Part Two (READING)

Directions: Read the following then answer questions 9 to 12.

- 1 The Olympics started thousands of years ago in Ancient Greece. Greek city-states used to send athletes to compete against each other with the reputation of the city and its people on the line as athletes faced more severe consequences, such as fines, public ridicule, and even death when losing a game.
- 2 The modern Olympics began in 1896, but the first one was very different to the Olympics we know today. Only 14 countries and 176 athletes competed in the games, which were hosted in Athens. These Olympics help create peace among the cities and improve cooperation between nations. Also, they attract millions of visitors from around the world, which could create temporary and permanent employment opportunities in various sectors.
- 3 Over time the Olympics grew more popular, and more nations started sending competitors. In 1924, the Winter Olympics started. The first Winter Olympics was hosted in Chamonix, France. Only 16 nations and 258 athletes participated, competing in just 16 different events. Like the Summer Olympics, however, the Winter games gradually became more popular and were held on regular basis except for few rare occasions. The last time the Olympics were called off was during World War II. The reason for the cancellation was the global conflict and the impact it had on international travel and resources. The most notable results of this cancellation were the disruption of athletes' careers and the missed opportunity for host cities to show their preparations and hospitality on a global stage.
- 4 From humble beginnings, the Olympic games have evolved into the grandest games on earth. In fact, the Rio Olympics saw 205 countries and over 10,000 athletes competing in 302 separate events. Furthermore, while the Olympics were mostly hosted by developed countries through much of their modern history, the recent games have been hosted in developing nations, such as Brazil and China to announce their prosperity to the world.
- 5 Recently, criticism over the costs and burden of the games has increased. Norway pulled out of a Winter Olympics just a few years ago because its citizens didn't want to deal with the hassle. Meanwhile, the Summer Olympics in Rio de Janeiro faced many setbacks and challenges. So, what does the future hold for the Olympics? They'll almost certainly continue to be hosted, but given these issues, reform may be inevitable for the game.

- ☐ to compare different games in the Olympics over time
- ☐ to discuss the impact of the Olympic games on the world peace
- ☐ to persuade the reader of the importance of the Olympic games
- ☐ to provide information on the development of the Olympic games

10

In paragraph 1, what does the underlined word "on the line" most LIKELY MEAN?

- ☐ at risk
- ☐ in hand
- ☐ on time
- ☐ by chance

11

Based on paragraph 4, why do developing nations like to host the Olympic games?

- ☐ to compete against other nations
- ☐ to show their prosperity to the world
- ☐ because they wanted to deal with the hassle
- ☐ because they were the grandest games on earth
