## Grade 8 - General - 5.1 - English Language - End of Term 3 - 2024-2025 - A

## Our Day

My name is Ahmad. I live in Sharjah with my parents and sister. My sister's name is Fatima. We have breakfast together every day. Our parents don't have breakfast with us. They drive to work before we get up. They eat in a café next to their work.

My sister and I have eggs, bread, fruit, and juice. I like eggs and fruit but I don't like bread. It hurts my tummy. Fatima likes cereal with milk. She has milk with every meal to keep her teeth strong. She doesn't like eggs. She thinks they smell bad.

At dinner time, we all sit and eat together. My father loves fish and rice. My mother enjoys soup and vegetables. Fatima and I have pasta. She never adds salt to her food, but she puts a little pepper on it.

After dinner, my parents drink tea. I have cake and Fatima has bananas. I enjoy this time with my family. I tell them about my day at school and that makes me happy.

Read the text and answer the questions.

1 - 4

What does Ahmad do in the morning?

- a. He has juice with his father.
- b. He goes to a café with his mother.
- c. He eats with his sister.

Why does Ahmad like spending time with his family?

- a. He can drink tea.
- b. He can eat fruit.
- c. He can talk about his day.

## The Red Planet

"Space is very interesting," Dr Amira, the head scientist, said to the newspaper reporter. "Mars is different from Earth, so it is harder to live there. There isn't much oxygen so it could damage the heart and blood. People need strength to travel in space. However, my team have studied Mars for many years and know people can survive there."

"How will you make Mars safer for people?" the reporter asked.

"We have worked hard to test new oxygen machines," said Dr Amira. "We need all our knowledge to solve the project's problems."

"Last week, something went wrong during a test," the reporter said. "This project is too dangerous!"

"Last week, we were testing the rocket when the temperature got very hot," Dr Amira replied. "One scientist, Dr Alia, quickly broke a part of the rocket and the temperature went down. Everyone felt cooler again and we continued our tests safely. My team is finishing this project next year. Our new machines will make the trip to Mars easier. We are making space travel safer for everyone."

Read the text and choose the correct answer.

1 - 2

What is different about how the reporter and Dr Amira talk about the project?

- a. The reporter says it is risky, but Dr Amira says it will make space safer.
- b. The reporter says it is exciting, but Dr Amira says it will be difficult.
- c. The reporter says it is easy, but Dr Amira says it is unsafe.

### The Red Planet

"Space is very interesting," Dr Amira, the head scientist, said to the newspaper reporter. "Mars is different from Earth, so it is harder to live there. There isn't much oxygen so it could damage the heart and blood. People need strength to travel in space. However, my team have studied Mars for many years and know people can survive there."

"How will you make Mars safer for people?" the reporter asked.

"We have worked hard to test new oxygen machines," said Dr Amira. "We need all our knowledge to solve the project's problems."

"Last week, something went wrong during a test," the reporter said. "This project is too dangerous!"

"Last week, we were testing the rocket when the temperature got very hot," Dr Amira replied. "One scientist, Dr Alla, quickly broke a part of the rocket and the temperature went down. Everyone felt cooler again and we continued our tests safely. My team is finishing this project next year. Our new machines will make the trip to Mars easier. We are making space travel safer for everyone."

Read the text and choose the correct answer.

2 - 2

What is the whole text mainly about?

1. The scientists are going to Mars soon.
2. The scientists are working to make space travel safer.
3. The scientists are worrying about the dangers of space.

Grade 8 - General - 5.1 - English Language - End of Term 3 - 2024-2025 - A

**Ahmad ibn Majid**

Ahmad ibn Majid was a famous Arab sailor and traveller. He was born around 1432 in Julfar (Ras Al Khaimah). His family were sailors, and he was sailing huge ships when he was only seventeen. He has been famous for his sailing skills since he was young.

At that time, sailing was very dangerous. Strong winds and high waves could destroy ships. Sailors needed strength and skill to survive. During his trips, Ahmad ibn Majid used the stars and a metal star chart to find his way. This was more difficult than following today's sailing directions but was better than other tools of that time.

Ahmad ibn Majid wrote many interesting books and poems about his voyages. His most important book was Kitab al-Fawa'id. It was a simple guide to help sailors. The new routes in the book were faster and safer than the old ones. They helped sailors travel to India and East Africa.

His books also shared useful knowledge for sailors. He wrote about the kamal, a small tool made of wood and rope. When sailors were using it, they knew where they were at sea. He explained how wind changes the speed of a ship and makes it go faster. He also recorded 39 places along the coast from East Africa to India. His details were clearer and better than older guides and became very popular.

Many different people have used Ahmad ibn Majid's advice since he wrote his books. Sailors are still reading about his work and how he made sea travel safer.

Read the text and choose the correct answer.

1 - 5

**Ahmad ibn Majid became well known when**

- a. built a very large ship
- b. moved to Ras Al Khaimah
- c. was still a teenager

### Ahmad ibn Majid

During his trips, Ahmad ibn Majid used the stars and a metal star chart to find his way. This was more difficult than following today's sailing directions but was better than other tools of that time.

Ahmad ibn Majid wrote many interesting books and poems about his voyages. His most important book was Kitab al-Fawa'id. It was a simple guide to help sailors. The new routes in the book were faster and safer than the old ones. They helped sailors travel to India and East Africa.

His books also shared useful knowledge for sailors. He wrote about the kamal, a small tool made of wood and rope. When sailors were using it, they knew where they were at sea. He explained how wind changes the speed of a ship and makes it go faster. He also recorded 39 places along the coast from East Africa to India. His details were clearer and better than older guides and became very popular.

Many different people have used Ahmad ibn Majid's advice since he wrote his books. Sailors are still reading about his work and how he made sea travel safer.

Read the text and choose the correct answer.

1 - 1

Paragraph four is mainly about the \_\_\_\_.

- a. helpful information in Ahmad ibn Majid's books
- b. notes on journeys to India and East Africa
- c. tools used so ships can find places
