Radio DJ:

You're listening to WUAE, the UAE's best radio station! We have a special guest this morning! Mrs. Kaaren, it's a pleasure to have you on our show today! So, you will tell us how to train service horses?

Mrs. Kaaren:

Thank you for having me on your show. Yes, I'm excited to talk about how these special horses and how they can help people.

Radio DJ:

Ok, so how are these horses different from other horses?

Mrs. Kaaren:

Well, they are miniature horses. The main difference is that they are much smaller and easier to handle. They can also live for 30 years!

Radio DJ:

Hmm... okay, very interesting! So, how do you train them to be a service horse?

Mrs. Kaaren:

Training a service horse is very difficult. It can take up to eight months. First, you need to train the horses to lead so they can walk blind people around different places. Next, you must train them to understand 23 different instructions so they can know what to do for the person with a disability. Instructions can include "stay" and "come". Then, you must teach the horses to move around obstacles, like streetlights, cross walks and especially other people! Haha... Of course, this is so that the blind person can be safe and doesn't get hurt. Finally, horses need to be trained to live with a family. However, they can't live in a house because it won't be big enough for them to move around in.

Radio DJ:

Okay, wow! I've learned a lot about how to train miniature horses! Thank you so much for taking the time to tell us about them!

Mrs. Kaaren:

You're very welcome!

How to Train a Guide Horse

Introduction:

A guide horse can help people who can't see to move around safely. Training a guide horse takes time, patience, and love. The horse can learn many helpful skills, but it can't learn everything in one day.

The steps:

First, you can start by teaching the horse to trust you and follow simple commands. Next, you can train it to stop, go, and turn when it hears your voice or feels gentle touches. Then, you can take the horse outside to practice walking on different paths and around obstacles.

After that, you can teach it to stay calm in noisy or crowded places.

Finally, you can let the horse work with the person it will guide.

A guide horse can learn to help people live independently, but it can't forget to rest and have fun too!
