IV. Set Book (40 Marks)

Answer only *FOUR* of the following questions: (4x10= 40 M)

23. How do Islamic values influence the system of laws in Kuwait?

.....
.....

24. How would life be without laws?

.....
.....

25. How would you define “tolerance” in your own words?

.....
.....

26. What human activities trigger the process of desertification?

.....
.....

27. Why is recycling becoming such an important issue for many people today?

.....
.....

V. Writing (120 Marks)

Write on the following topic: (Expository) (Unit 1)

It's known that the culture of blame makes people focus on blaming others for mistakes instead of learning from them.

Plan and write an essay of 14 sentences – 160 words discussing your understanding of the culture of blame and the negative effects it can have.

NB: Your topic should include an introduction, a body and a conclusion.

Outline (20)

Introduction:

.....

.....

Body:

Paragraph 1:

.....

.....

.....

.....

Paragraph 2:

.....

.....

.....

.....

Conclusion:

.....

.....

.....

Topic (100 M)

Outlining	Exposition of ideas and coherence	Paragraphing & number of sentences	Spelling	Grammar	Handwriting spacing and punctuation	Total
20	60	10	10	10	10	120

VI. Reading Comprehension (110 Marks)

Read the following passage carefully, then answer the questions that follow:

Bats are wild animals. They are the only mammals that are able to fly. Bats can be found almost everywhere in the whole world except in very cold or very hot countries. They are mostly found in tropical countries.

Bats have an interesting way of looking at their world. Bats are nocturnal, which means they are most active at night. They don't use their eyes to find their way around in the dark. They use their ears instead.

Bats are among a very selected group of animals. The animals in this group also include whales and dolphins. They all use a very high-frequency sound, which is a special noise, to do what other animals do with their eyes. This skill is known as echolocation. Echolocation allows bats to hunt for food. It also helps **them** avoid obstacles in their path as they fly in the dark. It even lets them communicate with other bats.

So how does echolocation work? It is just like ringing sounds in a large, empty room or at the edge of a narrow valley. Bats move air across their vocal cords just like people do when they speak or shout. Some bats make the sound come out of their mouths. Others make the sound come out of their noses. The sound they make has a very high noise. This means the sound waves move very quickly. The energy from the sound waves goes out in front of the bat and **bounces off** any objects there. It creates a ringing sound that returns back to the bat.

The bat's ears often appear quite large compared to the size of its head. Depending on where the sound hits on the folds of the bat's ear, the bat can tell very precisely where an object is. The strength of the echo can even tell the bat how large the object is. The echo from a moving object has a different sound from the one that is still. It is either lower or louder. The sound is louder if the object is coming closer and lower if it's going away. This is important because it helps the bat find insects to eat.

The process of echolocation is very natural for the bat. The bat does not have to think about listening, or what to do next. It is natural for bats to see with their ears!

A. Choose the correct answer from a, b, c and d: (5x 10= 50 M)

28. A suitable title for the passage is:

- a. Sound Waves
- b. Vocal Cords
- c. Echolocation in Bats
- d. Bats are nocturnal

29. The underlined word **bounces off** in the 4th paragraph is closest in meaning to:

- a. hits
- b. flies
- c. accepts
- d. echoes

30. The underlined pronoun **them** in the 3rd paragraph refers to:

- a. bats
- b. dolphins
- c. animals
- d. whales

31. Bats can find their food:

- a. with their eyes.
- b. during the day.
- c. based on their ears.
- d. in hot or cold areas.

32. According to the passage, which of the following is **NOT TRUE**?

- a. Bats are most active at night.
- b. The bat's head is smaller in size than its ear.
- c. Bats are different from other animals in finding their way.
- d. Sound of objects prevents bats from getting their food.

B. Answer the following questions: (4x15= 60 M)

33. What kind of sound does a bat use for echolocation?

.....

.....

34. Where are bats mostly found?

.....

.....

35. How do bats make the sound?

.....

.....

36. How can bats tell accurately where an object is?

.....

.....

VII. Summary Making (60 Marks)

Read the following passage, then do as required:

It is thought that the effects of everyday noise can leave us in a state of almost constant anxiety. Experts have researched many ways in which we can reduce this problem. Let's consider some of their ideas and suggestions. Firstly, you should try to start the day with some silence. Then, for a few minutes, sit completely still with a straight back and empty your mind. Imagine yourself looking up at a blue sky. Finally, stop talking and start thinking instead. The great thing about this exercise is that you can find peace for yourself even when you seem to be completely surrounded by noise.

In a paragraph of FOUR sentences ONLY, summarise and paraphrase the previous passage in answer to the following question: (60 Marks)

How can we reduce the problem of everyday noise?

.....

.....

.....

.....

.....

.....

Rubrics	Content/ relevance of ideas	Paraphrasing	Spelling & grammar	Paragraph format	Total
	30	20	5	5	60

VIII. Translation (30 Marks)

Translate the following into good English:

جاسم: من اهم المشاكل التي يواجهها العالم ندرة المياه العذبة
احمد: اوافقك الرأي، يجب على الجميع المحافظة على كمية المياه المستخدمة بشكل يومي

Jaseem:

.....

Ahmed:

.....
