### Reading Comprehension

#### Read the following passage, then answer the questions below:

Reading is an important skill for people of all ages. When we read, we can discover interesting facts and stories that make us think. It's like a magical door that provides the world with creative ideas and adventures. Reading also helps us understand people better and communicate more effectively with **them**. So, whether we read about dinosaurs or space, it's like exercise for our brains!

Reading is not just about learning. It's also like making new friends because when we read stories, we meet different characters and learn about their feelings and adventures. This helps us understand how others might feel in real life. Plus, it can be a great way to relax and have fun. Imagine going on a journey with a friendly dragon or exploring a magical land. Reading helps our imagination grow and bring new worlds to life. It is like having a ticket to a special world of our own.

In our fast-changing world, we use many electronic gadgets like smartphones and computers every day. Even with all these devices, reading is still very important because it helps us learn new things and know more about everything around us.

Reading isn't just for school; it's for life! When we read a lot, we become smart thinkers who can understand things better. It's like having a treasure chest full of knowledge. So, let's pick up our favourite books and start this **fascinating** adventure of reading together!

### Reading Comprehension

#### Read the following passage, then answer the questions below:

Artificial Intelligence, or AI, is becoming a common tool used almost by everyone in schools, workplaces, and even in our homes. Many people use AI to save time, find information, or learn new things. When used carefully, it can make life easier and help us understand difficult ideas. For example, students can ask AI to explain a topic in simple words, and workers can use it to organise their tasks.

However, there are dangers when people use AI tools without thinking. One problem is that AI does not always give correct information. Trusting AI too much is risky because it sometimes makes mistakes which can lead people to believe false information. Another danger is that using AI all the time can make people less creative, because **they** stop thinking for themselves. Some people may also share **private** information with AI without knowing where that information goes or how it is used. This can put their privacy at risk.

To use AI safely, people should check the information it gives by comparing it with other sources. They should also keep personal details private and use AI as a tool, not as a replacement for their own thinking. When people use AI responsibly, they can enjoy its benefits while avoiding the possible dangers. As AI becomes even more common in our daily lives, learning how to use it wisely is very important. By thinking carefully, we can use AI in a way that is both safe and useful.

#### a. Choose the correct answer from a, b, c, or d:

01. The **best title** for this passage is:

- a. Ways to Save Time
- b. How to Make Life Easier
- c. **Using AI in a Safe Way**
- d. The Future of Schools

02. The underlined word "**private**" in the 2<sup>nd</sup> paragraph means:

- a. unusual
- b. dangerous
- c. popular
- d. **personal**

03. The underlined word "**they**" in the 2<sup>nd</sup> paragraph refers to:

- a. dangers
- b. **people**
- c. mistakes
- d. tools

04. How can AI help workers?

- a. **It organises their tasks.**
- b. It keeps their privacy safe.
- c. It explains school topics in simple words.
- d. It gives them correct information all the time.

05. Why can using AI all the time be a problem?

- a. It does not allow people to share information.
- b. It prevents people from understanding difficult ideas.
- c. It helps people know where their information goes.
- d. **It can make people less creative.**

06. The **purpose** of the writer in writing this passage is to:

- a. teach us how to build our own AI robot.
- b. tell us that AI is fun and we should use it for everything.
- c. say that AI is very dangerous and we should never use it.
- d. **explain that AI can be helpful, but we need to be careful and use it safely.**

**b. With reference to the passage, answer the following questions:**

07. What happens when people learn how to use AI responsibly?

**They can enjoy its benefits while avoiding possible dangers.**

08. Why do you think trusting AI too much is risky?

**Because it sometimes makes mistakes which can lead people to believe false information.**

**What you eat, what you do, and what you think finally determines how you feel and how long you live.**
