 3. If you want to train your falcon to catch prey, the animals that falcons are **hunting**, you must create a lure by attaching meat to a rope on a stick. Swing the **lure** so the falcon tries to catch it.
 4. Finally, you must keep the falcon's living space clean at all times. Animals get **sick** in dirty living spaces.
-

DON'Ts

1. You need to train your falcon to wear a hood. However, you must not make your falcon wear the hood at all times. Only when you travel or when other falcons are near.

Falconry, or hunting with falcons, is a very old sport. It's a sport where people train falcons to hunt small birds for them. The way people train falcons has stayed the same over the years, but the technology is changing.

Many Emiratis attach meat to balloons and kites. This helps train falcons to fly high in the air. However, some Emiratis have started to use drones (flying toys) to train their falcons. They put meat on a rope connected to the drone, and fly it high into the air. The falcon follows the drone and catches the meat. This is just like catching birds.
