Lesson 8: Future designs

- Do you think life will be better in the future?
- Where do you think you will live?

1. Do you think life will be better in the future?

Yes, I think life will be better in the future. Technology will continue to improve, and we may have better healthcare and more efficient ways to live and work.

2. Where do you think you will live?

I might live in a small town because I prefer a quiet life.

Key Structure

Predicting the future
*I think cities **will** be bigger.*

Vocabulary

positive, negative, to imagine, health, life

Meaning of vocabulary:

- **Positive:** Something good or hopeful.
- **Negative:** Something bad or not hopeful.
- **To imagine:** To think about something that is not real or has not happened yet.
- **Health:** The condition of your body and mind.
- **Life:** The time when someone is alive; or the experience of living.

Activity 1 Reading

Read the essay about the future. Choose a heading from the box for each paragraph.

The Future

A- Introduction

a) What will life be like in the future? Some people say it will be better. However, others think it will be worse. We don't really know but we can make predictions and imagine what will happen.

B- Bad things about the future

b) Some people say that life won't be better. There are too many people in the world so in the future there won't be enough food for everyone. There might be new health problems and we might not have enough medicine for everyone.

C- Good things about the future

c) Many people are positive about the future. They think cities will be bigger and buildings will be taller. They say that scientists will make more food and medicine so we shouldn't worry.

D- Conclusion

d) We don't know what will happen in the future but I think we should be positive.
Science can help us and the future will be great.

Conclusion

D

Introduction

A

Bad things about the future

B

Good things about the future

C

Activity 2 Reading

Find and underline the topic sentences in each paragraph. Do they match the headings you chose in Activity 1?

Activity 3 Speaking

In pairs, make predictions about the things in the list below.
How will they be different in the future?

- Skyscrapers
- Food
- Houses
- Cars

I think cars will be smaller.

They might fly!

Skyscrapers

They will be made from smart glass that changes color.
Skyscrapers might produce their own energy using solar panels.

Food

We might eat more plant-based or lab-grown meat.
Food could come in pill form for convenience

Houses

Houses might be built underwater or on the moon.
They will have robots to do all the cleaning.

Activity 4 Writing

In pairs, plan an essay to answer the question: **What will life be like in the future?**

1 What will you talk about in your essay? Write your ideas below.

Cities: Some people think cities will be bigger.

2 Write topic sentences for the four paragraphs of your essay.

1 Introduction

Life in the future will be very different from life today. Many changes will affect the way we live, work, and communicate.

2 Paragraph about

Cities

Cities will become larger, more crowded, and more advanced with smart technology and tall skyscrapers.

3 Paragraph about

Technology will make daily life easier with robots, artificial intelligence, and self-driving vehicles.

Technology and Daily Life

4 Conclusion

Although we don't know exactly what the future holds, it is clear that life will continue to change quickly, and we must be ready to adapt..

Activity 5 Writing

Now use your plan to finish your essay.

What Will Life Be Like in the Future?

Life in the future will be very different from life today. Many changes will affect the way we live, work, and communicate. Technology will continue to improve, and cities, transportation, and homes will look and feel very different.

First, cities will become larger and more crowded. More people will live in urban areas, and buildings will grow taller to save space. Cities might also become smart, with traffic lights, security systems, and waste collection all controlled by artificial intelligence. Public transportation will improve, and we might even see flying taxis in the sky.

Technology will also change our daily lives. We will have more robots helping at home and at work. People might use virtual reality for school or meetings instead of going to real buildings. Cars will be self-driving, and many people may not even need to own a car. Shopping, learning, and working will all be done online more often.

Although we don't know exactly what the future holds, one thing is clear that life will continue to change quickly. We must learn to adapt to these changes and use technology to make life better for everyone.
