B. flight

C. reading

7. A. skilling

B. skills

C. skilled

8. A. allow

B. allowed

C. allows

9. A. revolve

B. evolve

C. live

10. A. flap

B. clap

C. trap

Writing paragraphs

1) Unit 1 Similar But Different

I come from a big family and share personality traits with many family members. Everyone tells me that I look like my father but we are different in some ways.

My father and I like playing football and enjoy riding bikes and going for walks. We both like playing games and going to the sea to swim or to catch fish.

But when winter comes, it's a different story. Unlike my father, I like getting out even it is cold or raining, but my father likes to stay home by the fire reading books or watching TV. I am too energetic to sit for so long. When we play video games I am competitive but my father isn't.

But it doesn't matter. I like being with my father all the time. We are a good fit!

2) Managing my fear

When you're afraid of something, fear can affect you. For as long as I can remember when I was six years old I was stung by a bee, since then I am scared of bees. But when I turned 14 I decided to manage my fear. It only took me a few steps.

First, I read a lot about different bees. I didn't focus on bites, but I read about their benefits for man. Bees are cool! They're hard working, social and organized. They help pollinate the plants and give us honey.

Next, I started to watch bees on the internet videos first then from a safe place. Finally, I took the most important step to face my fear by myself. I let a bee walk on my arm bit by bit, I really felt no fear at all.

As you can see, it is easy to manage your fear. Just remember to read and learn as much as you can. Really the end result worth it!

Unit 3) Group behavior

To: Ahmed

From: Mohamed

Subject: Group behavior السلوك الجماعي

Hi Ahmed,

How are you and your family? I hope you are all OK. It's been a long time since we last met. I am writing this email to tell you about change in my behavior with my friends. We usually go camping in Sakhair. We all like football and ride our bikes.

I love buggy riding with my friends Ali. He is so competitive. Also, barbeque (BBQ) time is always fun and laugh. At night, we love gathering around the fire and telling jokes and scary stories. We find the same things funny, but sometimes we don't know why we are laughing. We can't help it.

In summer, it is different. We go to the sea to swim and catch fish. We love going shopping in the malls. Sometimes we go to the cinema to watch the latest movies. Time passes by having fun doing these activities.

What about you? What do you enjoy doing with your family and friends? I'd love to know if your behavior changes when you are with them. See you soon my dear,

Love, Mohamed

5) flying animals

When we think of flying animals, the first thing that comes to our mind is bats and butterflies. Bats are the only mammals that can fly. They use their wings in flying like we use our hands in swimming. Bats can fold their wings in different shapes and change directions very quickly.

Also, butterflies look different from many other flying animals. They have big wings that make it easier for the insect to fly, go up and down.

All in all, it is amazing how both bats and butterflies fly. Yet, it is in a different way with different wings. Which are the other flying animals would you like to learn how they fly?

5) Flying machines

Long before we had planes, man had been dreaming of flying. People had tried flying by making wings of birds feathers or making air balloons or gliders till we have today's flying planes, helicopters, spaceships and rockets.

Hot air balloons and gliders depend on air to fly. They used to give riders a safe and smooth flight. Then, we came to see aeroplanes that have wings and depend on machines to soar and fly.

Remember that planes aren't the only way to fly. We have now helicopters. It has an engine that makes its blades spin to help it fly. Helicopters can stay in one place in the sky for a long time. Helicopters are now used by medical teams, the police and the army. You can ride it for fun and sightseeing. زيارة الأماكن السياحية.
