Reading Comprehension (80)

Read the following passage, then answer the questions below:

Tom Drakes had strange ideas of fun. His favourite way of amusing himself was to annoy other people. But the day of the fire was the day he learnt his lesson. In some parts of the town where Tom lived there were fire alarms in the streets. You had to break the glass and turn a handle; that was all, and then the firemen came to put out the fire. Tom would start one of these alarms and then enjoy watching the fire engines as they raced down the street looking for the fire. He used to hide behind a wall at the corner of the street and laugh as the firemen discovered that there was no fire and got back angrily on to their engines.

Tom told some of his friends at school about the fun he was having and the result was that there were soon boys all over the town who went about starting false alarms of fires.

In the holidays Tom liked to do chemistry experiments in his bedroom. One day there was an accident He was using a burner to heat some liquid, when suddenly he knocked it over, and in a few moments his bed was on fire. Tom saw immediately that firemen would be needed to put the fire out. At top speed he ran downstairs and out of the house and along the street to the corner where the fire alarm stood. There for a moment his heart stopped beating; it was broken. Tom turned to look back at his house.

Black smoke was beginning to climb up from his bedroom window. He stood by the fire alarm, not knowing what to do. It seemed that his home was about to be burnt down perhaps because of a trick which some other foolish boy had learnt from him!

At the sound of a clanging bell his fear changed suddenly to hope. Yes, it really was the fire engine that came racing down the road! Although he never discovered who started the alarm, he knew he was luckier than he deserved to be: by chance, an unknown boy's silly trick had had useful result.

Summary making (60)

One day he stopped to examine the glass dishes on which he had grown some microbes in a special liquid. In one dish, he was surprised to notice a greenish mould. That meant a tiny seed, too small to see, must have floated on the dish when the lid was off. Fleming took a closer look and then made a careful examination. He saw that a strange thing had happened. Where the greenish mould was growing, the disease microbes had disappeared. He began to grow enough of the mould to make from it a clear liquid, which tests showed could kill microbes or stop them in both animals and human beings without harming their white blood cells. He called the liquid penicillin.

In a paragraph of FOUR sentences ONLY, summarise and paraphrase the previous passage in an answer to the following question: (4 x 15= 60)

How did Fleming discover the existence of penicillin?

Reading Comprehension Passage

I have returned to my hometown of Wilson Creek after an absence of 10 years. So many things have changed around here. When I left Wilson Creek, there was a small pond on the right as you left town. They have filled in this pond and they have built a large shopping mall there. There is a baseball stadium on the outskirts of Wilson Creek which has been changed completely. They have now added a new stand where probably a few thousand people could sit.

The biggest changes have taken place in the downtown area. They have pedestrianized the center and you can't drive there anymore. A European-style fountain has been built and some benches have also been added along with a grassy area and a new street cafe. My street looks just the same as it always has but a public library has been built in the next street along. There used to be a great park there but they have cut down all the trees which is a pity. The library now has a large green area in front of it but it's not the same as when the park was there. A Chinese and an Italian restaurant have opened in the town center and a Mexican restaurant has opened near my home. This is where I am going tonight!

From a , b , c and d choose the right answer:

1) The underlined word (stand) means -----

- a. park b. position c. restaurant d. tree

2) The underlined word (it) in line 11 refers to -----

- a. new street café b. public library c. street d. park

3) The best title for the passage is-----

- a. A big change b. a Mexican restaurant
c. a baseball stadium d. a public library

5).....restaurants have opened in the town center.

- a. Italian b. Mexican c. Chinese d. All

6) The writer used to live in.....

- a. Wilson Creek b. Europe c. Africa d. Asia

7) People can't drive through the center of the downtown because of.....

- a- the pedestrian zone. b- wide streets c- narrow roads d- restaurants

8- All the following statements about the passage are true EXCEPT:

- a- The writer is back again to Wilson Creek.
b- Wilson Creek has been slightly changed.
c- A Chinese and an Italian restaurant have opened in the town center.
d- The stadium of Wilson Creek which has become bigger.

Read the following passage then answer the question below:

The spectacular Eiffel Tower, in Paris, is one of the world most famous monuments. The Eiffel Tower was designed by Gustave Eiffel. He is a French engineer specialized in metallic buildings such as bridges. Steel construction was then a revolutionary technique. Completed in 1889 for the Paris world exhibition; the Eiffel Tower was designed and built in just two years by 132 workers and 50 engineers. The Eiffel Tower is nowadays 324 meters high with television antennas. It weighs 7300 tons. The first floor of the Eiffel Tower is 57

meters and 360 steps from the ground. The second floor is 115 meters and 1060 steps from the ground. The third floor is 274 meters from the ground. It is only accessible by lift to the general public. They are altogether 1710 steps up to the third floor. The Eiffel Tower was planned to be demolished in 1909. It was saved at the last moment and turned into a telecommunication tower. It welcomes 7 million visitors each year, which makes it the most visited paid monument in the world.
