Life is filled with challenges, but you can always find ways to achieve your goals through hard work, a genuine sense of purpose and will power.

When the young Hussain Khalil Heji finished high school, he was very clear about what he wants at career level. He wanted to study law and learn more about the laws affecting people with disabilities in Qatar. After graduating from Qatar University in 2002, he began his career in the Ministry of Justice, where his talent began to shine. He later became an advisor and a representative of the Ministry in the field of disability awareness and culture.

Hussain is now a legal expert and one of the founders of Al-Meezan, Qatar's portal for people seeking legal information. He is also a contributing writer for Al-Arab daily newspaper, where his articles are seen as a good source of basic legal information. Last but not least Hussain established the "Foundation of the visually impaired friends Qatar" (VIF Qatar), which made many contributions in the field of awareness and guidance for people with visual impairments.

Through VIF Qatar, Hussain and his friends seek to achieve a number of goals. They also inform the society about the rights of the visually impaired, the tools used by them and the best way to collaborate with them at workplace. Finally, they cooperate with the "Qatar social and cultural center for the Blind." and other social institutions through monthly events that include lectures meeting and other activities.

Hussain hopes that society will eventually change its view of disabled people and stop seeing them as persons who need pity or compassion. Directions:

In this section, you will read a passage and answer (2) selected response questions and (2) constructed response ones. Be sure to put your answer in the space provided.

- 1) Black and white giant pandas are much loved in their native China and around the rest of the world. Sadly, they are also very endangered animals. Much of their forest habitat has been cleared for farms, roads, and railroads or for other development.
- 2) The 1,500 giant pandas still in the wild are restricted to cool, damp mountain heights containing bamboo and old growth forest. These forests have the hollow logs and stumps pandas need for dens and shelter. At one time, scientists thought giant pandas' closest relatives might be raccoons. However, DNA tests show pandas are a **species** of bear.
- 3) When giant pandas are not sleeping, they are searching for food and eating. What do they eat? They eat plants, and even meat occasionally. They eat bamboo in the forests, and a lot of it – 25 to 40 pounds (11 to 18 kg) every day! Giant pandas must eat more than one kind of bamboo because the plants are low in nutrients. They eat other plants, and even meat occasionally, but bamboo makes up 99% of their diet. Giant pandas eat by gripping bamboo stems in their front paws and sitting upright, kind of like a person.
- 4) Each paw's grip is aided by an extra-long flesh-covered wrist bone that acts like a thumb. They bleat, bark, huff, and growl during their very short breeding season. Cubs squeal and croak when they're with their mothers.
- 5) Pandas also communicate by leaving scent markings from glands under their tails. Males find breeding females by scent. Males also sometimes do "handstands" so they can leave their scent higher up a tree. Giant panda mothers give birth to one, or sometimes two, tiny cubs. If two cubs are born, only the stronger cub usually survives. Giant panda cubs do not fully open their eyes until they are six to eight weeks old. They do not begin to crawl until ten weeks. They remain with their mothers for 1 ½ to 3 years.

1. What is the **MAIN PURPOSE** of the text?

- A. to provide details about food in the wild
- B. to compare between endangered wild animals
- C. to give information about pandas and their nature
- D. to persuade the reader not to hunt endangered animals

2. DNA tests show pandas are a **species** of bear.

Which of the following words is **CLOSEST** in meaning to the underlined word in the above sentence from paragraph 2?

- A. fact
- B. kind
- C. line
- D. risk

3. What do giant pandas do when they are not sleeping?

- A. They are fighting.
- B. They are climbing trees.
- C. They are playing and running.
- D. They are searching for food and eating.

4. According to paragraph 1, why are a lot of pandas' habitats cleared?

Reason 1:	farms, roads, and railroads or for other development
Reason 2:	

5. According to paragraph 3, what do giant pandas eat?

Type of food 1:	Bamboo
Type of food 2:	They eat other plants, and even meat occasionally
