Write your topic here

The media has many positive and negative effects.

The positive effects of media are so many. First, we depend on media to know about what is happening around us. We get the latest news. Second, it is a great means of entertainment. For example, I enjoy watching matches, drama and movies. Also, media can help to raise awareness.

On the other hand, the negative effects of media are also so many. Sometimes, media can lead people to negative and destructive thinking. For example, it can help to promote and spread violence. Also, media can mislead people by glorifying certain issues by making heroes out of ordinary people.

The media has to be as truthful as possible. The media should respect the affairs of other countries. It shouldn't lie and mislead people to form their opinions. Furthermore, mass media should respect the minds their viewers, listeners and readers.

Finally, we should be careful from the negative effects of media and make use of its positive effects.

"Omar Al-Mukhtar" movie directed by the well-known director Mustafa Al-Akkad is a great movie to watch.

The film represents the life story and the battles led by the Libyan resistance icon Omar Al-Mukhtar. It is categorized as a biography epic movie.

almanahj.com/kw

The director tried to simulate the life of Omar Al-Mukhtar in the real landscape of the real story. It was filmed in the Libyan desert. Antony quine played the role of Omar Al-mukhtar. What I like most about this film is the genuine representation of life at that time.

The costume design, make-up, soundtrack, and special effects contributed as a whole to create a masterpiece in the modern film industry era.

The battle scenes were performed with great skill by the well-trained cast. The plot is established in a way that makes you wait and watch for each and every minute of the film.

Finally, I recommend everybody not to miss the chance of watching a great work like this.

Writing

Attempt the following topic:

Precaution is better than cure. In spite of all safety devices equipped in cars, death tolls of road accidents are annually rising. In not less than 120 words write about the reasons, dangers and how can road accidents be reduced.

These ideas may help you:

- Reasons of road accidents
- Dangers of road accidents
- how can road accidents be reduced.

Outline

Introduction

Most road accidents are caused by careless drivers who may not pay attention to the road

Body

- 1- Reasons of road accidents
 - a- Distraction
 - b- not taking care of the car maintenance
- 2- Dangers of road accidents
 - a- A driver might be disabled or die.
 - b- He can't continue to live as he used to do.
- 3- how can road accidents be reduced.
 - a- Making sure of the car' s readiness
 - b- Drivers must respect traffic rules.

conclusion

As you see, safety equipments alone are not enough to prevent injuries and death rates rising can't be controlled unless car drivers stick to traffic rule and be careful and very attentive while driving.

Most road accidents are caused by careless drivers who may not pay attention to the road.

Distraction is one of the main reasons of road accidents. Examples of distractions are many but the main ones are eating, drinking smoking, text messaging talking on the phone and not respecting traffic rules and not using seatbelts .When a driver does one of these things, his focus on the road reduces to 50%,He can't watch all cars travelling in from , beside or behind him. The car can deviate from its track and cause a terrible accident.

Another reason for road accidents is not taking care of the car maintenance. For example, the tires of the cars are the direct contact of the car with the land.The tires must be taken care of by inflating and lubricating them.Also,car engine in general should always be checked because they may stop in the middle of the road. Some safety devices ABS can't work if there was any breakdown in the car tires or brake system.

Car accidents can lead to terrible results. A driver might be disabled or die. He can't continue to live as he used to do.he might retire from work.Also,accidents lead to death.

This problem needs urgent solutions,but these solutions need total obedience and adherence.One of the solutions is taking consistent care of the car's mechanical condition.Also.Drivers must stop distracting themselves while driving. Drivers must respect traffic rules.They must use seatbelts because ABS can't work if the seatbelt is not used

As you see, safety equipments alone are not enough to prevent injuries and death rates rising can't be controlled unless car drivers stick to traffic rule and be careful and very attentive while driving.

There are many types of damage threatening our natural world like global warming, pollution, deforestation and endangered species.

In not less than 120 words write about the reasons, dangers and your suggestions of how to reduce these dangers.

These ideas may help you:

- Reasons of the damages threatening the natural world
- Dangers of these damages
- how can these damages be reduced.

Outline

Introduction

We must be aware of the damages we are causing to our natural world.

Body

- 1- Reasons of the damages threatening the natural world
 - a- poaching...felling down trees
 - b- toxic chemicals
- 2- Dangers of these damages
 - a-pollution...climate change
 - b- animal extinction..habitat destruction
 - c-global warming
- 3- how can these damages be reduced.
 - a-preventing poaching
 - b- protecting forests..raising awareness

Conclusion

Finally, we should look after endangered species because their survival is our survival.

world. Not only am I talking about animals but I am also talking about plants or kinds of trees. Without any of these species, the lifecycle would become out of balance.

In fact, the question that a lot of people ask is why many species become endangered and then become extinct. There are many reasons why plants and animals are becoming in danger. There are many reasons for this; such as climate changes, deforestation, agriculture and aquaculture, poaching or illegal hunting and toxic chemicals. Pollution of the air and water also affects the wildlife and even the plants.

In my opinion, we must prevent the destruction of the natural world. If you are interested in protecting wildlife, you should look after birds, animals and plants in the wild. We should make sure that there are no any toxic substances in the wild or in the sea.

Finally, we should teach others, especially the children, why protecting animals or plants in the wild or in the desert is very important for us. We should teach them love of nature and protecting it.

Finally, we should look after endangered species because their survival is our survival.
