## Part 3. Model Articles

The paragraphs below are only models, there is no single paragraph that students have to follow.  
هذه الفقرات مجرد نماذج ولكن بإمكان الطالب الكتابة بأسلوبه الخاص مع المحافظة على شكل التعبير وتضمين جميع النقاط المطلوبة

### Motocross

Motocross is an exciting extreme sport. It began in the UK in the early 1900s.

In motocross, riders race strong dirt bikes around outdoor tracks made of mud and dirt. They go very fast and often fly through the air. Riders need a lot of skill to control the bike. They also need a strong dirt bike, a helmet, gloves, boots, and a special protective suit.

Overall, if you want to take up motocross, make sure safety comes first.

### Rock Climbing

Rock climbing is an exciting extreme sport. It started in the Alps in the early 1800s.

In rock climbing, climbers use their hands and feet to move up steep rocks. They move from one rock to another, sometimes very high above the ground. Climbers need a lot of strength and focus while moving. They also need climbing shoes, a harness, a rope, and a helmet for protection.

All in all, rock climbing is exciting, but a bit dangerous, so you should think well of being safe.
