C.1. Read the sentences and choose (T) for true sentences, and (F) for false sentences. (8*1=8marks).

8

- | | | |
|--|---|---|
| 1. Southern elephant seals are the smallest seals in the world. | T | F |
| 2. Both male and female southern elephant seals have a proboscis. | T | F |
| 3. Elephant seals can dive as deep as 1,000 to 4,000 feet to hunt for food. | T | F |
| 4. Females give birth to two pups during each breeding season. | T | F |
| 5. Elephant seals can stay underwater for up to two hours. | T | F |
| 6. Male elephant seals use their proboscis to fight for dominance. | T | F |
| 7. Both northern and southern elephant seals were nearly hunted to extinction but have made comebacks. | T | F |
| 8. Elephant seals spend most of their time on land. | T | F |

C.2. Now answer the questions below. (3*2=6marks)

6

1. How an elephant seal movement are different on land than in water?

.....

2. Why do elephant seals come on land?

.....

3. What foods are a part of an elephant seal's diet?

.....

- B. Listen to some information about an explorer talk about his trip.
Listen and fill in the form below. Use one word only or numbers in each space. (6*2.5=15marks)

15

Mountains Trip

Started the trip on the 5th of (1) July 2024

Packed:

- (2) food
- Water
- A (3) map
- A warm jacket

On the 6th :

- The first (4) two hours were easy.

On the 7th :

- It was (5) cold and the air was thin, and started to rain !

By the 8th :

- The storm ended.

On the 10th :

- I reached the top after two days of (6) climbing

It was unforgettable!

C. Read the following text. Then answer the questions below.

World's Largest Seal

14

In the freezing ocean waters of Antarctica, the planet's largest seals make their home in a frozen world. These giants are southern elephant seals, and they can grow as long as the length of a car and weigh as much as two cars combined. The name "elephant seal" comes from both the males' enormous size and from their giant trunk-like nose, called a proboscis. Females do not have a proboscis, and they are much smaller.

A thick layer of blubber keeps southern elephant seals warm in their icy habitat. The seals are clumsy on land, but in water they're graceful swimmers and incredible divers. They can easily dive 1,000 to 4,000 feet to hunt for squid, octopus, and various kinds of fish. Elephant seals are able to stay underwater for 20 minutes or more. The longest underwater session researchers observed was an amazing two hour session! When they return to the surface to breathe, it's only for a few minutes. Then they dive again.

While elephant seals spend most of their time swimming, they also gather on beaches in groups called colonies. One reason they come to land is to give birth and breed. Males arrive before females. They battle for dominance, deciding who will have large harems of females. Raising their enormous bodies, the males inflate their snouts and bellow. Usually, these confrontations end quickly. However, sometimes only a physical battle can settle the matter. These fights can be bloody, but permanent injury is rare.

Females arriving on land give birth to a single pup they've been carrying since the previous year. Newborns weigh about 90 pounds. The mother nurses her pup for a little over three weeks. After this, she breeds with a dominant male and then returns to the sea to feed. Her pup now weighs well over 200 pounds and is on its own. If it survives, it too will enter the sea within a couple of months.

A second reason elephant seals come to land is to molt. When they molt, they shed old skin and fur, and new skin and fur grows.

A smaller species, the northern elephant seal, lives in the Pacific Ocean, dispersed from Mexico's Baja California to Alaska. Both northern and southern elephant seals were once hunted nearly to extinction. However, under legal protections both have made incredible comebacks.

B. Look at the text in each question and circle the letter next to the correct explanation a, b, or c. (6*2=12marks).

|---|---|--|
| 1 |  No Entry: Authorized Personnel Only Beyond This Point
constructions are in progress | What is this sign telling you?
A. It's okay to enter this area if you want.
B. No one is allowed to enter this area.
C. It's dangerous to enter this area if you are not authorized. |
| 2 |  First Aid Station:
Immediate
Assistance Available
Here | What does this sign indicate?
A. This is where you can find food and water.
B. Emergency medical help is available here.
C. This is where you can sleep if you're tired. |
| 3 |  Authorized Personnel Only Beyond This Point
At all times | What does this sign indicate?
A. Only authorized people are allowed to enter this area.
B. The area is open to everyone.
C. You need a permit to park in this area. |
| 4 |  Pedestrian Crossing
Ahead
Drive Slowly | What does this sign indicate?
A. Pedestrians are not allowed to cross the street.
B. Pedestrians should cross the street at a safe location.
C. Drivers should speed up when approaching this area. |
| 5 |  Store Opening
Hours: 9 AM to 6 PM,
Monday to Saturday | What does this sign tell you?
A. The store is open from 9 AM to 6 PM, Monday to Saturday.
B. The store is open 24 hours a day.
C. The store opens only on Sundays. |
| 6 |  School Zone from
6:00 am to 3:00 pm
Drive Carefully and
Watch for Children | What does this sign indicate?
A. The area is a designated play zone.
B. Drivers can go at normal speed in this area.
C. Drivers should slow down between 6 am and 3 pm. |

Part 2: Reading

(34 marks)

8

A. Read the following text. Circle the best answer (a, b, or c) for each space. Number (0) is done for you as an example. (8*1=8)

The Amazon rainforest is one of the most important ecosystems(0)..... Earth. It is home to millions of species, many of(1)..... have not yet been discovered. The rainforest is essential(2)..... regulating the environment of the planet by absorbing carbon dioxide and producing oxygen. However, over the years, deforestation has become a major problem. Large areas of the forest are(3)..... cleared for agriculture, causing the loss of vital habitat. This has led to the extinction of(4)..... species and has disrupted the natural balance of the ecosystem. The government(5)..... introduced laws to reduce deforestation, but enforcement remains a challenge. Environmental organizations are(6)..... hard to raise awareness about the importance of preserving(7)..... Amazon and to promote more sustainable farming practices. If this continues, we may(8)..... severe consequences, such as extreme weather patterns and rising temperatures. As a result, it is important for countries to adopt policies that protect the forest and for individuals to reduce their carbon footprint.

KINGDOM OF BAHRAIN
MINISTRY OF EDUCATION
INTERNAL EXAM SECTION
FIRST INTERMEDIATE

END OF SECOND SEMESTER EXAM / 2024-2025

COURSE NAME: English language

TIME: 2 ½ HOURS

(30 marks)

Part 1: Listening

A. Listen to a conversation between two friends about their day in school. Then choose the correct answer a, b, or c. (6*2.5=15marks)

1. What subject did Sarah study after math?

- ☒ A) English
- ☐ B) History
- ☐ C) PE

15

2. What sport did Sarah play in PE?

- ☐ A) Football
- ☐ B) Tennis
- ☒ C) Basketball

3. What did Tom do in his art class?

- ☐ A) Painted a portrait
- ☒ B) Drew landscapes
- ☐ C) Made sculptures

4. What happened during Tom's science class?

- ☐ A) They played a game
- ☒ B) They did an experiment with water
- ☐ C) They studied

5. What did Sarah end up doing in music class?

- ☐ A) Played the guitar
- ☐ B) Sang
- ☒ C) Played the piano

6. What subject did Tom enjoy the most?

- ☒ A) Art
- ☐ B) History
- ☐ C) PE
