## 2. Read the following text carefully

In April, 1912 the Titanic made its first trip sailing from England to America. It was the largest and the strongest ship at that time. There were 2,220 people on the ship including the sailors. Some people were travelling on holiday and some were going to live in America forever. Everyone was sure that the Titanic would never sink.

On the evening of April 14, everything was calm and quiet. The weather was very cold and the water was almost freezing. Most of the passengers went to bed. Some stayed awake playing cards, listening to music or dancing. Just before midnight, the Titanic hit a huge iceberg. The ship was badly damaged and the captain knew that the ship was sinking. He tried to send messages to nearby ships, but no ship answered.

About 2:45 a.m., the Titanic sank into the ocean. About 1,513 people died that night. It was one of the worst ocean disasters in history. The Titanic never completed its first trip.

Read the following e-mail from Hamad to his friend Adel :-

Dear Adel,

Last weekend mum wanted to make a treat for the family. Sara wanted a cake. I liked ice cream more, but in the end, mum decided to make some fruit smoothie.

Mum could find some strawberries as no one liked orange and there were no mangoes in the fridge. She washed the fruit and asked dad to chop them but he was busy reading the newspaper. My brother Ali wanted to chop them but he is still young to hold the knife, so I did it for mum.

Sara got the milk from the fridge and poured it in the blender. Ali put the fruit in the blender. I put the lid on and turned the blender on. The smoothie was ready soon.

Mum put some ice in the cups and poured the smoothie. It had enough fruit and milk, but it tasted very bad. Oh! I forgot to add sugar. I was very sorry.

Love,

Hamad
