- a. visitors
- b. crops**
- c. businesses

Part 1-B: Grammar

[15 marks]

Read the text and choose the correct word(s) to complete the sentences:

Traveling around the world is much easier today than it was in the past. Long ago, people only had _____ (1) options for transportation, like walking or riding camels. It required _____ (2) days to cross the desert, and travelers faced many challenges. Today, modern airplanes are very fast, so you _____ (3) reach another country in just a couple of hours. Because of this, _____ (4) tourists visit the UAE every year to see amazing landmarks like the Burj Khalifa. There is so _____ (5) fun stuff to see and do here! If you want to explore a new city this December, you should book your ticket early.

- | | | |
|--------------------|--------------------|----------------|
| 1. a. a few | b. much | c. many |
| 2. a. a little | b. much | c. many |
| 3. a. can | b. many | c. some |
| 4. a. a little | b. a lot of | c. much |
| 5. a. many | b. much | c. few |

Part 2: Reading

[15 marks]

Read the text and choose the correct answer for each question.

"A Global Village"

The world is becoming a much smaller place because modern technology and fast transportation help people connect easily. In the past, traveling to a different country was a rare and difficult journey. Only a few wealthy individuals could afford to book a trip on a large ship, which took many weeks to cross the ocean. Today, modern aviation has changed everything. A person can board an airplane in Dubai and land in Europe or Asia in just a few hours. This makes it simple for families to go on vacation abroad and explore new cultures.

Because global travel is so convenient, learning a second language is now very popular among teenagers. Speaking another language allows you to communicate with foreign visitors and make friends from different backgrounds. In the UAE, where people from over two hundred countries live and work together, language skills are incredibly useful. You can see traditional signs written in both Arabic and English in almost every city. Understanding more than one language opens up many opportunities for future businesses. Ultimately, sharing our languages and traditions helps create a peaceful world where everyone can understand each other.

1. Who could easily travel to different countries in the past?
 - a. Almost all school teenagers.
 - b. Only a few wealthy individuals.**
 - c. Thousands of foreign tourists.
2. Why is the world described as a "smaller place" today?
 - a. Because oceans are drying up quickly.
 - b. Because technology and planes connect people easily.**
 - c. Because cities are removing traditional signs.
3. What is a benefit of learning a second language mentioned in the passage?
 - a. It allows you to communicate with foreign visitors.**
 - b. It helps you build a faster modern airplane.
 - c. It teaches you how to book a cheap ship.

4. According to the text, what does the word **convenient** mean?
- a. Very noisy and loud to listen to.
 - b. Easy and useful to do without problems.**
 - c. Too heavy and difficult to carry.
5. What is the main idea of this reading passage?
- a. Ships are the cheapest way to send tea crops to Asia.
 - b. Dubai has the biggest shopping malls in the world.
 - c. Modern travel and languages help connect different people globally.**

Part 3: Reading

[15 marks]

Read the text and choose the correct answer for each question.

“The Journey of Global Foods”

Have you ever looked at your dinner plate and wondered where your food comes from? Many of the delicious items we eat every day travel along long international routes before arriving at our local supermarkets. Because different crops need specific types of weather to grow, countries must trade with one another to provide a variety of food options for their citizens.

For example, rice requires a lot of water and a very hot climate, so most of the world's rice grows in Asian countries like India, China, and Vietnam. On the other hand, cocoa trees, which produce the beans used to make chocolate, can only grow in rainy tropical environments near the equator, such as West Africa. The Middle East has the perfect sunny weather for date palm trees, which is why the UAE grows around 44 million palm trees. Huge ports like Jebel Ali receive thousands of shipping boxes filled with tea, cocoa, and spices every week. From this special port, workers mix and distribute these foods to many other nations. This global network proves how closely connected our world is.

1. Why do countries need to trade food crops with one another?
- a. Because different crops need specific weather to grow.**
 - b. Because modern airplanes cannot carry heavy food.
 - c. Because supermarkets only want to sell local dates.

2. Which countries grow the most rice according to the text?

a. West African nations near the equator.

b. Asian countries like India and China.

c. Cold regions in North America.

3. Where do cocoa trees grow best?

a. In dry desert sand dunes.

b. In hot, rainy tropical environments.

c. On top of high, snowy mountains.

4. Why does the UAE grow a massive amount of date palm trees?

a. It has the perfect sunny weather for them.

b. It buys all of its dates from West Africa.

c. Date palms do not need any sunlight to live.

5. Based on the text, what can be inferred about Jebel Ali port?

a. It is a tiny station that only helps local fishermen.

b. It plays a major role in moving food across the world.

c. It is too small to receive boxes from other countries.

Part 4: Writing

[40 marks total]

Constructed Writing Response: Write a narrative text related to the theme. Your response must be **at least 110 words** long.

Question: Imagine a new student from a foreign country joined your class, or you traveled to a new destination on vacation. Write a story about meeting someone from a different country or visiting a foreign place. Include the following three prompts in your narrative:

1. Describe how you met this person or arrived at the destination, and explain what language you used to communicate with them.
2. Tell a story about sharing your cultures, using quantifiers (some, a few, many, a lot of) to describe the things you talked about (like food crops, traditional clothes, or sports).
3. Explain a minor challenge you faced (like not understanding a specific word or getting lost) and how you solved the problem using a tool or can-do attitude.

Last week, a new student named John joined our class. He came from a foreign country called England. At first, I felt a little nervous, but I wanted to welcome him. We sat together, and we used English to communicate because it is our second language. We talked a lot during the break. I shared many facts about the UAE, and I explained that we grow a lot of delicious dates here. John told me some interesting things about his traditional food, and we discussed a few popular sports like football. We found out that we both love Formula One racing!

However, we faced a minor challenge because John spoke very fast, so I could not understand some words. To solve this problem, I asked him to speak slowly, and I used my tablet to translate the difficult words. Now, we can understand each other perfectly and we are great friends.

Don't forget to **review your answers & good luck!**
