pie chart

What type of chart are these two charts?

pie charts

The two pie charts illustrate the social media platforms used by men and women in the USA, aged 18 – 24 years, in 2018. (1) Overall, Facebook is the most popular social media platform for both genders, with 40% of women and 39% of men using the website. (2) The least popular type of social media for young people in this age group is WhatsApp with only 9% of men and 10% of women using the application. (3)

Instagram is also used fairly equally by both men and women, with 19% and 20% respectively using the application. The most significant difference in social media preference between men and women is seen with Snapchat and Twitter. Snapchat is more popular with women than men, with 21% of women using it compared with only 11% of men. In contrast, Twitter is not as popular as Snapchat with women. Only 9% of women use Twitter, whereas 22% of men use it. (4-8)

Overall, social media use between young men and women in the USA in 2018 is fairly similar. The most significant difference between the genders is seen with the use of Snapchat and Twitter. (9)

Social Media used by Men and Women, aged 18 – 24 years, in the USA, in 2018

2 Read and answer.

Look at the two pie charts below and answer the following questions.

- 1 What do the two pie charts show?
- 2 What is the most popular type of social media for both men and women?
- 3 What is the least popular type of social media for both men and women?
- 4 Do the pie charts show any significant difference in social media use between men and women?

1

What do the two pie charts show?

The social media platforms used by men and women, aged 18- 24 in the USA in 2018.

2

What is the most popular type of social media for both men and women?

Facebook

2026

2025

3

What is the least popular type of social media for both men and women?

Whats App

4

Do the pie charts show any significant difference in social media use between men and women?

**Snapchat is more popular with women,
Twitter is more popular with men.**

3 Read and answer.

Read the summary of the charts in **Activity 2** and answer the questions.

- 1 Which three main pieces of data are discussed in the summary?
- 2 How is the data from the charts used in the summary?
- 3 What tense is the summary written in?
- 4 Has the author included their opinion in the summary?

Learning Strategy

Understanding how to analyse and describe information in charts is an important skill, especially for international examinations.

Read the summary.

The two pie charts illustrate the social media platforms used by men and women in the USA, aged 18 – 24 years, in 2018. (1) Overall, Facebook is the most popular social media platform for both genders, with 40% of women and 39% of men using the website. (2) The least popular type of social media for young people in this age group is WhatsApp with only 9% of men and 10% of women using the application. (3)

Instagram is also used fairly equally by both men and women, with 19% and 20% respectively using the application. The most significant difference in social media preference between men and women is seen with Snapchat and Twitter. Snapchat is more popular with women than men, with 21% of women using it compared with only 11% of men. In contrast, Twitter is not as popular as Snapchat with women. Only 9% of women use Twitter, whereas 22% of men use it. (4-8)

Overall, social media use between young men and women in the USA in 2018 is fairly similar. The most significant difference between the genders is seen with the use of Snapchat and Twitter. (9)

1. Which three main pieces of data are discussed in the summary?

- The most popular social media, the least popular social media, the most significant difference in social media use

2. How is the data from the charts used in the summary?

- **Percentages are included to support sentences.**

3. What tense is the summary written in?

- **present tense**

4. Has the author included their opinion in the summary?

- **No**

C.B.P8.Act2

**Read the
summary
again.**

The two pie charts illustrate the social media platforms used by men and women in the USA, aged 18 – 24 years, in 2018. (1) Overall, Facebook is the most popular social media platform for both genders, with 40% of women and 39% of men using the website. (2) The least popular type of social media for young people in this age group is WhatsApp with only 9% of men and 10% of women using the application. (3)

Instagram is also used fairly equally by both men and women, with 19% and 20% respectively using the application. The most significant difference in social media preference between men and women is seen with Snapchat and Twitter. Snapchat is more popular with women than men, with 21% of women using it compared with only 11% of men. In contrast, Twitter is not as popular as Snapchat with women. Only 9% of women use Twitter, whereas 22% of men use it. (4-8)

Overall, social media use between young men and women in the USA in 2018 is fairly similar. The most significant difference between the genders is seen with the use of Snapchat and Twitter. (9)

4 Read and match.

Read the summary again. Match the sentences 1-9 to the descriptions a-e below.

- a) An analysis of specific details in the chart, highlighting significant similarities or differences.
- b) An introductory sentence that gives an overview of what the chart shows.
- c) A description of the lowest proportion shown in the chart.
- d) Conclusion, summarising key findings shown in the chart.
- e) A description of the highest proportion shown in the chart.

A. An analysis of specific details in the chart, highlighting significant similarities or differences.

4-8

B. An introductory sentence that gives an overview of what the chart shows.

1

C. A description of the lowest proportion shown in the chart.

3

D. Conclusion, summarising key findings shown in the chart.

9

E. A description of the highest proportion shown in the chart.

2

5 Read and choose.

Read the extracts from the summary.

Replace the words and phrases in **bold** with the synonyms in the box.

Instagram is also used fairly equally by both men and women, with 19% and 20% respectively using the application. The most significant difference in social media preference between men and women is seen with Snapchat and Twitter. Snapchat is more popular with women than men, with 21% of women using it compared with only 11% of men. In contrast, Twitter is not as popular as Snapchat with women. Only 9% of women use Twitter, whereas 22% of men use it. (4-8)

Overall, social media use between young men and women in the USA in 2018 is fairly similar. The most significant difference between the genders is seen with the use of Snapchat and Twitter. (9)

Facebook is **the most popular** social media platform for both genders, with 40% of women and 39% of men using the website.

The least popular type of social media for young people in this age group is WhatsApp with only 9% of men and 10% of women using the application.

The most significant difference in social media preference between men and women is seen with Snapchat and Twitter.

Snapchat is **more popular** with women than men, with 21% of women using it compared with only 11% of men.

In contrast, Twitter is **not as popular as** Snapchat with women. Only 9% of women use Twitter, whereas 22% of men use it.

The most significant difference between the genders is seen with the use of Snapchat and Twitter.

Skills book P.8

2 Read and complete.

Look at the chart in **Activity 1** again.

Use the information from the chart to complete the sentences below.

- 1 The _____ illustrates _____ played by _____ at the IB School in _____.
- 2 Overall, _____ at the IB School are more interested in playing sports than _____.
- 3 The most popular sport for boys is _____, with a total of 60 boys playing the sport.
- 4 The _____ sport for girls is hockey, with a total of _____ girls playing the sport.
- 5 The _____ sport for both _____ is running, with only 5 boys and 10 girls participating in the sport.
- 6 A _____ number of boys and girls play tennis. It is also a popular sport, but not _____ popular _____ football and hockey.
- 7 The most significant difference in the type of sports played by boys and girls is _____.
This is the most popular sport for boys, _____ only 20 girls play the sport.
- 8 To summarise, _____.

Answers:

The **column chart** illustrates **sports** played by **boys and girls** at the IB School in **2018**. Overall, **boys** at the IB School are more interested in playing sports than **girls**.

It is clear from the chart, the most popular sport for boys is **football**, with a total of 60 boys playing the sport. The **most popular** sport for girls is hockey, with a total of **55** girls playing the sport. The **least popular** sport for both **genders** is running, with only 5 boys and 10 girls participating in the sport. A **similar** number of boys and girls play tennis. It is also a popular sport, but not **as** popular **as** football and hockey. The most significant difference in the type of sports played by boys and girls is **football**. This is the most popular sport for boys, **but/ however/ in contrast** only 20 girls play the sport.

To summarize, **your own answers..**

Activity one

Informative Writing - Summary of a chart

Write a text of **at least 80 words**. Summarise all the information in the graph/figure

This chart illustrates/ shows _____.

Overall, _____ is the most popular _____ for both genders.

The most popular _____ for boys/men is _____ with _____. The most popular _____ for girls/women is _____ with _____.

On the other hand, the least popular _____ for boys/men is _____ with only _____. However, the least popular _____ for girls/women is _____ with _____.

The most significant difference between both genders is in _____ with _____ for boys/men and _____ for girls/women. _____ is not as popular as _____ for boys/men. In contrast, _____ is not as popular as _____ for girls/women.

To summarise, _____ between boys/men and girls/women is fairly similar/different.

Option 2

The Most Popular Media Courses in Oman, in 2018

Answers:

This chart illustrates/ shows **the most popular media courses in Oman, in 2018**. Overall, **media studies course** is the most popular **courses** for both genders.

The most popular **course** for boys/men is **video game design** with **31%**. The most popular **course** for girls/women is **media studies** with **28%**.

On the other hand, the least popular **media course** for boys/men is **communication studies** with only **9%**. However, the least popular **media courses** for girls/women are **graphic design and photojournalism** with **10%**.

The most significant difference between both genders is in **public relations course** with **17%** for boys/men and **18%** for girls/women. **Communication studies** is not as popular as **video game design** for boys/men. In contrast, **photojournalism** is not as popular as **video game design** for girls/women.

To summarise, **the most popular media courses in Oman, in 2018** between boys/men and girls/women is fairly similar.

Organization of the chart

Paragraph 1 (introduction)

Give an overview of the information in the chart and include:

1. A sentence that describes the chart (**What is the chart about?**)

- **The chart shows**.....
- **The graph illustrates**

2. A description of the main trends shown in the chart

- **Overall,**
- **In general,**

Organization of the chart

Paragraph 2 (body)

1. Write a more detailed description of the trends in the chart(s) and highlight significant results, similarities or differences.

- **Both**
- **Similarity**,.....
- **The most significant differences is**
- **In contrast, / However, / On the other hand**

2. You can start the paragraph by saying:

- **According to the chart,**
- **It is clear that,**
- **As it is shown,**
- **As can be seen,**

Organization of the chart

Paragraph 3 (conclusion)

Summarize the key findings shown in the chart

- To summarize,
- To conclude,

Layout of the description

Paragraph 1

- Thechart shows \illustrates\is about \describes\ highlights.....
- Overall, the most/least popularis.....

Paragraph 2 (Describe the trends in detail using comparatives and superlatives)

- The mostwith.....
- The leastwith.....
- The most significant difference betweenis in
- Use linking words (however, In contrast, On the other hand)

Paragraph 3

- To conclude\ To summarize thebetweenis fairly similar/different.

List of useful adjectives could be in describing charts

- popular = شائع
- common = شائع
- interesting = ممتع
- expensive = غالي
- preferred = مفضل

shared writing

I- Summarize the information in the chart by selecting and reporting the main features. Make comparisons where relevant.

Favourite Foods among teenagers in Oman in 2020

Model answer

Introduction:

The column chart shows 6 kinds of food preferred by teenagers in Oman in 2020, pizza, pasta, nuggets, burger, cookies, and cake. Overall, pizza is the most favorite kind of food of both boys and girls. However, the cake is the least popular kind for both genders.

Or..

The column chart shows the preference of boys and girls of 6 kinds of food in Oman in 2020. Overall, pizza is the most favorite kind of food of both boys and girls. However, the cake is the least popular kind for both genders.

Model answer

Body:

It is clear from the chart, the significant differences between boys and girls in preferring burger, with 60% for boy, while only around 45% for girls. On the other hand, girls are higher than boys in preferring cookies around 55%. Both genders similarly favorite pizza at 50% for boys and 45% for girls. Cake was the least favorite food for both groups, with 10% for boys and 5% for girls.

Model answer

conclusion:

In conclusion, as shown in the column chart is the most favorite kind of food is pizza while the least kind is cake for boys and girls.

Model answer 1

Write a text of **at least 80 words**. Summarise all the information in the graph. Your writing should be **clear** and **organized**.

The column chart illustrates the percentage of online adults who use social media websites by years 2012 and 2013. Overall, the percentage of the adults in 2013 was higher than the percentage in 2012.

In both years Facebook was the most preferred social media website among adults with a percentage of 67% in 2012 and 71% in 2013. As can be seen, the increase in LinkedIn and Twitter was the same both of them raised with 2%. Whereas, there was a noticeable change in the percentage of Pinterest.

To summarise, the number of adults who are using social media websites has increased.

Model answer 2

Write a text of **at least 80 words**. Summarise all the information in the graph. Your writing should be **clear** and **organized**.

What makes people most happy?

www.ielts-exam.net

The charts illustrate the factors that make people most happy for people under 30 and over. The charts presents topics like: achievements, appearance, financial security, traveling and hobbies.

As can be seen, both groups feel happy most when they have achievements at work with nearly the same percentage. Also, doing hobbies came second for both groups. It is clear that people over 30 prefer being with family while people under 30 prefer traveling. Something else to add, 20% of people over 30 feel happy with financial security, while 18% of people under 30 feel happy when they have good appearance.

To conclude, both groups nearly have the same percentage in most factors.

Model answer 3

Favourite Digital Devices of Teenagers in Oman, in 2018

This chart shows the favourite digital devices of teenagers in Oman in 2018. **Overall**, Teenagers like using smartphones more than other devices.

The most popular devices are smartphones with 45% of teenagers. **However, the least popular** ones are games consoles with only 5% of teenagers using them. Tablets are **not as popular as** smartphones. Teenagers **prefer** using laptops **to** using E-readers.

To summarise, smartphones are the most favourite digital devices with teenagers while games consoles are the least.
