? '.What do you understand by 'network' and 'networking

Network: A group of people, organizations, companies, places or systems that are linked together

Networking: This word is often used in a business context. It means the practice of meeting other people involved in .the same kind of work with the purpose of forming new business contacts or sharing information

Social networking' enables people with shared interests to meet new people and connect with others. It can be ' done either in person by meeting people at social events, or electronically by joining websites and chatting to other people online

Background Information

The most popular international social networking sites on the Internet are 'MySpace' and 'Facebook.' MySpace is particularly popular with teenagers, and is .now in a number of different languages Facebook started out as a college-based network and is popular with older students. There are several other websites which link .up people with shared interests

CB Act 1 below, then choose the correct phrase in each of the four statements underneath -

7th January 2012 **Get Connected!**

Have you signed up to a social networking site yet? Over 100 million people have already signed up to the most popular international site. Social networking is becoming one of the most talked about sensations on the Internet. .And it's big business. One of the biggest and best known sites has just been sold for over a billion US dollars

Typically, these social networking sites allow you to post personal profiles, lists of your online friends, interactive blogs, photos, music and videos for other users to see. You can post your profile on networks that are available globally which means you can connect with other users in many different countries. Or you can choose a network .where you may already know most of the people as they connect old school friends and workmates

However, despite their popularity, there have been complaints about the problems of cyberbullying and safety. Many sites have already made attempts to protect younger users, but some sites have still not put security systems in place. Other critics are worried about the negative social effects such impersonal, 'virtual' friendships .will have on individuals in the future
