Dear Fahad,

In this email, I am going to tell you about a great sportsman.

There was a little boy in a country called Brazil. His father was a footballer. But they lived in a very small house in a poor place. The little boy loved playing football too. Many people liked his playing. They said he would be a great football player in the future. But the little boy's mother did not like football.

The boy and his friends did not have any money even to buy a football and shoes to play the game. Somebody helped the boys by giving a football and shoes. The boys were very happy and wanted to win the World Cup for Brazil.

They played for Brazil and won the World Cup in 0558. The little boy played very well and helped to win the World Cup. His name is now famous among the people all around the world. He is Pele.

Hi Sara!

I was doing a project about amazing animals in the world. I found some important information on the net. It was about camels and kangaroos.

Camels live in the desert. They can survive without food or water for a long time. They can live off the fat in their humps. Camels don't sweat, so they don't lose water. Also, I found some information about Kangaroos. Kangaroos live on the plains. They have strong legs and can jump as high as 9 feet. Kangaroos can run 40 miles an hour! Female kangaroos keep their babies in their pouches.

Now, I want to get some information about sharks. If you have some pictures of sharks, send them please.

Dear Becky ,

Thank you for your e-mail. You asked me for some information about my home town. I live in a village called High Top in United States. It is a very small village There are not many houses. We have two shops only, a post office, a hotel and a small school. People keep animals in their farms like goats and sheep. In summer lots of people come to the village.

They go walking and climbing in the mountain. They like taking photos of different places in the village. They also take photos of birds like eagles. The summer in High Top is hot and sunny, but the winter is quiet and cold. There is also lots of rain and snow because the village is high in the mountain.

Smoking is considered one of the increasing habits that spread in the world.

Unfortunately, young people like to imitate their relatives or their stars and they pick up the smoking habit. This habit usually begins when boys try to experiment with every new thing that they can lay their hands on. Many people argue that smoking has positives and negatives, but I believe that negatives are more than the positives. Maybe smoking can help some countries to increase their income as they have factories which make cigarettes or tobacco. For me, smoking should be banned at all cases because it causes lots of problems. It's so damging to your body. It makes you smell bad and it's rude to make others around you smell it. It's unhealthy because it causes lung cancer, loud coughing, heart attacks, etc... I have never tried smoking and I will never do so. I advise all smokers to quit smoking as soon as possible before it's too late.

For each item, shade in the bubble ☐ next to the correct option.

1- Smoking is found in _____.

☐ Oman only ☐ the world ☐ no where

2- Young people _____ smoking to imitate their relatives.

☐ quit ☐ stop ☐ start

3- One of the positives of smoking is increasing the _____ of some countries.

☐ problems ☐ income ☐ diseases

4- Smoking is _____ to your body.

☐ good ☐ bad ☐ useful

5- The writer _____ tried smoking.

Dolphins are one of the most interesting forms of aquatic life. They are easy to organize and they are known to be very smart. There are about 200 species of dolphins in the world. Most of them live in the oceans and a small number lives in parks and freshwater. Young dolphin remains with his mother for a period of 2 or 3 years. Dolphins may be able to dive up to 1,000 feet. They also can swim at a speed of up to 25 miles per hour for a long time. This is about 3 times faster than the fastest humans in the world. It is possible for a dolphin to eat up to 30 pounds of fish daily. There are about 100 teeth in the mouth of a dolphin. They use their teeth to catch their prey but they don't swallow it. All food is swallowed as a whole. They use their tails to move easily where they can leap up to 20 feet. All dolphins have a blowhole at the top where they take in air when they come to the surface.
