Eating Healthy Food

Eating healthy food is very important because it keeps our bodies strong and gives us daily energy. Yesterday, a girl prepared a delicious, nutritious lunch at home.

First, she went to the kitchen sink to wash fresh vegetables, carefully cleaning green lettuce, red tomatoes, and yellow peppers with water.

Next, she placed the vegetables on a wooden cutting board and used a knife to slice cucumbers and small tomatoes into neat pieces. Then, she arranged balanced plates with grilled chicken, brown rice, fresh salad, berries, and a small bowl of yogurt. Finally, she sat at the table and enjoyed her meal with a glass of water.

Healthy food supports body growth, protects against illness, and improves school focus.

A

Visit to the UAE

Last week, my family and I went on an exciting trip to the UAE. There were many amazing places to see and fun things to do.

First, we explored the traditional souks. We walked through the busy market and saw colorful lanterns, beautiful rugs, and shiny gold items.

Next, we visited an old fort. We looked at the tall brown walls and saw the UAE flag flying on top. It was very interesting to learn about the country's history.

Then, we went to see famous modern landmarks. We stood near the water, watched the dancing fountains, and took photos of the tall skyscrapers.

Finally, we went on a desert safari at sunset. We rode camels on the golden sand and saw big cars driving over the dunes. It was a wonderful trip that I will never forget!

A Healthy Breakfast

Yesterday morning, a girl decided to make a healthy breakfast to start her day with energy. **First,** she went to the kitchen and chose fresh food. She took oats, milk, bananas, strawberries, and blueberries. **Next,** she put on an apron to prepare her breakfast. She put the oats into a bowl and poured fresh milk over them. **Then,** she cut the bananas and added them to the bowl with the strawberries and blueberries. **Finally,** she sat down with a glass of water and enjoyed her delicious meal.

This breakfast was very healthy because oats give long-lasting energy, milk has calcium for strong bones, and fresh fruits provide important vitamins. Eating a good breakfast helps us focus and feel active at school.

My Healthy Lunchbox

Preparing a healthy lunchbox is a great way to stay strong and focused during the school day. **First**, I went to the supermarket to choose healthy ingredients. I picked wholegrain bread, cheese, a fresh cucumber, a red apple, and a bottle of water.

Next, I went to the kitchen to make my sandwich. I put slices of cheese and cucumber between two pieces of wholegrain bread. Wholegrain bread gives my body energy, while cheese makes my bones and teeth strong.

Then, I packed my lunchbox carefully. I placed the sandwich inside along with sliced apples and crunchy carrots. Fruits and vegetables are full of vitamins that protect me from getting sick.

Finally, I enjoyed my balanced meal at school with my friend. Eating healthy food and drinking plenty of water helped me feel happy and ready to learn.

A day in Abu Dhabi

Last weekend, my family and I went on a wonderful trip to Abu Dhabi. There are many amazing places that visitors can see and enjoy in this beautiful city.

First, we visited the Grand Mosque in the morning. The building was huge and white with tall towers and big domes. We walked in the sunny courtyard and admired the stunning Islamic design.

Next, we explored a famous museum. Inside, we looked up at the special roof that let in patterns of light. We also saw old statues and interesting paintings on the walls.

Then, we walked along the Corniche in the afternoon. The blue water sparkled under the clear sky, and we saw tall modern buildings across the bay. Green palm trees and colorful flowers lined the clean path.

Finally, we went to the beach to enjoy the sunset. We sat together on a traditional red rug on the soft sand and watched the orange sun go down over the sea. It was a fantastic day that we will never forget.

A visit to Al Ain

First, a family went to Al Ain and walked through the green oasis. They saw tall palm trees, old mud buildings, and cool water channels, which made them feel peaceful.

Second, they visited the zoo and watched tall giraffes near the fence. The children pointed happily and learned about the animals.

Next, they drove up the winding road of Jebel Hafeet. Everyone smiled as the car climbed higher up the rocky mountain.

After that, they stopped near the top to look over the wide city and green trees below. The boy used binoculars while the girl watched the bright sun.

Finally, they enjoyed the colorful sunset view together and felt that Al Ain was truly special.
