Vocabulary

1- Complete the questions and answers with the words from the box.

creature	harsh	lack of	levels
life	parasite	remarkable	thrives

- 1 Can a _____ oxygen kill you? Yes, it can.
- 2 What is tongue-eating louse? It's a kind of _____.
- 3 What kind of _____ is an elephant? It's a mammal.
- 4 Do you think that _____ exists on other planets? Yes, I do!
- 5 What do you know about this plant? It _____ in the rainforest.
- 6 Is the Antarctic a _____ environment? Yes, it is.
- 7 Are the sea _____ rising? Yes, they are.
- 8 Some creatures can live under 18 m. of ice. I know. It's _____.

(8 points)

2 Read the definitions to complete the words.

- 1 _ x _ s _ to be
- 2 t _ l e _ a _ e to handle
- 3 t _ p _ c _ l common and not surprising
- 4 _ i _ l to harm something so that it dies
- 5 b _ z _ r _ e strange and unusual
- 6 d _ _ to stop living

(6 points)

Grammar

3 Complete the sentences using the words in brackets in the present perfect.

- 1 (be) He _____ to Antarctica.
- 2 (hear) _____ you _____ of 'extremophiles'?
- 3 (choose) The team _____ to study ocean microbes.
- 4 (teach) The research _____ us a lot about extreme conditions.
- 5 (work out) The African bullfrog _____ how to survive in hot deserts.
- 6 (fail) We _____ to find any more signs of life.

(6 points)

4 Write questions using the present perfect.

1 hottest place / you / ever / be

2 tallest building / you / ever / see

3 longest journey / you / ever / take

4 strange animal / you / ever / touch

(4 points)

5 Now answer the questions for you.

1 _____

2 _____

3 _____

4 _____

(4 points)

6 Use the prompts to write sentences using *as ... as*.

big	cold	fast	long	much	well
-----	------	------	------	------	------

1 Can a rabbit run _____ a cat?

2 Does a human heart weigh _____ a giraffe's heart?

3 Moles can't see _____ rats.

4 The North Pole isn't _____ the South Pole.

5 Sixty million years ago, turtles were _____ small cars.

6 A year on Earth isn't nearly _____ a year on Neptune.

(6 points)

Reading

7 Read the article and circle the correct option.

'Dumbo' octopus

Named after the Disney character because of their big ear-like fins, 'Dumbo' octopuses can live as deep as 4,800 metres (13,100 ft.) which is deeper than any other type of octopus. Life at these extreme depths is difficult. Animals need to be able to live in complete darkness and be able to survive in exceptionally cold conditions. Dumbo octopuses spend their time hovering a short distance above the seabed, waiting for prey. They move by slowly flapping their fins. Some diving fish will eat Dumbo octopuses, but because they are able to live at such extreme depths, they are rarely captured by deep-sea fishing nets.

1. Dumbo octopuses have been named after a Disney character ...
 - a) because they've got big ears.
 - b) because their fins look like ears.
2. Dumbo octopuses live in ...
 - b) because their fins look like ears.
 - a) deeper water than other octopuses.
 - b) shallower water than other octopuses.
3. Dumbo octopuses have adapted to live ...
 - a) in extreme cold and dark conditions.
 - b) where there aren't any predators.
 - b) where there aren't any predators.
4. Dumbo octopuses aren't often caught by people because ...
 - a) they are too small to be caught by fishermen.
 - b) they live in such deep water.

(4 points)

8- Read the examples. Then choose one of the animals from your Student's Book. Write a similar persuasive paragraph using the transitional phrases in the box.

as a result

because

for this reason

therefore

1 Naked mole rats are certainly considered ugly. However, researchers have discovered that naked mole rats never get cancer. For this reason, it's important to protect and study the naked mole rat.

2 Turkey vultures are large birds that live in North America. They live on dead animals and rotting plants. They are amazing animals because they digest lots of deadly bacteria and toxins, but none of these survive to make the vulture ill. As a result, they are useful to scientists who are studying human digestive problems.

Writing

Write about an animal that lives in Bahrain, like the sea cow or the Arabian Oryx or any other animal.

The Arabian Oryx in Bahrain

The Arabian Oryx is a unique animal that lives in Bahrain's deserts. It has a white coat and long horns. This animal was almost extinct, but now it is safe and protected.

The Arabian Oryx can survive without water for a long time because it gets moisture from the plants it eats, like grasses and shrubs.

You can see Arabian Oryx in special places like the Arabian Oryx Sanctuary in Bahrain. These programs teach people how important it is to protect this animal and its home.

By helping with these efforts, we can make sure the Arabian Oryx has a bright future in Bahrain.

Or

I want to talk about the giant panda. This cute animal is in danger because of habitat loss and low birth rates. As a result, there are only about 1,800 pandas left in the wild, mostly in China.

Pandas are important for bamboo forests. They eat a lot of bamboo every day, which helps keep the forest healthy. Because they help spread seeds, protecting pandas also helps other plants and animals. For this reason, we need to take action to save them.

We can support wildlife reserves that protect pandas and promote better farming. Therefore, I urge you to share this information and help conservation efforts. Together, we can ensure a future for these gentle giants.

Model Answers

Vocabulary

1

- 1 lack of
- 2 parasite
- 3 creature
- 4 life
- 5 thrives
- 6 harsh
- 7 levels
- 8 remarkable

2

- 1 exist
- 2 tolerate
- 3 typical
- 4 kill
- 5 bizarre
- 6 die

Grammar

3

- 1 has been
- 2 Have/heard
- 3 has chosen
- 4 has taught

4

- 1 What's the hottest place you've ever been?
- 2 What's the tallest building you've ever seen?
- 3 What's the longest journey you've ever taken?
- 4 What's the strangest animal you've ever touched?
