Social media has become a part of daily life for many people around the world. It allows people to stay in touch with friends, share photos, and learn new things. There are both advantages and disadvantages of using social media.

One advantage of social media is that it helps people stay connected, even if they live far apart. People can share news, updates, and photos with friends and family. Social media also allows people to join communities where they can discuss shared interests or find support. Additionally, social media can be a source of news and information, helping people stay informed about the world.

However, social media has its downsides. Spending too much time on social media can lead to addiction or feelings of loneliness. Some people feel pressured to post only positive things, which can create a false image. Furthermore, social media can sometimes expose users to inappropriate content.

In my opinion, social media can be positive if used wisely. Setting time limits and being careful about what you post and view can make social media a healthier experience.

In 2022, my family went to Turkey for the summer holiday. When we arrived at the hotel, we were very tired so we went straight to bed. The next morning we woke up excited to have our first tour in Istanbul. We had our breakfast in the hotel restaurant. The food was delicious and we enjoyed the Turkish coffee.

The first place we visited was Sultan Ahmed Mosque. The tour guide, Mohammed, told us that it was also called the Blue Mosque. It is very beautiful. The second place we visited in Istanbul was the Grand Bazaar. It is the biggest and oldest covered market in the world. My mother bought some silver jewelry and my father bought an amazing silk carpet.

We had lunch in a restaurant called "Kebab". We had rice and grilled fish. For dessert, we had the yummy Turkish ice cream. In the evening, the tour guide took us to the Bosphorus Bridge. We were really amazed by the view of the bridge connecting Asia and Europe. I think we will never forget this holiday.

Playing video games has become a popular hobby for children and adults alike. Many people enjoy playing games because they are fun and challenging. There are both positive and negative aspects of playing video games.

One good side of video games is that, they help improve problem-solving skills. Many games require players to think critically and make decisions quickly. Video games can also teach players about teamwork, as many games are designed for groups. Additionally, some video games can be educational, teaching kids about history, science, or even languages.

However, video games can have some negative effects. Spending too much time playing video games can lead to health issues like eye strain or lack of physical activity. Some games contain violence, which may influence children’s behavior. Moreover, playing games for long periods can distract children from studying or socializing with friends.

In my opinion, parents should control the time their children spend playing video games and choose games that are age-appropriate and non-violent. This way, children can enjoy video games while also staying healthy and balanced.

Hello everyone, today I will tell you about my summer holiday in Brazil. I had a great time in Brazil! I traveled with my uncle's family. We traveled there by plane. It took a long time to reach Rio de Janeiro.

When we arrived, my friend Ana and her family were waiting for us. They welcomed us and Ana was very happy to see me. We went to their house by bus.

On the next day, we visited lots of places in Rio. I was amazed by the heat. It was very hot there. My favorite place was Sugarloaf Mountain - it's really beautiful.

I didn't like the food in Brazil in general. They have lots of different meals and dishes. For example, there is Feijoada, a stew made of black beans. It was tasty!

We stayed with Ana and her family for two weeks. I had a great time and would love to go back again.

LISTENING 2 (Items 6-10)

(5 marks)

You are going to hear **Rawan** talking about her **summer holiday**.

Listen and for each item, write a short answer (**not more than FOUR WORDS**).

Hello everyone, today I will tell you about my summer holiday in Brazil. I had a great time in Brazil! I traveled with my uncle's family. We traveled there by plane. It took a long time to reach Rio de Janeiro.

When we arrived, my friend Ana and her family were waiting for us. They welcomed us and Ana was very happy to see me. We went to their house by bus.

On the next day, we visited lots of places in Rio. I was amazed by the heat. It was very hot there. My favorite place was Sugarloaf Mountain - it's really beautiful.

I didn't like the food in Brazil in general. They have lots of different meals and dishes. For example, there is Feijoada, a stew made of black beans. It was tasty!

We stayed with Ana and her family for two weeks. I had a great time and would love to go back again.

READING 2 (Items 5–10)**(6 marks)**

Read the text. Then complete the task.

Many students think working in groups is better than working alone in class. They like sharing ideas and helping each other. In group work, students can solve problems faster because everyone works together. Also, it's more fun to study with friends. However, working in groups has both good and bad sides.

Group work helps students learn from each other. They can share different ideas and understand things better. It also improves speaking and communication skills, which are important in life. Moreover, working in groups makes big tasks easier because the work is divided among team members. Also, group work saves time because each member can do part of a given task.

On the other hand, group work can sometimes be difficult. I think some students might be lazy, and this can make others feel stressed. Also, it can be hard to focus if the group is too noisy or wastes time talking to each other instead of working. Additionally, not everyone agrees all the time, and this can lead to arguments.

People learn in different ways. Some students understand better when they work with others, while others learn more when they work and study alone.

Last year, my family and I went to Egypt in the winter. When we arrived in Cairo, the weather was very cold and dry. We stayed in a hotel by the Nile. The second day, we decided to spend our day in the downtown and try some local meals and restaurants. We ended our day by taking a horse ride, which was amazing.

On the third day, my father and I woke up early to search for some courses on the internet. I chose to improve my handwriting in Arabic, so I took a seven-day course. In addition, I found an expert musician to teach me how to play the guitar. I enjoyed the two courses. I learned new techniques, so my handwriting was better by the end of the course. Although I bought guitar, I could not play it at all. It was very difficult.

We visited the most famous places nearby, like museums, mosques and markets. People in Egypt are very kind and friendly. I felt like home. I will visit Egypt again in August so I can explore new places and learn new things.
