Grammar Test

Our World I What Did They Mean?

Read the text and choose the correct word(s) to complete the gaps. Choose A, B, or C.

Last weekend, I visited an international culture festival with my cousin Ali. Many students from different countries were there, and everyone wanted to share their traditions. While we (1) _____ (**walked- were walking – walk**) around the festival, we heard music from Japan and Brazil.

Ali asked me, “(2) _____ (**Who were - What was - Where was**) that group wearing colorful clothes?” I told him they were dancers from India. They performed a traditional dance (3) _____ (**who - where - which**) many visitors enjoyed very much.

There (4) _____ (**was - were – are**) hundreds of people at the event, and a lot of families brought food from their countries. Some people had only a little food, (5) _____ (**but - because - so**) others shared plenty with everyone.

We watched a presentation about communication styles, and the speaker explained how words can have different meanings in different cultures. After the talk, we played games and took photos. The event was interesting, (6) _____ (**wasn't - didn't - isn't**) it?

While the musicians (7) _____ (**played - were playing - play**) on stage, children were learning traditional crafts nearby. Later, a student from Italy told us a funny story, (8) _____ (**because – so – when**) everyone laughed loudly.

Before we left, Ali asked, “(9) _____ (**What did - Why were - Where was**) you learn the most from today?” I answered that I learned people communicate differently, (10) _____ (**Although - therefore - however**) we should always listen carefully and respect others.

Reading Comprehension Test – Part 1

In Your Dreams! I A Dream Narrative, Narrating a Dream

Read the text and choose the correct answer. Choose True, False, or Not Given.

Last night, I had one of the strangest dreams I can remember. In the dream, I was walking alone through a quiet forest near my grandmother's old house. The moon was bright, and the trees were moving slowly in the wind. Suddenly, I heard soft music coming from deep inside the forest. I felt nervous, but I decided to follow the sound.

As I walked farther, I saw a small wooden door in the middle of a large tree. The door slowly opened, and a friendly old man invited me inside. The room behind the door was warm and full of books, clocks, and paintings. The old man smiled and told me that dreams could help people understand their feelings and fears.

Then, he handed me a glowing key and said, “This key will help you find answers.” I wanted to ask him more questions, but suddenly the room began to shake. The clocks started spinning quickly, and the lights became very bright. I tried to run, but I could not move.

A loud sound woke me up early in the morning. For a few minutes, I could still remember every detail clearly. Although it was only a dream, it felt very real and mysterious.

Statements

1. The dream happened near the writer's grandmother's house.
A. True B. False C. Not Given
2. The writer was excited and happy while walking in the forest.

A. True B. False C. Not Given

3. The old man believed dreams could help people understand emotions.

A. True B. False C. Not Given

4. The writer opened the wooden door with a glowing key.

A. True B. False C. Not Given

5. The clocks in the room started moving very fast.

A. True B. False C. Not Given

6. The writer told his family about the dream after waking up.

A. True B. False C. Not Given

Reading Comprehension Test – Part 2

Our World I Technology in Our World, Changing Careers

Read the text and choose the correct answer. Choose A, B, or C.

Technology is changing the way people work all around the world. In the past, many jobs required workers to do physical tasks by hand. Today, machines and computers can complete many of these tasks faster and more accurately. As a result, some traditional jobs are disappearing, while new careers are being created.

One important change is the growth of digital careers. Many people now work in areas such as computer programming, graphic design, online marketing, and artificial intelligence. These jobs often require strong technology skills and creative thinking. In addition, many employees can now work from home by using the internet and video calls.

Technology has also changed careers in healthcare and education. Doctors use advanced machines to examine patients and discover illnesses more quickly. Teachers use digital tools to share lessons, videos, and activities with students online. These changes help people communicate and learn more easily.

However, technology can also create challenges. Some workers may lose their jobs if companies replace them with machines or robots. Because of this, many people need to learn new skills to stay successful in the future workplace.

Experts believe technology will continue to grow and influence careers in many ways. Students today should prepare for future jobs by learning technology skills, problem-solving, and teamwork.

Questions

1. What is the main idea of the text?

- A. Technology is making travel more expensive.
- B. Technology is changing careers and workplaces.
- C. Technology only helps doctors and teachers.

2. In the past, many jobs required workers to _____.
