Reading Comprehension:

Directions: Read the passage and answer the questions.

Kids' Health When They Are Not Feeling Well

Sometimes kids do not feel well, and it is important to understand the signs. A headache can happen when a child is tired or has not had enough water. Resting in a quiet place usually helps. A sore throat is another common problem, especially when a child has a cold. Drinking warm water and avoiding cold drinks can make the throat feel better. Kids may also get a toothache if they eat too many sweets or do not brush their teeth well. It is a good idea to visit a dentist if the pain continues. When kids take care of themselves by resting, drinking water, and keeping clean, they can recover faster and stay healthy.

5. What is the text MAINLY about?

- A. safe play
- B. dentist visits
- C. different foods
- D. kids' health problems

6- What does the underlined word "recover" mean?

- A. get active
- B. get worse
- C. get better
- D. get hungry

7. What should kids do when they have a headache?

Resting in a quiet place usually helps

8. What can help when a child has a sore throat?

Drinking warm water and avoiding cold drinks

9. Why might kids get a toothache?

It is a good idea to visit a dentist if the pain continues

Reading Comprehension:

Directions: Read the passage and answer the questions.

When driving, there are certain things you must and mustn't do to keep yourself and others safe. Here are some important road safety rules to remember. You must wear your seatbelt when in a car - it's the law! Passengers in your car must also wear their seatbelts. You must follow speed limits and pay attention to road signs and traffic signals. You must stop at red lights and stop signs and give pedestrians the right of way. You mustn't use your phone while driving - using a mobile without a hands-free device is illegal in many countries. You mustn't drink and drive either. You should use turn signals to let other drivers know when you're going to change lanes or turn. Keep a safe distance between your car and the car in front of you. Don't drive too fast or too slow, and don't tailgate. Following these rules will help you stay safe on the road!

5- What is the main idea of the text?

- A. bike safety tips.
- B. road safety rules.
- C. traffic safety signs.
- D. lane safety distance

6- What does the underlined word “**certain**” mean?

- A. unsure
- B. doubt
- C. definite
- D. necessary

7- What mustn't you do while driving?

You mustn't use your phone while driving. You mustn't drink.

8- Why must you stop at red lights and stop signs?

To give pedestrian the right of way.

9- What should you do to let other drivers know your intentions?

You should turn signals.

Reading Comprehension:

Directions: Read the passage and answer the questions.

Computers can do lots of jobs. They can do maths, store information, or play music. You can use a computer to write or to play games. What do you know about the history of computers?

The first computers were huge. They were the size of a room! They were so big that people didn't have them at home. Early computers could also only do simple maths, like a calculator. In the nineteenth century, Alan Turing had the idea for a computer you could program to do different things.

Jack Kilby invented the microchip in 1958. Microchips are tiny but can store lots of information. They helped make computers smaller. Later, computer games were very popular. Now, lots of people buy computers because they become smaller and cheaper.

5- What is the main idea of the text?

- A. computers' price
- B. mobile phones' size
- C. microchips' invention
- D. computers past and now

6- What does the underlined word "huge" mean?

- A. big
- B. high
- C. wide
- D. light

7- What could early computers do?

Early computers could also only do simple maths, like a calculator

8- When did Jack Kilby invent the microchip?

Jack Kilby invented the microchip in 1958.

9- Why do lots of people buy computers?

Because they become smaller and cheaper.
