Unit 9

Rivers and coasts

Unit

9

Rivers and coasts

- **Topics** The Amazon river and rainforests; the Nile and the ancient Egyptians; tsunamis and the ocean; Islamic gardens; marine conservation and coral reefs
- **Use of English** Non-defining and defining relative clauses; present and past tenses; zero and first conditionals

Class Rules :

**Respect your friends
and the teacher**

**Don't be shy to ask questions
and share your answers!**

LMS

**Open Alef and LMS
before the lesson!**

**Is your device working? Check before
the lesson!**

Pay attention to the lesson!

Lesson is 45 minutes.

ATTENDANCE

The Nile

Lessons 3-4

CB Pages : 155-156
WB Pages: 105-106

Objectives :

01 To talk about the river Nile and its importance.

02 To guess the meaning of words and understand the details in an article.

03 To write a short summary of an informative article.

Warming up activity

What do you know about the River Nile?

New Vocabulary

banks

flourish

flood

fertile

soil

Crops

protein

mud

bricks

papyrus

Transport

gold

linen

trade

Reading

1 Read the text. Then tell your partner three things you have learned about the River Nile.

The Nile

In the past, the Ancient Egyptians called the longest river on our planet Ar or Aur, which means 'black', because after the river flooded it left behind black **sediment**. Nowadays, the most common name for this river is en-Nîl or an-Nîl in Arabic and Nile in English. The Nile flows for 6700 km through ten different African nations and its large **delta** meets the Mediterranean Sea on the coast of Egypt.

Throughout history, there have been many expeditions to discover the **source** of the Nile. In the nineteenth century, many people believed the source of the Nile to be Lake Victoria, but nowadays, we know that the real source of the Nile is probably one of the many the smaller rivers that flow into Lake Victoria. However, we still don't know which one, and and explorers from all over the world still travel to Africa to try to solve the mystery.

Lake Victoria is definitely the source of the White Nile, one of the two big **tributaries** of the Great Nile, the great mother river which flows down to the sea. The other main tributary is the Blue Nile, which comes from Lake Tana in Ethiopia. The two meet in Sudan to form the Great Nile, which flows into Egypt, where it finally meets the sea. The Nile delta is about 160 km long and covers 240 km of coastline. The sea **tides** bring salt water into the Nile's **estuary** where it mixes with fresh water. This is home to some of the biggest reptiles in the world: the Nile crocodiles!

MR. TIMER

2 Read the text again. Are the sentences true (T) or false (F)?

- T 1** The longest river on Earth has changed names through time.
- F 2** The Nile is an international river.
- F 3** The source of the Nile is no longer a mystery.
- T 4** The Nile is made up of other smaller rivers.
- F 5** The Great Nile is formed in Ethiopia, where the two tributaries meet.

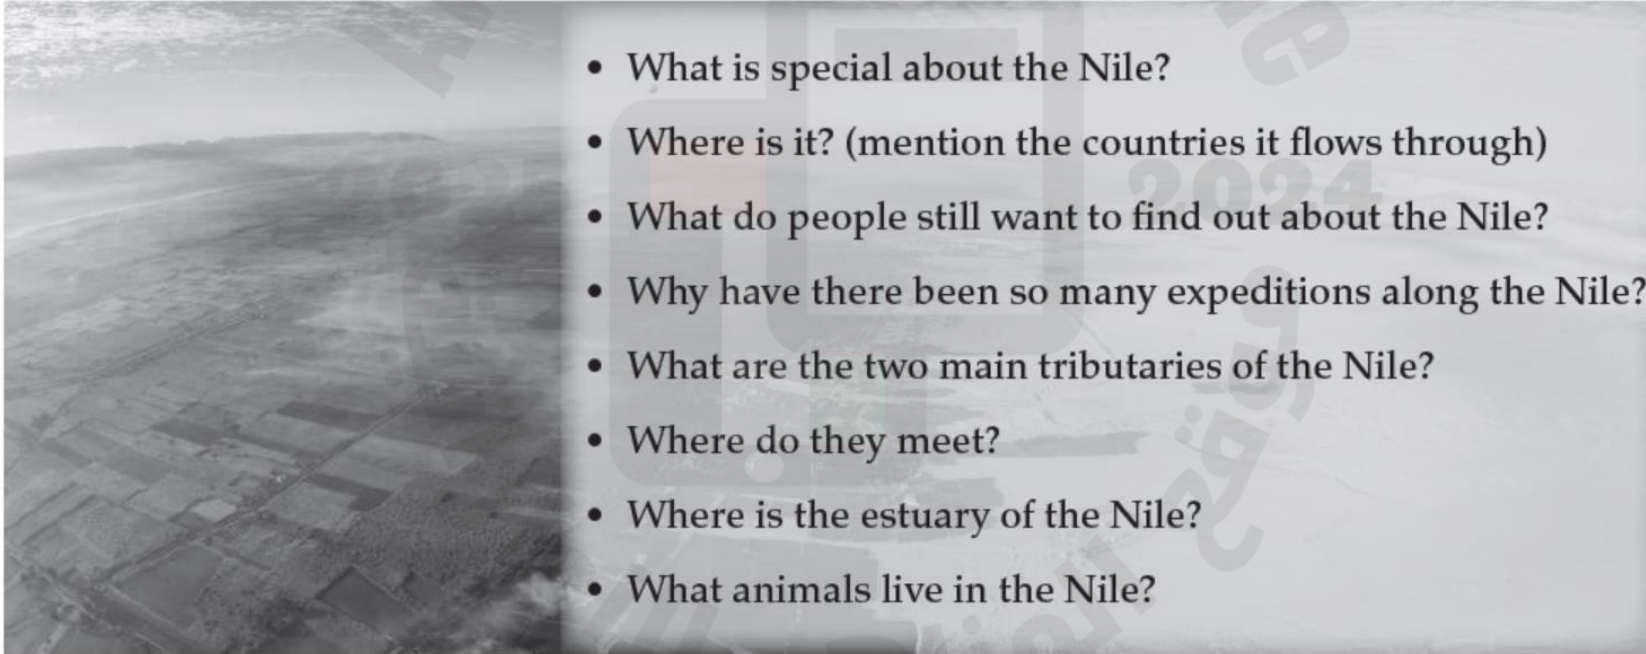

1 Match the words in the box with the definitions.

• delta • sediment • source • tributaries • estuary • tide

- 1 The place where a river starts. source
- 2 A layer of mud, sand, stones, etc. that forms at the bottom of the river. sediment
- 3 The regular rise and fall in the level of the sea. tides
- 4 A low flat area of land where a river divides into smaller rivers and ends into the sea. delta
- 5 Smaller rivers or streams that become part of a bigger river. tributaries
- 6 The wide part of a river where it goes into the sea. estuary

- 2** **21st** Write a summary of the text of 100-120 words. Make sure the text includes answers to all the questions below. Compare your summaries in small groups.

- What is special about the Nile?
- Where is it? (mention the countries it flows through)
- What do people still want to find out about the Nile?
- Why have there been so many expeditions along the Nile?
- What are the two main tributaries of the Nile?
- Where do they meet?
- Where is the estuary of the Nile?
- What animals live in the Nile?

Listening

- 3 31 Two friends are talking about a documentary they have just watched on TV. Which of these things do they not mention?

- ☐ a form of transport
- ☐ a reptile
- ☒ a dam
- ☐ a temple

Listening strategy

When you're listening to a conversation, the speakers' tone of voice and attitude can help you understand whether they agree or disagree with each other.

- 4 Read the Listening strategy box. Then listen again and tick (✓) the sentences that are correct.

- 1 The girls hadn't heard of the Nile before watching the documentary. ☐
- 2 Both girls agree that the Nile crocodiles are scary. ☒
- 3 The documentary told the story of a man who was killed by a crocodile. ☐
- 4 The girls would like to visit different parts of Egypt. ☒

3 Do the quiz.

Egypt and the Nile – how much do you know?

1 What's the capital of Egypt?

- ☐ Giza
- ☒ Cairo
- ☐ Alexandria

2 What was the Great Pyramid of Giza?

- ☐ a temple
- ☐ a palace
- ☒ a tomb

3 The river Nile was called 'black' in ancient times because of its ...

- ☐ frequent floods.
- ☐ dirty water.
- ☒ sediment.

4 How long is the river Nile?

- ☐ more than 6,500 km
- ☐ about 6,000 km
- ☒ less than 6,500 km

5 What are the Blue Nile and the White Nile?

- ☐ the source of the Nile
- ☒ tributaries of the Nile
- ☐ the Nile's estuaries

6 Where do the Blue Nile and the White Nile meet?

- ☒ in Sudan
- ☐ in Ethiopia
- ☐ in Tanzania

7 The Nile meets the sea in the ...

- ☒ Mediterranean.
- ☐ Red Sea.
- ☐ Arab Sea.

3 Do the quiz.

Egypt and the Nile – how much do you know?

1 What's the capital of Egypt?

- ☐ Giza
☒ Cairo
☐ Alexandria

2 What was the Great Pyramid of Giza?

- ☐ a temple
☐ a palace
☒ a tomb

3 The river Nile was called 'black' in ancient times because of its ...

- ☐ frequent floods.
