C. Read the following text about “Amazing Creatures”. Then answer the questions below.

14

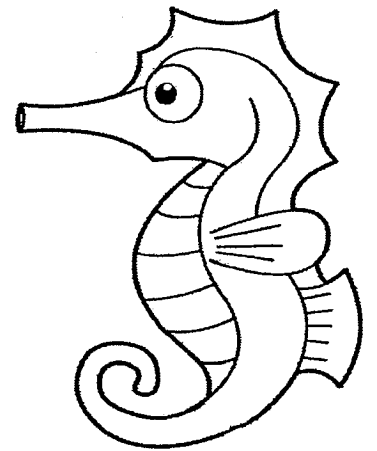

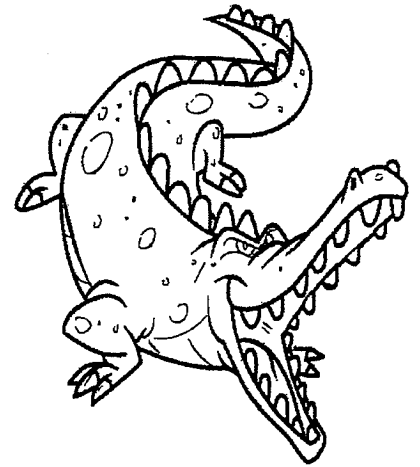

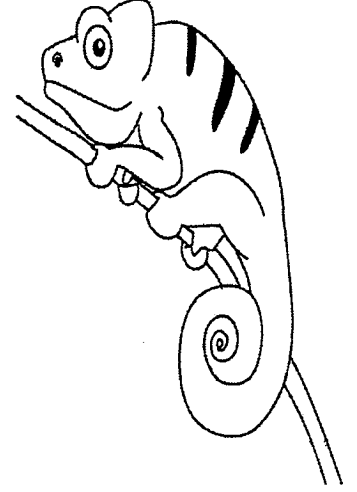

Amazing Creatures

Our Planet is home to about 30 million different kinds of animals. They are beautiful, they are special and they always amaze us!

Chameleons live in a variety of habitats, from rain forests and lowlands to deserts, semi-deserts, and even mountains. Many inhabit trees, but some live in grass or on small bushes, fallen leaves, or dry branches. They eat bugs and they are famous for their ability to change colour, their sticky tongue, and their eyes which can be moved into different directions at the same time. This helps them to spot their enemies and their food. As a chameleon grows, its skin does not. When it gets tight, they lose it. Their old skin is quite tasty so they often eat it. Yummy! If you see a chameleon sleeping during the day, or with one or both eyes closed, then it is sick. They never sleep during the day.

Crocodiles are large reptiles found in tropical regions of Africa, Asia, the Americas and Australia. They normally live near lakes, rivers, wetlands and even some saltwater regions. They run fast and sometimes jump to catch their food. When they see their food, they open their strong jaws and swallow it. The food goes straight down to their stomach. Crocodiles grow new teeth to replace their old ones all the times but they never clean their teeth and they cannot move their tongues!

Seahorses or “hippocampus” mainly live in shallow tropical and temperate waters throughout the world. They are found in Pacific waters from North America to South America. They can change colour to protect themselves from enemies. Male seahorses are the only males on the planet that have babies! The female leaves her eggs in the male’s pouch. The male carries them for a month. After one month, a thousand of tiny babies come to life. Seahorses have one partner during their lifetime. Each morning the couples dance together. Their dance usually lasts for several minutes.

A. Are these statements True (T) or False (F)? Circle the right answer.

Second Intermediate Listening Exam

End of First Semester Exam/ January 2017

There are two questions in this test, A and B. You must answer them both.

Pause for one minute

Listening (A):

You have one minute to read the questions.

A. Listen to a conversation between a reporter and a teenager and then circle the correct answer (a, b, or c).

Reporter: Hi listeners! Today, we're talking about sports and hobbies with teenagers and we are lucky enough to be joined by a guest. He has agreed to tell us about what he likes to do the most. Welcome to the show, Kevin! Tell us about yourself.....

Kevin: Hi everybody! My name is Kevin Spenser and I have just turned 18. I'm from New York, which is a big city in the United states of America. I'm in my final year of high school and I think I'm quite an energetic person.

Reporter: Really? Tell us about your daily routine

Kevin: Well, from Mondays to Fridays, I have school! I really enjoy Math but my favourite subject is Physical Education. I love it because we get to play lots of sports, like soccer and hockey. I also love working out in the school gym because it really relaxes me. Once school has ended for the day, I usually head straight to the basketball court with

my friends for team practice. That usually lasts for two hours. After practice, I go home, do my homework, eat, and take a shower.

Reporter: Wow! It sounds like you have a very busy schedule! I'm surprised you have found the time to speak to us! Tell us Kevin, how often do you have basketball practice?

Kevin: Umm..... we always have team practice on Mondays, Tuesdays, Thursdays and Fridays. We have to work hard if we are going to keep on winning our games, right?!

Reporter: Right. So, what about your free time? What do you like to do at the weekends?
المنهج البحرينية
almanhaj.com/bh

Kevin: Well, my school days are spent studying and reading books, so I keep myself busy. I have recently taken up horse riding and I love it! I have lessons every Saturday and Sunday and I'm always the first person there.

Reporter: You certainly are an active young man! I wish I had your energy! Thank you for taking the time to talk to us, Kevin! It's been a pleasure.

Kevin: Thank you! Goodbye.

Now listen again and check your answers

Listening: (B)

You have one minute to read the question:

Pause for one minute

B. Listen to a dialogue between a reporter and a taxi driver. Listen and fill in the form below. Use one word only in each space.

Reporter: Good evening, Mr. Foster. I'm from the Daily News. Can you tell me what happened to you in your taxi today?

Mr Foster: Good evening. Well.... It was about 4 o'clock in the afternoon. I had finished my shift and I was just thinking about going home.....

Reporter: Go on

Mr Foster: When, suddenly, something fell out of the sky and hit my car. I was very surprised!

Reporter: Wow! What was it?

Mr Foster: A huge tortoise.

Reporter: A huge tortoise. That's unbelievable!

Mr Foster: Can you imagine? I stopped the car and got out. The tortoise was lying on the ground and two people were running towards it!

Reporter: Who were they?

Mr Foster: The tortoise's owners. It seems that it had been crawling on the balcony of their tenth floor apartment when it fell off onto my car.

Reporter: Oh dear! That's terrible! So, how was the tortoise.... and your car?

Mr Foster: Well, the tortoise was fine but my car was badly damaged.

Reporter: How do you feel now, Mr. Foster?

Mr Foster: Well, I'm still a bit shocked!

Reporter: I'm not surprised! What a story, Mr. Foster! Thank you for sharing it with us.

Mr Foster: You're Welcome.
