Making a good kind of perfume is a bit like creating a special recipe. It begins by selecting your favourite or attractive smell from flowers or fruits. To get the pleasant smell, we use methods like steam or special liquids, a bit like getting juice from fruits. Then, we mix these smells carefully, like combining ingredients in cooking. The mixed smell needs time to become even more wonderful. This waiting period is a bit like letting soup boil to improve its flavour. After the waiting time, we have a beautiful and unique perfume ready for people to use.

There are a lot of benefits to knowing more than one language. Learning a second language can provide you with more chances of having a good job or advancing in your career. In addition, learning a foreign language can also give you a better understanding of other cultures. You will be more prepared and confident to travel the world and explore other people's ways of living. Did you know that learning a second language can also help you master your own language? For example, learning a new language with similar roots can help you learn other languages as well. Besides, it allows you to train your memory to remember new words.

READING COMPREHENSION

Read the following passage carefully, then answer the questions that follow:

Floods are second only to rainforest wildfires as the most common of all natural disasters. They occur almost everywhere in the world, resulting in widespread damage and even death. Consequently, scientists have long tried to perfect their ability to predict floods. So far, the best that scientists can do is to recognise the potential for flooding in certain conditions. There are several conditions, from deep snow on the ground to human error, that cause flooding.

When deep snow melts, it creates a large amount of water. Although deep snow alone rarely causes floods, when it occurs together with heavy rain and sudden warmer weather it can lead to serious flooding. If there is a fast snow melt on top of frozen or very wet ground, flooding is more likely to occur than when the ground is not frozen. Frozen grounds or grounds that are very wet and already saturated with water cannot absorb the additional water created by the melting snow. Melting snow also contributes to high water levels in rivers and streams. Whenever rivers are already at **their** full capacity of water, heavy rains will result in the rivers overflowing and flooding the surrounding land.

Rivers that are covered in ice can also lead to flooding. When ice begins to melt, the surface of the ice cracks and breaks into large pieces. These pieces of ice move and float down the river. They can form a dam in the river, causing the water behind the dam to rise and flood the land upstream. If the dam breaks suddenly, then the large amount of water held behind the dam can flood the areas downstream too.

Unleashed dam water can travel tens of kilometers, cover the ground with mud, and waste. It can drown and crush everything and creature in their path. Although scientists cannot always predict exactly when floods will occur, they do know a great deal about when floods are likely, or probably, going to occur. Deep snow, ice-covered rivers, and weak dams are all strong conditions for potential flooding. Hopefully, this knowledge of why floods happen can help us reduce the damage they cause.

From a, b, c and d, choose the correct answer:

01- The best title for the passage is:

- a. **Melting Snow**
- b. **Causes of Floods**
- c. **A Natural Disaster**
- d. **A Scientific Research**

Punctuality is the characteristic of any person to be on exact time or complete any task within the given time. Punctuality is a good trait which can be developed at any age; however, it is good to develop from childhood. To develop punctuality, you need patience and discipline in life. Besides, it needs much practice and dedication towards work. Moreover, you need to be organised. For example, you should set an alarm before sleeping to be on time. Finally, one should believe in the importance of being punctual because we will never be able to do something if we are not convinced of its importance. Punctuality is the quality of a person which makes him/her capable of handling all the appointments on time.

In FOUR sentences, summarize and paraphrase the previous passage in answer to the following question:

How can you develop punctuality?

Summary Making

Read the following passage, then do as required:

The tiger is the largest of all the cats. This wild mammal is found in some remote forests and rainforests in East Asia. At present, the tiger is an endangered species in the wild. There are many things we might do to save this animal. Tigers would survive if we stopped cutting the rainforests where they live. Creating natural reserves for this rare animal is another step that can help. Also, if biologists took care of the existing tigers, they would protect them. And if we all stopped illegal tiger trading, hunters wouldn't kill them. If we took these actions, the situation of this species would become better, and tigers wouldn't be in danger of extinction.

What can we do to save tigers from extinction?

UNIT 10 – READING COMPREHENSION

Read the following passage carefully, then answer the questions below:

If you have been reading fairy stories, you may believe that all wolves are harmful, and evil. They eat children, sheep, and other small animals. They are aggressive and won't stop until they get what they want. There really isn't anything good to say about wolves. Or is there? Are wolves just misunderstood?

Wolves are actually nothing like the characters described in fairy stories. While it is true that their diet consists of deer, rabbits, and other small animals, wolves would never attack a child just for the sake of eating. Wolves have been known to attack people when they threaten them. This happens only rarely. Wolves are usually pretty shy animals. **They** stay within their own land and protect their own pack (group).

Wolves are meat eaters, and they must hunt to get their food. They are strong and fast and have sharp teeth. They use their sense of smell to find prey. Wolves hunt in packs and chase their prey until it gets tired. They usually hunt the weakest, slowest animal in a group. Wolves are not cruel; they are just good hunters.

Some wolves, such as the red wolf, are near **extinction**. Their homes are steadily disappearing as people spread their own homes further into the wilderness. Wolves have also been hunted extensively. Ranchers and farmers pose another threat to wolves. They become angry when wolves come onto their property and eat their chickens and sheep. This is a serious problem, because the farmers lose their animals, and the wolves get shot by the angry farmers. No one wins in this battle.

Wolves are an important part of the balance of nature. They hunt weak animals and help keep down the population of some animals such as deer. In many countries, it is now against the law to hunt wolves. Many zoos and scientists are working hard to protect wolves, because they understand just how important and misunderstood they are.

A- Choose the correct answer from a, b, c and d:

01. A suitable title for the passage is:

- a. Wolves in the Jungle**
- b. Wolves in Fairy Stories**
- c. The Red Wolf**
- d. True Facts about Wolves**

Read the following passage carefully, then answer the questions that follow:

Let's go on an exciting journey to the fascinating country of Japan! Imagine a place full of ancient traditions, wonderful natural landscapes, and unique culture. Japan is an island country in East Asia, and **it** has a lot to offer, from lively cities to peaceful villages. Get ready to discover the wonders of Japan!

When you think of Japan, one of the first things that might come to mind is its famous landmark, Mount Fuji. This impressive volcano is the country's highest peak, standing tall at 3,776 metres. Mount Fuji has been an important symbol of Japan for centuries. The capital of Japan is Tokyo, a huge and **vibrant** city where you can explore colourful shops and tasty restaurants. Tokyo is also home to the Imperial Palace, where Japan's royal family lives. The palace has large and beautiful gardens that visitors can explore.

Japan has a long and interesting history, and samurai warriors are a great part of it. Samurai were highly skilled warriors known for their honour and courage. They followed a strict code of behaviour called "bushido", which guided their way of life. Samurai warriors were experts in fighting with a sword. You can learn more about them by visiting museums or watching traditional samurai dramas called "Chanbara".

The people of Japan celebrate many festivals throughout the year; one of the most colourful festivals is the Cherry Blossom Festival, or "Hanami". During spring, cherry blossom trees grow, painting the country pink and white. People gather under these beautiful trees to celebrate with family and friends, enjoying delicious food and beverages. It is the time when everyone comes together to appreciate the beauty of nature.

Japan truly is a wonderful country, full of exciting discoveries. From its famous landmarks to its rich history and unique culture, there is always something new to explore and learn about. So, get ready to continue exploring, as there are many more fascinating features of Japan waiting to be discovered.
