Reading 1

Reading Comprehension:

Read the passage and answer the questions.

Artificial Intelligence, or AI, means when computers can think and learn like people. AI helps us do many things quickly. For example, when you talk to Siri or Alexa, that is AI listening and talking to you.

AI is used in many places. In schools, it helps teachers check students' work. In hospitals, AI helps doctors find out what is wrong with sick people. Some cars use AI to drive safely on their own.

AI is very smart, but it still needs people to teach it. Humans tell AI what to do. If we use AI in good ways, it can make life easier and better for everyone.
