Vocabulary

Choose the correct word from a or b

6 marks

- 1 The _____ looked through the huge telescope.
a) atmosphere b) astronomer
- 2 Scientists have _____ signs of life.
a) detected b) wondered
- 3 She was delighted that she had the _____ to attend the talk.
a) advance b) chance
- 4 The machine was _____ the latest technology.
a) equipped with b) lead to
- 5 One of the unanswered questions is whether the planet is _____.
a) hazy b) habitable
- 6 These _____ crops only grow during the summer months.
a) seasonal b) vast

2 Read. Complete the sentences with the words from the box.

aspiring dust geyser landscape proof requirement

- 1 He's taken some beautiful photos of the _____ that surrounds his home.
- 2 The _____ storm made the driving conditions dangerous.
- 3 One _____ for the mission is that you have excellent vision.
- 4 The _____ musician played wonderfully in the concert.
- 5 We were surprised when the _____ erupted.
- 6 Can you show me the _____ that your answer is true?

Grammar

(6 points)

3 Match the sentence halves.

- | | |
|--------------------------------------|--|
| 1 If I could visit another planet, | a) if I were an engineer. |
| 2 I would have talked to my grandad | b) I would have named it after my dad. |
| 3 I would design a faster rocket | c) we might have found it sooner. |
| 4 If we had had the technology, | d) I would choose Jupiter. |
| 5 If I had the right qualifications, | e) if he had been there. |
| 6 If I had discovered a planet, | f) I would apply to be an astronaut. |

(6 points)

Read. Complete the sentences according to the information in **bold** and using the verbs in brackets.

- 1 **impossible** If there hadn't been so much dust, the plane ___ (take off) earlier.
- 2 **unlikely but possible** If I were a scientist, I ___ (study) astronomy.
- 3 **unlikely but possible** If we had found the proof, we _____ (be) much happier.
- 4 **impossible** He could have been on the mission, if _____ (not fall) ill.
- 5 **impossible** If I had landed on Jupiter, I ___ (collect) some rock samples.
- 6 **unlikely but possible** If I became an astronaut, I _____ (be) very happy.

4 Read. Complete the sentences using the adverbs in brackets in the correct form. Add words when necessary.

- 1 My new computer processes data _____ (fast) my old one.
- 2 He walks really _____ (slow) since his operation.
- 3 Taking the motorway is the _____ (good) way to get there.
- 4 Jane did the experiment _____ (careful) her sister.
- 5 The twins ran the race _____ (quick) each other.
- 6 We measured the level of water _____ (precise) we could.

Reading

6 Read the text. Circle T for true or F for false.

Located almost a million miles away from Earth is the Gaia satellite. Launched in 2013 by the European Space Agency, Gaia's job is to map the universe. Scientists hope that Gaia will be able to send them back data and images which will allow them to create a 3D image of our galaxy. The mission controllers know that Gaia won't be able to map each and every object – our galaxy alone is made up of more than 300 billion planets, stars, moons, asteroids and other space objects. So far, Gaia has sent back images of approximately 1.14 billion stars. These images give scientists important new clues about how and when our galaxy was formed. That is a huge amount of data, and scientists are excited to receive more detailed data such as measurements and motion in future.

- | | | |
|--|---|---|
| 1 Gaia is the furthest planet from Earth. | T | F |
| 2 There are astronauts on Gaia who are mapping the universe. | T | F |
| 3 Scientists hope to use Gaia's images and data to map our galaxy. | T | F |
| 4 Gaia will collect data on every single object in the galaxy. | T | F |
| 5 There are more than 300 billion planets in our galaxy. | T | F |
| 6 Scientists believe that Gaia's data is hugely important. | T | F |

ALESSANDRO BENETTON

Benetton is a family business. My father started the company, Italy's largest clothing factory, forty years ago, and we now have around 5,000 shops selling Benetton clothes in 120 countries worldwide. I recently took over as chairman, and I want the business to grow, but I also want to keep the values that have made Benetton an international name.

Having three children means it's not necessary for me to set the alarm clock. I live very near my office, so I can be there in five minutes, and as soon as I sit at my desk, I get to work. Time is valuable, and there isn't usually enough to get through everything that needs to be done. My job is quite varied — it's not all about clothes. At the moment, we are developing charity projects in Africa and helping the United Nations World Food Programme — we need to listen to the people the world has ignored.

When I was growing up, my parents made sure I was able to look after myself, and I want to raise my children in the same way. I don't treat them as children; I treat them as adults. They can be childish if they want, but they need to take responsibility for the things they do and the choices they make. I would love to be with my children more, but my job is very demanding. That's why the time I get to spend with my family is extremely valuable to me.

A- Multiple Choice Questions:

1. What is the writer's main purpose in writing the text?
 - a) To complain about his children
 - b) To say why he became a businessman
 - c) To give some information about his life
2. What would a reader learn about Alessandro from the text?
 - a) He enjoys spending time with his children.
 - b) He is nervous about his new role.
 - c) He doesn't want to open new shops.
3. What does the writer say about his children?
 - a) He helps them with their homework.
 - b) He thinks they are too childish.
 - c) He wants them to be responsible.
4. What does the writer say about himself?
 - a) He believes he works too hard.
 - b) He has a lot of things to do at work.
 - c) He needs to live near his office.

B-Answer the following questions:

1. What does the Benetton family sell?

2. How many shops are there for the Benetton family around the world?

3. What is the Benetton family developing now in Africa?

My Best Friend's Wedding

I'm going to a wedding (0) next Saturday. My best friend, Marie, is (1) _____ married . Marie and her fiancé George have been engaged (2) _____ five years and decided to organize a big wedding next week. I must say, we were all rather (3) _____ when they announced the wedding date.

The wedding will be in Marie's parents' home, and afterwards, there will be a party (4) _____ a restaurant near Marie's home. There will be almost (5) _____ hundred guests at the party. Besides (6) _____ families, all Marie's friends from college will be at the wedding. Marie and George have also (7) _____ a lot of people from the office where they both work.

The party should be great fun. There will be lots of food (8) _____ drink. The party should be great fun. There (9) _____ also going to be a band. We all expect that it will go on (10) _____ late in the evening.

Enleigh Charity Fun Run

Sunday, 1st August Manor Park, Enleigh

This will be the fifth year of the Enleigh Fun Run.

This year it promises to be bigger and better than ever!

- **How far?**

The Fun Run is five kilometres long and takes place in Manor Park.

- **I can't run 5 kilometres!**

Don't worry! You can run or walk the course. The point is to take part and raise as much money as possible for local charities.

- **Who can enter?**

Anyone can enter the walking event and anyone over 16 can take part in the Run. You can run the race alone or enter as a team, with each member running part of the distance. Why not organise a group of friends or work colleagues to run in a team with you?

- **How do I enter?**

Just fill in the application form and send it off in the envelope provided (no stamp required). You will be sent full details of the event, as well as a number and a sponsor form. Runners are asked to raise at least £40, which will be given to local charities. Alternatively, just turn up before 10am on the day itself, pay the £5 registration fee and collect your Number. All participants should wear their numbers as it helps us to record your time and position in the race.

- **Preparing for the Fun Run**

The earlier you start training for the event the better. Don't worry if you haven't exercised for years, you still have time to build up your fitness. Start by walking at least three times a week for 20 minutes. You can even try to include walking more in your daily routine. For example, walking up stairs rather than using the lift. Gradually increase the speed and distance you walk, then try to increase your speed to a jog. It's much easier to exercise with a partner, so try to persuade a friend to join you. This is also a great way to make sure you don't cheat! You should aim to be able to run three kilometres without feeling out of breath. Remember, always stretch before and after exercise.

- **The day of the Fun Run**

On the day itself you are invited to join local fitness instructor, Carol White, for a warm-up. The Fun Run starts at 12pm and the walk starts at 12:15pm. The course goes around Manor Park, starting at the boating lake and ending by the cricket pitch. When you finish you will be given a medal and a special certificate. During the race water will be provided and there are changing facilities in the cricket hut.

C.A. Read the sentences carefully, circle (T) for true or (F) for false
(1 × 8 = 8 marks)

8

- | | | |
|---|---|---|
| 1. Enleigh Fun Run started 5 years ago. | T | F |
| 2. You cannot take part if you cannot run more than 5 kilometers. | T | F |
| 3. If you are under 16, you cannot enter the running race. | T | F |
| 4. You will receive details of the race by mail. | T | F |
| 5. You are advised to walk 20 minutes a day before the race. | T | F |
| 6. Carol White will help you to warm up on the day of the race. | T | F |
| 7. At the end of the race you can have a game of cricket. | T | F |
| 8. A medal will be awarded to the participants. | T | F |

C.B. Now answer the following questions. (3 × 2 = 6 marks)

6

- Who can participate in the walking event?
.....
.....
- How can someone enter the Fun Run?
.....
.....
- Why are participants encouraged to wear their numbers during the race?
.....
.....

A. Read the text below and choose the correct word. For each space circle the correct letter A, B, or C. Number (0) is done for you as an example. (10x1=10 marks)

How to be a perfect colleague

You ... (0)..... feel you are good at your job, but how good are you at ... (1)..... on with other people in the office? To be a dream colleague you need to follow a ... (2)..... simple rules.

Firstly, ... (3)..... people informed. If you are running late, or having problems with a particular project, let your colleague know. Your work mates will then be able to help you and know ... (4)..... to expect.

It is important to admit when you are wrong or have ... (5)..... a mistake. Honestly ... (6)..... the best policy, owned up to being wrong, but don't take the blame ... (7)..... someone else's mistake. Be positive; people could get bored with colleagues ... (8)..... complain all day. Before you start complaining, try to remember a positive experience and ... (9)..... good you felt. Remember that office life nowadays is based on teamwork. ... (10)..... wants to work with someone who is always miserable.

Developing Spacecraft vs. Developing Robots

Technology is very important in our life. Some people think that we should develop spacecrafts, others think that we should develop robots.

Some people think that we should explore space, so we should build more spacecrafts. But it cost billions of dollars. Also, a lot of people don't get lots of benefits from exploring space.

On the other hand, we can build lots of robots that cost less than building one spacecraft. We can use robots in factories, streets, hospitals and even houses. They can work in dangerous situations. For example, they can take apart bombs.

To sum up, it's clear that developing robots is better. They are cheaper, more useful, and practical than developing space crafts.

Model Answers Vocabulary

- 1 astronomer
- 2 detected
- 3 chance
- 4 equipped with
- 5 habitable
