**—Grade 8 EOT 3 – Grammar
Revision (FULL CLARIFIED GUIDE)**

1. Adverbs of Degree

✓ Rule:

Adverbs of degree show **how strong or weak** an adjective is.

✓ Structure:

Adverb + adjective

✓ Examples:

- very tired
- extremely important
- quite easy
- really interesting

★ Clear Meaning:

Word	Strength
quite	weak / medium
very	strong
really	strong (informal)
extremely	strongest

⚠ Tricky Points:

✗ very much tired → ✓ very tired

2. Future Simple (will / shall)

✓ Rule:

Subject + will + base verb

✓ Use:

- instant decisions
- predictions
- promises

✓ Examples:

- I will help you.
- It will rain tomorrow.

★ Key Idea:

👉 No plan before speaking

⚠ Tricky Points:

✗ I will to go → ✓ I will go

✗ I will going → ✓ I will go

3. “Going To” (INTENTION)

✓ Rule:

am / is / are + going to + base verb

✓ Use:

while

✓ Example:

- I was studying while my brother was playing football.

★ Idea:

Two long actions happening together.

🟢 2. Action at a specific time in the past

✓ Rule:

Past Continuous shows action happening at a time.

✓ Key Words:

at 5 pm / at 8 o'clock / yesterday at this time

✓ Example:

- I was doing homework at 7 pm.
-

3. Long action interrupted by short action

✓ Rule:

Long action = Past Continuous

Short action = Past Simple

✓ Key Word:

when

✓ Example:

- I was sleeping when the phone rang.
-

4. Background description

✓ Rule:

Use Past Continuous to describe scene

✓ Key Words:

when / while / as

✓ Example:

- It was raining and people were running.
-

⚠ KEY WORD RULES (VERY IMPORTANT)

🟦 WHILE

✓ past continuous + past continuous

- While I was studying, she was sleeping.

🟪 AS

✓ past continuous + past continuous

- As I was walking, I was listening to music.

WHEN

✓ past continuous + past simple

- I was watching TV when he called.

KEY WORD LIST:

Part 3A: Reading Towards Grade Level (24 Marks)

Theme: Entertainment Around the World & Travel Culture

Question Type: True / False / Not Given (4 questions)

Text: The Carnival of Venice

Venice is a beautiful Italian city famous for its canals and history. Every year in February, the city hosts the Carnival of Venice, which is one of the most famous entertainment festivals in the world. This celebration started many centuries ago as a way for people to enjoy themselves before the start of a religious season.

During the festival, the streets and boats are

incredibly crowded. People wear stunning, colourful masks and historical costumes to hide their identities. Musicians, acrobats, and actors perform in the squares to entertain the large crowds of tourists. Special sweet pastries, called frittelle, are made only during this festival, and visitors can smell them all over the city.

Local governments enforce strict safety rules during the carnival because the narrow streets can become dangerous when too many people gather. Today, modern technology helps track the number of visitors entering the main squares to prevent accidents.

Questions (True / False / Not Given)

1. The Carnival of Venice is an entertainment event that takes place during the summer

months.

A) True

B) False

C) Not Given

2. People wear masks during the festival specifically to hide who they are from the public.

A) True

B) False

C) Not Given

3. Frittelle are expensive sweets made using luxury chocolate imported from France.

A) True

B) False

C) Not Given

4. Modern technology is currently used by authorities to monitor the crowd sizes for safety.

A) True

B) False

C) Not Given

 Part 3B: Reading At Grade Level (28 Marks)

Theme: Speed, Fast Travel, and Transportation Journeys

Question Type: Multiple Choice (7 questions, 3 options each)

 Text: The Future of High-Speed Transportation

Human history is a journey of finding faster ways to travel. Centuries ago, people crossed the oceans on slow wooden ships that took months to reach their destinations. Today,

commercial airplanes fly across the world in just a few hours. However, scientists are already working on the next generation of high-speed transportation to make world journeys even shorter.

One of the most exciting new developments is the Hyperloop system. This transportation method uses a capsule inside a tube with zero air resistance, allowing it to travel at incredibly fast speeds. Engineers predict that a Hyperloop train will be faster than a commercial jet airplane. This means a journey that normally takes two hours by car could be completed in less than fifteen minutes.

While this technology sounds amazing, it is also extremely expensive to build. Some experts worry that the fast speed might make passengers feel uncomfortable or sick. Despite

these challenges, many countries, including the UAE, are investing heavily in this technology to connect cities faster and make trading easier.

Multiple Choice Questions

1. What is the main idea of this entire passage?
 - A) The history of old wooden ships.
 - B) The ongoing development of faster transportation systems.
 - C) Why passengers feel sick on modern high-speed trains.

2. What specific engineering feature allows the Hyperloop capsule to travel so quickly?
 - A) It has zero air resistance inside the sealed tube.
 - B) It uses the exact same engine as a commercial jet airplane.
 - C) It only travels down steep mountains to

gain speed.

3. How long would a normal two-hour car drive take if a passenger used the Hyperloop?
 - A) More than two hours.
 - B) Exactly one hour.
 - C) Less than fifteen minutes.
4. According to the text, what is one major operational challenge with building the Hyperloop?
 - A) It uses too much water during operation.
 - B) It requires a massive amount of money to construct.
 - C) It cannot physically carry any human passengers.
5. Why is the UAE investing financial resources into high-speed transportation?
 - A) To build bigger airports.
 - B) To connect cities faster and improve trade.

C) To stop people from using cars entirely.

6. What does the vocabulary word "destinations" mean in the first paragraph?

A) The places people are travelling to.

B) The fast speeds of modern vehicles.

C) The types of old ships used by explorers.

7. What can the reader predict about the future of global travel based on the text?

A) Travel will gradually become slower and more dangerous.

B) Advancing technology will continue to shorten travel times between nations.

C) People will eventually stop travelling to other countries completely.

Part 3C: Reading Beyond Grade Level (28 Marks)

Theme: Entertainment, Movies, Opinions, and Arguments

Question Type: Multiple Choice – Argumentative text (7 questions, 3 options each)

Text: Cinema vs. Streaming Services

The entertainment industry has changed completely over the last decade. In the past, the only way to watch a newly released movie was to buy a ticket at a local cinema. Today, digital streaming services allow millions of people to watch new movies and TV shows from the comfort of their own homes. This shift has created a massive debate among entertainment fans and movie industry experts.

Supporters of streaming services argue that home entertainment is much cheaper and more

convenient. Instead of paying for expensive cinema tickets, snacks, and transportation, a family can pay a single, small monthly fee for unlimited movies. Furthermore, viewers have the power to pause the movie whenever they want, making it a much more relaxing weekend plan for busy people.

On the other hand, traditional cinema lovers argue that streaming at home cannot replace the magic of the big screen. Cinemas offer massive screens and high-quality sound systems that make the experience much more exciting and immersive. They firmly believe that going to the cinema is an important social activity that brings friends together, whereas streaming encourages people to stay isolated at home. In conclusion, while streaming offers ultimate comfort, the cinema provides an unforgettable sensory experience that will likely

keep theatres open for years to come.

Multiple Choice Questions

1. What is the author's primary purpose in writing this argumentative text?
 - A) To explain how to buy cheap movie tickets online.
 - B) To present different arguments regarding watching movies at home versus in the cinema.
 - C) To criticize individuals who do not enjoy watching movies.

2. Why do streaming supporters believe home entertainment is superior?
 - A) It is less expensive and far more convenient.
 - B) It features louder sound systems than commercial cinemas.

C) It allows them to physically meet new friends.

3. What is a major financial disadvantage of going to the cinema mentioned in the text?

A) The movie selections available are too old.

B) The overall cost of tickets, snacks, and travel is quite high.

C) There are no physical seats left inside modern theatres.

4. Cinema lovers argue that watching movies in traditional theatres is...

A) a valuable social activity that brings friends together.

B) becoming less popular with young audiences every day.

C) fundamentally bad for your long-term vision and hearing.

5. What does the vocabulary word "isolated"

mean in the third paragraph?

- A) Connected with a large, loud crowd.
- B) Incredibly excited and happy.
- C) Alone and separated from other people.

6. What can we predict about commercial cinemas based on the text's conclusion?
