Test Specifications English Language End of Term Exam – Cycle 2

Overview

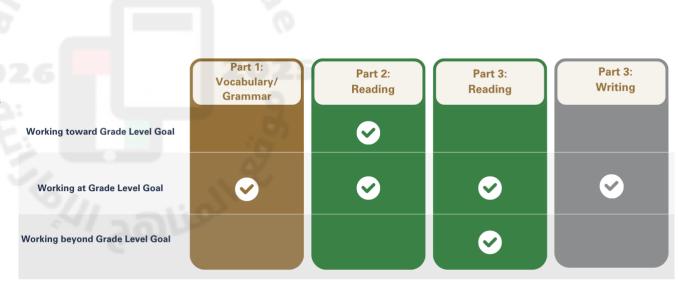

The Cycle 2 End-of-Term English Language assessments are designed to reflect the curriculum, ensuring systematic coverage of Reading and Viewing, and Writing and Representing. The exams focus on reading fluency, comprehension, grammar and vocabulary development, while also assessing students' ability to produce structured, coherent writing across a range of text types. Grammar and Functional Language are embedded within reading tasks to evaluate how well students apply language structures in context rather than in isolation. By aligning with the grade-level learning outcomes, the exams provide teachers with reliable evidence of students' strengths and areas for support, helping to inform instruction and guide learning in subsequent terms.

Structure

Centralised

The assessment is divided into three parts:

- Part 1 Vocabulary/Grammar: Assesses skills toward Grade Level Goal.
- Part 2 Reading: Targets working towards and at Grade Level Goal.
- Part 3 Reading: Targets working at Grade Level Goal and beyond Grade Level Goal.
- Writing Task: Assesses student writing ability at Grade Level Goal.

Text Types

This reference outlines the text types that may appear in the curriculum and in the end-of-term assessments. It provides an overview of each type's communicative purpose, along with authentic and classroom-based source examples. Teachers can use this reference to familiarise students with a range of text types and prepare them for the formats they are likely to encounter in the exam.

Curriculum Alignment

The Cycle 2 English Language assessments are fully aligned with the curriculum, which is structured around the domains of Reading and Viewing and Writing and Representing. Grammar, Functional Language, and Vocabulary—are embedded throughout the assessments to support progression across both domains and to reflect real-world communication. The assessments are mapped to CEFR proficiency levels, mirroring the curriculum's emphasis on inclusion, differentiation, and learner autonomy within a structured continuum of learning. In line with the curriculum, assessment tasks also integrate global competencies, providing opportunities for students to demonstrate critical and creative thinking, well-being, ethical and intercultural understanding, as well as digital and financial literacy and sustainability awareness. This alignment ensures that assessments not only measure literacy skills but also reinforce the broader aims of the curriculum.
