The Advantages of a Cashless Society

The global trend towards a **cashless society**, where physical money is replaced by digital payments, is accelerating. This shift offers numerous benefits. For individuals, cashless transactions are incredibly convenient. Instead of carrying bulky wallets, a smartphone or card is all that's needed. This also **enhances security**; if a card is stolen, it can be quickly cancelled, and digital payments create a clear record that can help track spending and deter illicit activities. For businesses, handling cash is costly and time-consuming. Digital payments streamline this process, reduce the risk of theft, and can provide valuable data on consumer behavior. On a broader scale, a cashless system can improve tax collection and reduce crimes associated with physical currency. However, the transition is not without challenges. It risks **excluding people** who lack access to banking and digital technology, such as the elderly or those in low-income brackets. Ensuring digital literacy and universal access to banking services is therefore critical to creating an equitable cashless future.

1. What is the main topic of the text?
 - a) The history of money
 - b) The challenges of digital banking
 - c) The benefits and issues of a cashless society
 - d) The best ways to save money

 - c) They help people earn more money
 - d) They do not require a bank account
3. **How do businesses benefit from going cashless?**
- a) By reducing costs associated with handling cash
 - b) By attracting only wealthy customers
 - c) By eliminating the need for customer service
 - d) By paying fewer taxes
4. **The word "streamline" in the text means to:**
- a) make something more complicated
 - b) make something more efficient
 - c) make something more expensive
 - d) make something more traditional
5. **Who is most at risk of being excluded in a cashless society?**
- a) Business owners

Instructions: Read the text and answer the 6 multiple-choice questions that follow.

The Rise of the Gig Economy

The nature of work is changing. Increasingly, people are moving away from traditional nine-to-five jobs and towards the "gig economy." This term refers to a labor market characterized by short-term contracts and freelance work, as opposed to permanent jobs. Platforms like Uber, Deliveroo, and Upwork are at the forefront of this trend, connecting service providers directly with customers. The primary appeal for workers is flexibility. Gig workers can often choose their own hours and work from anywhere, offering a sense of autonomy that many traditional jobs lack. This can be ideal for students, parents, or anyone seeking to supplement their income. However, the gig economy has a significant downside: a lack of stability and benefits. Most gig workers are classified as independent contractors, meaning they do not receive health insurance, paid sick leave, or retirement contributions from the company. This can lead to financial insecurity and pressure to work long hours. As the gig economy continues to grow, it raises important questions about the future of work and what society owes to its workers.

1. **What is the "gig economy"?**
 - a) A market based on permanent, full-time jobs
 - b) A system of bartering goods and services
 - c) A labor market of short-term and freelance work
 - d) An economy focused only on the entertainment industry
2. **What is the main advantage of gig work for workers?**
 - a) High salary
 - b) Job security
 - c) Flexibility and autonomy
 - d) Comprehensive benefits

3. Which of the following is an example of a gig economy platform?
- a) A traditional manufacturing company
 - b) A government agency
 - c) A university
 - d) Uber
4. The word "autonomy" in the text is closest in meaning to:
- a) independence
 - b) stress
 - c) wealth
 - d) routine
5. What is a major disadvantage of gig work mentioned in the text?
- a) It is boring and repetitive
 - b) It requires too much training
 - c) Workers lack benefits like health insurance
 - d) There are not enough gig jobs available
6. What is the overall tone of the text?
- a) Purely positive and enthusiastic
 - b) Purely negative and critical
 - c) Balanced, showing both pros and cons
 - d) Sarcastic and dismissive

Section B: Writing (40 Marks)

Instructions: Read the text below, summarize the main idea in one sentence, and then write a 150-word argumentative response, giving your own opinion on the topic.

The internet has made it possible to work from anywhere in the world. This flexibility allows employees to have a better work-life balance and reduces time spent commuting. Companies also benefit by saving money on office space. However, some argue that
