**Reading Comprehension**

Last Saturday, my family went to a restaurant called Sunny Meals to celebrate my brother's football team winning an important match. My brother Ali scored the winning goal, and everyone was proud of him. To make the day extra special, my parents took us out for a tasty dinner.

Sunny Meals is a place with bright colours and shiny decorations. It is called Sunny Meals because the owners want people to feel warm and happy; just like sunshine, when **they** eat there.

When we arrived, the restaurant was full of people. Luckily, we did not wait for a long time for a table because my father made a reservation. The waiter gave us menus with lots of delicious food. I ordered grilled chicken with rice, my sister **picked** cheesy pasta, and my brother ordered his favourite pizza.

While we were sitting, we talked about the exciting match and how my brother helped his team win. We laughed and shared funny stories. The food arrived quickly. Everyone enjoyed their meals. [almanahj.com/kw](http://almanahj.com/kw)

For sweet, we had chocolate ice cream cake. Celebrating with my family made me feel happy. It was a night I will always remember.

## Reading Comprehension

Do you know that the blue whale is the largest animal that has ever lived on Earth? These amazing creatures can grow to be as long as three school buses and weigh as much as 33 elephants. Even a baby blue whale is huge; it is born about 7 metres long and weighs about 2,500 kilogrammes.

Blue whales live in all the world's oceans. They are not fish; they are mammals. This means they breathe air, have warm blood, and give birth to live babies. To breathe, they have two holes on the top of their heads called blowholes. When they come to the surface, they spray water high into the air.

Even though they are so big, blue whales eat some of the smallest animals in the ocean. They mainly eat krill, which are tiny, shrimp-like animals. A single adult blue whale can eat about 4,000 kilogrammes of krill in one day! Blue whales also make very loud sounds. In fact, they are the loudest animals on Earth. They use these sounds to communicate with other whales that are many kilometres away.

Today, blue whales are an endangered species. This means there are not many of them left in the ocean. People and governments are working hard to protect them so that these "gentle giants" can stay in our oceans for a long time.

**Reading Comprehension**

There is nothing like travelling and seeing a new place for the first time. People of all ages, from all around the world, go to foreign places for different reasons – mainly, for work, meeting families, and spending free time. People can travel by plane, train, ship or by car, travelling is generally an exciting experience, especially for people who can pay for comfortable and safe ways of travel.

People can make money when they travel. This is achieved when they travel to do business or work. They also travel to see loved ones and enjoy oneself on a vacation. There are other things about travelling that you need to try out. You do not need to become a tour guide to travel. Everybody can travel. Travelling is a chance and a way to relax from everyday busy life. Therefore, **it** helps you feel better, both in mind and body.

Travelling helps you learn about yourself. You might run into difficult situations where you need to be smart and think differently. It helps develop a new group of skills that you didn't think you had within you. When travelling, people always develop a deeper understanding of other cultures. That is why it is interesting to **observe** the way people of other cultures live. You will also have the chance to try different kinds of food and to create nice memories that you will never forget.
