(Giving advice)

Being overweight is a serious problem and we should all do our best to overcome this problem. To lose weight, I think you need to have a balanced diet of vegetables and fruits .You should eat less carbohydrates and fats . You should drink at least eight glasses of water a day. You need to practise a sport or at least run for a few kilometers . If you can't run , you can just walk for half an hour every day . Don't eat while you are watching television and always start with salads . Don't eat ketchup or fast foods because they have a lot of calories that make you fat. You shouldn't drink cola or canned juices , instead you can drink milk or fresh juices .At last you can see a doctor to help you solve this problem .If you lose weight ,you will do a lot of things and you will enjoy your life .You will also protect yourself from serious diseases

(Story)

It was a dark and stormy night .My dear friend Ali returned home from work. He was tired and wanted to sleep . While he was taking off his coat , he heard a strange noise coming from the kitchen . He felt scared because he thought there was a thief inside the house. Ali picked his umbrella then he opened the kitchen door slowly to see what was happening. To his surprise he saw a black cat on the table . He laughed and felt relieved. The cat entered from the window as he forgot to close it before going out. It was his neighbour's cat. Ali took the cat and gave it to his neighbour who thanked him. Finally, Ali returned home and went to sleep happily.
