Reading

Read the following passage and answer the questions:

Throughout history, humans have searched for new ways to communicate. Ancient people used cave paintings, smoke signals, and even drums to send simple messages. Later, written letters became the main method of communication, though **they** often required weeks or months to reach their **destination**. The invention of the telegraph and the telephone marked a turning point, as people could suddenly exchange information much faster.

Today, digital technology has transformed communication completely. Mobile phones, email, and social media allow people to connect instantly across the globe. A teenager in Kuwait can chat with a friend in Japan within seconds. While this has made the world more connected, it also creates challenges. Misunderstandings and false information can spread quickly online, and many people spend less time talking face-to-face.

Despite these challenges, communication remains one of the most powerful human skills. It is not only about words but also about listening carefully, respecting others, and expressing ideas clearly. Strong communication skills are essential in school, work, and personal relationships. Without them, cooperation and trust can be easily lost. In the future, communication methods will continue to develop, but their purpose will remain the same: to connect people, share knowledge, and build understanding among different communities.

*** Choose the correct answer from a, b, c and d:**

1. The best title for the passage is:

a) *Digital Games*

b) *Ways of Communication*

c) *The Life of Teenagers*

d) *The History of Letters*

2. The underlined word “**destination**” means:

a) *result*

b) *journey*

c) *place where something goes*

d) *a kind of letter*

3. The underlined word “**they**” in line 3 refers to:

a) *letters*

b) *destinations*

c) *people*

d) *signals*

4. According to the text, all the following are **true** EXCEPT:

- a) *People used drums and paintings to communicate.*
- b) *Digital communication connects people instantly.*
- c) *Social media never spreads false information.*
- d) *Communication skills are important for relationships.*

5. What is one problem with digital communication?

- a) *It is always too slow.*
- b) *It can spread false information quickly.*
- c) *It has no effect on people's lives.*
- d) *It replaces written language.*

6. What will remain the same in the future according to the passage?

- a) *The tools of communication*
- b) *The purpose of communication*
- c) *The speed of letters*
- d) *The use of drums*

*** Answer the following questions:**

1. Give two ancient methods of communication mentioned in the passage.

.....

.....

2. Why are strong communication skills important today?
