Write an essay in 100-120 words about how a sport's uniform has changed. Include the following:

- a paragraph about how the uniform was.**
- a paragraph about how the uniform is today.**
- a conclusion.**

Before 1849, there were no baseball uniforms. Players wore their own uniforms with no numbers or players' names. The first baseball uniform had pants made of blue wool, white shirts, and simple straw hats. In the 1880s players wore striped uniforms for the first time. In 1882 teams started to wear uniforms that include stockings to differentiate one club from another.

Baseball uniforms have changed many times over the years. Today, baseball uniforms are very different. The players wear pants with belts, caps, t-shirts or shirts with numbers and teams' names. The whole uniform is made of light fabric, this keeps baseball players comfortable as they run. Each team has its own colour, but white is still preferable for many teams. For example, the New York Mets team wears striped white shirts and pants with blue caps. After all, these uniforms will change, too. Players need uniforms that are practical and in fashion.

Before the 1900s, there were no special basketball uniforms. Basketball players wore any type of athletic clothes which made it difficult to differentiate teams. The first basketball uniform had knee-length padded pants or shorter pants with long tights. There were two types of T-shirts, one with sleeves, while the other was sleeveless. The entire uniform was made of heavy wool. They wore special basketball shoes with suction cups.

Basketball uniforms have changed through the years. Basketball uniforms are very different. Today they wear long shorts and sleeveless t-shirts. The uniform is made of lighter polyester and nylon. They wear sneakers, this keeps basketball players cool as they run or jump. Each team has its own colours now. For example, San Antonio Spurs players wear black and white t-shirts and shorts. In future, these uniforms will change too. Players need uniforms that are practical and in fashion.

Are you fond of collecting and reading books? Well, if you had a messy bookcase, this cool new gadget could help you to arrange it. You just need an app on your smartphone or tablet.

This product is amazing because it lets you arrange your books by colour, by author, or by topic. It can also help you organise your books alphabetically. Think about it: You have hundreds of books in a messy bookcase. You bring this product in front of this bookcase and it can scan it with a special camera, then it sends you a report and a virtual bookcase where all books are arranged well. I love how the product lets you design your own bookcase. You just scan the room, and it designs a bookcase that suits the colour of the room and the books.

This product is incredible, but there are somethings about it that I don't like. First, although you can control it by an app, it only functions with iPhones. It would be great if we could use it with other companies. The company is working on this problem. They are negotiating with other companies. Second, whenever this product is damaged, you can't easily fix it. You have to wait for online response to get help. All in all, I give this product six out of ten.

Do you like camping? Well, if you want to camp, this cool new gadget could help you. It is a smart electronic tent. You just need an app on your smartphone or tablet.

This product is amazing because it lets you camp easily without having to fix a tent yourself. It functions on solar cells. Think about it: You want to camp with your family, and you have just decided to do so. You will put this tent in your car's trunk, then you will just fix it by using an app on your smartphone. The tent will be fixed in 5 minutes. I love how the product lets you feel comfortable since it has electronic beds with relaxing pillows.

This product is incredible, but there are two things about it that I don't like. First, if it is damaged, it won't be easy to repair it. You would also have to wait for the spare parts. The company is working on this problem. They are thinking of hiring agents in many countries to deal with this problem. Second, it is very expensive and not all people can afford it. All in all, I give this product five out of ten.
