Part 2: Reading

Instructions: Read the text and choose the correct answer (A, B, or C) for each question.

My Weekend Routine Every Saturday, my morning starts in my favorite place: my bedroom. My parents' rules are simple: I must tidy my room before I can go out. First, I get up at 8:00 AM and open the curtains. My room is much brighter than the living room, which helps me wake up. Next, I make my bed. I put the duvet and the pillows in their places so the bed looks neat.

If the room is messy, I feel stressed, so I always put my clothes back in the wardrobe. While I am tidying, my brother's music can be heard from the next room. Usually, the washing machine is used by my mother on Saturday mornings, so I help her by bringing my laundry down. After that, I sit at my desk to study. My desk is more comfortable than the kitchen table, and I have a large bookshelf for my favorite stories.

If I finish all my chores quickly, I will visit my friend at the park. However, if I run out of time, I will stay home and read. I always look forward to the weekend because it is a time to relax and keep my space tidy.

Part 3: reading

Instructions: Read the text and choose the correct answer (A, B, or C) for each question.

**The King of the Arabian Desert** The United Arab Emirates is home to many wonderful places, but the desert is the most scenery-filled landscape of all. One of the most amazing animals living there is the Arabian oryx. This beautiful animal is a herbivore, which means it eats plants rather than other animals. Life in the desert is a constant struggle between predators and their prey. While the oryx grazes on grass, a lion or a leopard might be watching from a distance. Because the desert is open, an oryx must be faster than its enemies to survive.

If a visitor travels to a protected forest or desert reserve, they can see these animals in their natural home. The oryx's white coat helps it stay cool under the hot sun. It is a problem when water is scarce, but these animals are experts at finding hidden greenery. A baby oryx stays close to its mother for protection. The mountain areas nearby also provide a home for different species. Protecting these animals is important so the wonderful balance of the food chain remains healthy for the future. If we protect the environment, these amazing creatures will continue to thrive in the wild.

4. Based on the text, what will likely happen if humans protect the desert environment?

Why do millions of people use social media platforms?

Do you prefer private or public accounts?

If you share your password, do you lose your privacy?

### Writing samples:

#### Global languages

*In my opinion, English is the most important global language because it connects millions of people in business and science. For a language learner, it provides many opportunities to work or study abroad. I believe that using an app to practice Arabic grammar is very helpful. Studying in a classroom is often better and faster than learning alone because you can speak with others. However, technology is more useful than old books. If a student practices every day, their grammar improves. If you use social media, you find many English speakers. If a learner uses an app, they study at home for free. Everything is simple if you follow a routine. If you stay focused, you reach your goals.*

#### Online Safety

*Today, millions of people use social media because these platforms are free and easy to use. They are wonderful for sharing photos, but they are dangerous if you are not careful. Regarding my preference, I prefer private messaging. If you post everything publicly, you make a noise or attract the wrong attention. Private accounts are safer than public ones for young people. If you share your password, you lose your privacy. If a child uses the internet, they need a parent to help them. If you click on a strange link, your phone gets a virus. Information stays online forever if you post it today. Online safety is easy if you follow the rules. If we protect our data, we stay secure.*

Good luck
