Yesterday was really cool! I went with my teacher Mr Hassan and my class to the zoo. We arrived early, when the zoo opened, to have time to see everything. First we saw the koalas. They were having breakfast when we arrived. Koalas only eat something called eucalyptus, and a lot of it – they can eat one kilo every day! They also sleep up to 22 hours a day!

Then we saw an Arabian leopard, a rhino, a gorilla and many other animals, but my favourite animals were the polar bears. We went inside a building to see them because they like very cold temperatures. The two polar bears were swimming and playing with each other when we arrived. I was very sad to find out that polar bears are endangered. Because the planet is getting warmer, there is less ice where they live, so there is less space for them. We really need to do something about that.

At the end of the day, we stopped at the gift shop and I bought a book about polar bears. I took lots of photos with my camera and showed them to my parents at home.

Speaking A and B

The Speaking quiz should be taken by students in a separate class. Ask students to work in pairs. They should ask and answer the questions which you will assess.

Using the rating scale below, determine the scale out of 10 for the students' answers.

Accept short answers as long as they are appropriate. The answers below are suggested. More advanced students will offer longer, more extended answers.

Allow for a minute between each pair of students to assess performance according to the speaking scales.

Some possible answers:

- 1 Polar bears live in cold places and are white.
- 2 They eat fish and squid
- 3 Turtles/Lobsters live in the sea and have a hard shell.
- 4 Arabian camels live in the desert.
- 5 Sharks live in the sea and are dangerous.

Use the writing rating scale below for Task 4 with a total of 5 marks:
