autonomy within a clearly defined learning continuum.
