Email giving advice

Dear Ali,

How are you? I hope you are well.

First, you should explain to the coach that you like football and art. Tell him that you can't leave the art class because you are good at it, and you hope to become an artist one day. I am sure he will understand.

Second, you should try to do both hobbies and see if it works. I hope everything goes well.

Bye for now

Omar

Reading

Reading Comprehension:

Directions: Read the passage and answer the questions.

Salem works as a travel agent. He sells plane tickets and organizes tours to visit the most famous places in different parts of the country. His agency is very famous in the town center. It works well and many people come to it, so Salem earns a lot of money.

Salem lives far from the town centre, so he must get up at 5:30 every morning. He has a quick breakfast and then goes to work. His agency opens at 9:00, but he begins at 7:00 and has a busy day. He rarely has time to have lunch. He usually eats a sandwich at 1:00 or 2:00 and drinks a lot of coffee and tea.

His agency closes at 6:00 p.m. The traffic is always very busy in the town centre. Salem rarely gets home before 7:30. He eats his dinner at 8:30, and watches TV for one or two hours. He goes to bed early because he is usually *exhausted* at the end of the day. He rarely goes out in the evening.

Salem is free only on Fridays. He spends it with his parents. Salem does not have enough time to play tennis or go to the cinema. Because of his busy life, he can meet his friends once a month. Salem thinks his job is very tiring.

Reading

Reading Comprehension:

Directions: Read the passage and answer the questions.

1- The most beautiful hummingbirds are found in the West Indies and South America. The crest of the tiny head of one of these birds shines like a sparkling crown of colored light. The shades of color on its breast are brilliant. As the bird flits from one flower to another, it looks like a bright flash of sunlight than it does a living being.

2- They are called hummingbirds because they make a soft, humming noise by the rapid motion of their wings - a motion so rapid, that as they fly, you can hardly see that they have wings.

3- One day, when walking in the woods, I found the nest of one of the smallest hummingbirds. It was about half the size of a very small hen's egg, and it was attached to a twig no thicker than a needle. It seemed to have been made of cotton fibers and was covered with the softest bits of leaf and bark. It had two eggs in it, and each was about as large as a small sugarplum.

4- When you approach the spot where one of these birds has built its nest, you need to be careful. The mother bird will charge at you and try to peck you. Its sharp beak may hurt you. The poor little thing knows no other way of **defending** its young,
