READING

1-Do you wake up feeling fresh and alert in the morning or do you drag yourself out of bed most of the time? If you don't have at least eight hours of sleep each night, over time, your health will suffer.

2-Missing an hour or two of sleep for a few days will have an effect on your concentration and performance. However, sleeping more than the recommended hours does not necessarily mean that you will do better or accomplish more. Rather, oversleeping is quite similar to overeating. It makes you feel lazy and your concentration span becomes shorter too.

3- Having at least eight hours of sleep boosts our immunity which is the ability to resist diseases. People who adopt a good night's sleep pattern generally have stronger immunity. For many, especially women, compromising on their beauty sleep is impossible. When you sleep, your body repairs and regenerates skin, blood and brain cells. Our skin glows and our hair shines when we have enough sleep. People who are deprived of sleep usually have dark rings under their eyes.

4-When your body gets the right amount of sleep, it becomes healthy. In fact, everything seems to fall into place. Truly, your memory becomes better and you get smarter. You can maintain your weight which helps reduce blood pressure and stress. That can help keep your heart healthy and decreases the chances of diabetes. You will be able to perform better. While handling tasks, you make fewer mistakes. More importantly, for people who drive, their reaction towards an emergency is faster which reduces accident rates.

1- What is the text MAINLY about?

- a. What happens to our bodies during sleep
- b. The effects of sleep shortage on human skin
- c. The benefits of good sleep habits on our daily life
- d. The difference between overeating and oversleeping

2- What is the closest meaning to the underlined word “boosts”?

- a. creates
- b. consists
- c. embraces
- d. improves

3- How is oversleeping quite similar to overeating?

- a. It makes you feel lazy.
- b. Your concentration will be amazing.
- c. It helps you to be fit.
- d. It prevents making mistakes.

4- Mention two bad effects if you miss 2 hours of sleep for a few days?

Effect1	It affects your concentration
Effect2	It affects your performance

5- According to the last paragraph, what are the benefits when the human body gets healthy?

Benefit1:	Better memory and smarter thinking.
Benefit2:	Maintains weight, reduces stress and blood pressure, and keeps the heart healthy.
