Read the passage and answer the questions:

Many teenagers spend hours every day on social media, posting pictures, chatting, and sharing their thoughts. At first glance, everything looks perfect — everyone seems happy, stylish, and popular. Grade 8 - unit 7 - Reading Comprehension

Read the following passage and answer the questions:

Travelling today has become easier and faster because of technology. Many years ago, people had to wait for weeks or months to reach another country by ship. Now, with airplanes, they can travel the same distance in just a few hours. Technology has also made planning trips much simpler. People can book hotel rooms, buy tickets, and check maps online without leaving their homes. Some even use apps that show them the best places to eat or visit.

Technology is also changing *how* we experience travel. Virtual reality allows people to “visit” famous places like the Pyramids or the Eiffel Tower without leaving their house. This type of digital travel helps people learn about other cultures and history. Whether we travel in person or online, we open our minds and learn to understand the world better. It also helps us appreciate our own culture and the beauty of our planet.

Choose the correct answer:

- The best title for the passage is:

A The Problems of Travelling	B The History of Technology
C Travelling in the Modern World	D How to Travel by Ship
- The word *virtual* in the passage means:

A Real and physical	B Imaginary or computer-based
C Expensive	D Foreign
- The underlined pronoun *they* refers to:

A People	B Airplanes	C Countries	D Maps
-----------------	--------------------	--------------------	---------------
- The purpose of the writer is to:

A Tell a funny story about travel
B Describe how travel has become easier with technology
C Complain about modern travel
D Explain why people should not travel

5. All the sentences are right except:
- A People can use apps to find places.
 - B Planes take longer than ships.
 - C Technology helps with travel plans.
 - D Virtual travel helps people learn.
6. According to the passage, technology helps people:
- A Travel slower to enjoy the view
 - B Forget about other cultures
 - C Plan and explore more easily
 - D Avoid using the internet

Answer the following questions:

7. How does technology make travelling easier?

8. Why do you think learning about other cultures is important for travelers?

Grade 8 – unit 8 – Reading Comprehension

Read the following passage and answer the questions:

Everyone has dreams they want to achieve, but the road to success is not always smooth. Some people want to become good students, athletes, or artists. On their way, they may face failure, fear, or people who do not believe in them. These problems can make a person feel sad or ready to quit. However, those who stay **determined** never stop trying. Determination means continuing to work hard even when things are difficult. It also means believing that each mistake can be a lesson for success.

When challenges appear, people should remember their reasons for starting. A goal becomes easier when you take one small step each day instead of trying to do everything at once. It is also helpful to learn from others, ask for advice, and practice patience. A person who believes in *himself* or *herself* can rise again after every failure. Many successful people failed many times before they reached their dreams. Life always rewards those who show courage, hope, and hard work. No matter how long it takes, staying strong and positive is the best way to reach your goals.
