*Travel :

To travel from one place to another for different purposes is generally called travelling. People do not travel always in the same purposes. Someone travels to gain knowledge and experience, someone travels for pleasure, someone travels for business purposes etc.

It is a part of education. Our education and book knowledge remain imperfect without travelling. We can learn many things by travelling. It teaches us trade and commerce, language, sociology, customs, culture, history, geography and so on.

Besides this, there are some special benefits of traveling. If a man stays in one place for a long time, he becomes monotonous. Travelling removes our monotony and gives pleasure. It also broadens our outlook and refreshes our minds. A good traveler can easily educate others. He can give us first-hand knowledge of men and matters of other countries.

It is merely a superior feeling: to go to another country and to see people live differently, speak differently, look differently. This is how one comes to understand how big and crazy our world is.

there are many people love sports, and there are very few people dislike a specific sport. I like sport in general and I exercise regularly because sport is beneficial to the human body and makes me loose weight. I encourage my family and friends to exercise everyday.

my favorite sport is walking. I enjoy walking everyday and it has become a habit for me. Because I walk a lot I had to buy a very nice walking shoes that is very comfortable for me. I used to use a low quality shoes while walking and after I finish walking my foot hurt. Now that I changed my shoes, I can enjoy walking for very long distance and I can enjoy my favorite sport without worrying about my foot pain.
